

Handbook of Transition Metal Polymerization Catalysts

Edited by
RAY HOFF
ROBERT T. MATHERS

CONTENTS

| | |
|---|-------------|
| Introduction | vii |
| About the Authors | xiii |
| | |
| 1 Commercially Available Metal Alkyls and Their Use in Polyolefin Catalysts | 1 |
| <i>Dennis B. Malpass</i> | |
| | |
| 2 Porous Silica in Transition Metal Polymerization Catalysts | 29 |
| <i>Thomas J. Pullukat and Robert E. Patterson</i> | |
| | |
| 3 Computational Modeling of Polymerization Catalysts | 53 |
| <i>Monika Srebro and Artur Michalak</i> | |
| | |
| 4 Scale-Up of Catalyst Recipes to Commercial Production | 103 |
| <i>C. P. Cheng</i> | |
| | |
| 5 Commercialization of Olefin Polymerization Catalysts: Model for Success | 113 |
| <i>C. E. Capshew</i> | |
| | |
| 6 Supported Magnesium/Titanium-Based Ziegler Catalysts for Production of Polyethylene | 131 |
| <i>Thomas E. Nowlin, Robert I. Mink, and Yury V. Kissin</i> | |
| | |
| 7 Stereospecific α-Olefin Polymerization with Heterogeneous Catalysts | 157 |
| <i>John Severn and Robert L. Jones, Jr.</i> | |
| | |
| 8 $MgCl_2$-Supported $TiCl_4$ Catalysts for Production of Morphology-Controlled Polyethylene | 231 |
| <i>Long Wu and Sieghard E. Wanke</i> | |
| | |
| 9 Product Morphology in Olefin Polymerization with Polymer Supported Metallocene Catalysts | 261 |
| <i>Long Wu and Sieghard E. Wanke</i> | |

| | | |
|-------------------|--|------------|
| 10 | Review of Phillips Chromium Catalyst for Ethylene Polymerization | 291 |
| | <i>Max P. McDaniel</i> | |
| 11 | Silica-Supported Silyl Chromate-Based Ethylene Polymerization Catalysts | 447 |
| | <i>Kevin Cann</i> | |
| 12 | Ethylene Polymerization and α-Olefin Oligomerization Using Catalysts Derived from Phosphoranes and Ni(II) and Ni(0) Precursors | 459 |
| | <i>Scott Collins</i> | |
| 13 | Late Transition Metal-Catalyzed Co- and Terpolymerization of α-Olefins with Carbon Monoxide-Polyketones: Synthesis and Modification | 467 |
| | <i>Timo M. J. Anselment, Manuela Zintl, Maria Leute, Rüdiger Nowack and Bernhard Rieger</i> | |
| 14 | Copper Catalysts for Olefin Polymerization | 497 |
| | <i>Anna Maria Raspolli Galletti</i> | |
| 15 | Ring-Opening Metathesis Polymerizations and Acyclic Diene Metathesis Polymerizations with Homogeneous Ruthenium and Molybdenum Catalysts and Initiators | 513 |
| | <i>Robert T. Mathers</i> | |
| 16 | Cobalt Ziegler-Natta Catalysts for Synthesis of Poly-<i>cis</i>-1,4-Butadiene | 537 |
| | <i>Ray Hoff</i> | |
| Appendix A | Pyrophoricity of Metal Alkyls | 551 |
| | <i>Dennis B. Malpass</i> | |
| Appendix B | Rheological Terms for Polymerization Catalyst Chemists | 563 |
| | <i>Gregory W. Kamykowski</i> | |
| Index | | 567 |
