

John Buglear

statsmeans business

Statistics with Excel for
business, hospitality
and tourism

Second Edition

Contents

WELCOME	xi
A WORD TO TUTORS.....	xiii
ACKNOWLEDGEMENTS.....	xv
1 Numbers in Business: The Basics	1
1.1 Introduction	2
1.2 How this Book is Organized.....	3
1.3 Taking the First Steps	4
1.3.1 The Key words you need to know	4
1.3.2 The basic numerical skills you need.....	6
1.4 Technological Support.....	17
<i>Excel Recipe Card – Data entry and summation</i>	19
Test yourself questions.....	21
2 Presenting Data	23
2.1 Introduction	24
2.2 Types of Data	24
2.3 Displaying Qualitative Data	26
2.3.1 Pictographs	28
2.3.2 Pie charts.....	30
<i>Excel Recipe Card – Pie charts</i>	31
2.3.3 Bar charts	33
<i>Excel Recipe Card – Bar charts</i>	34
<i>Excel Recipe Card – Stacked bar charts</i>	36
<i>Excel Recipe Card – Clustered bar charts</i>	39
2.4 Displaying Quantitative Data	41
2.4.1 Grouped frequency distributions.....	42
2.4.2 Histograms	45
<i>Excel Recipe Card – Histograms part 1: Frequency distributions</i>	46
<i>Excel Recipe Card – Histograms part 2</i>	48
2.4.3 Cumulative frequency graphs	52
2.4.4 Stem and leaf displays	56
2.4.5 Presenting two quantitative variables	62

<i>Excel Recipe Card – Scatter diagrams</i>	63
2.4.6 Presenting time series data	66
<i>Excel Recipe Card – Times series charts</i>	68
Test yourself questions.....	71
3 Summarizing Values of a Single Variable	73
3.1 Introduction	74
3.2 Measures of Location	74
3.2.1 The mode	75
3.2.2 The median	76
3.2.3 The arithmetic mean	77
<i>Excel Recipe Card – Averages</i>	78
3.2.4 Choosing which measure of location to use.....	80
3.2.5 Finding measures of location from classified data	84
3.3 Measures of Spread.....	90
3.3.1 The range	90
3.3.2 Quartiles and the semi-interquartile range.....	92
3.3.3 The standard deviation	96
<i>Excel Recipe Card – Measures of spread</i>	99
<i>Excel Recipe Card – Quartiles</i>	100
3.3.4 Finding measures of spread from classified data	103
3.4 Measuring Quality and Consistency.....	106
Test yourself questions.....	107
4 Summarizing Bivariate Data.....	109
4.1 Introduction	110
4.2 Correlation and Regression	110
4.2.1 Correlation analysis	111
<i>Excel Recipe Card – Correlation coefficients</i>	115
4.2.2 The Coefficient of determination.....	120
4.2.3 Simple linear regression analysis.....	121
<i>Excel Recipe Card – Simple linear regression</i>	126
<i>Excel Recipe Card – Fitted line plots</i>	127
<i>Excel Recipe Card – Embellishing fitted line plots</i>	129
4.3 Summarizing Data Collected Over Time	132
4.3.1 Index numbers.....	133
4.3.2 Basic time series analysis	137
<i>Excel Recipe Card – Time series charts with trend lines</i>	146
Test yourself questions.....	149

5	Assessing Risk	151
5.1	Introduction	152
5.2	Measuring Probability.....	153
5.3	Different Types of Probabilities	156
5.4	The Rules of Probability	159
5.4.1	The addition rule.....	159
5.4.2	The multiplication rule	162
5.4.3	Bayes' rule	165
5.4.4	Applying the rules of probability	167
5.5	Probability Trees.....	169
	Test yourself questions.....	171
6	Putting Probability to Work	173
6.1	Introduction	174
6.2	Simple Probability Distributions.....	174
6.3	The Binomial Distribution.....	179
	<i>Excel Recipe Card – The binomial distribution.....</i>	<i>181</i>
6.4	The Poisson Distribution.....	184
	<i>Excel Recipe Card – The Poisson distribution.....</i>	<i>185</i>
6.5	Expectation	187
6.6	Decision Trees	189
	Test yourself questions.....	192
7	Modelling Populations	193
7.1	Introduction	194
7.2	The Normal Distribution	194
	<i>Excel Recipe Card – The normal distribution</i>	<i>197</i>
7.3	The Standard Normal Distribution	200
7.3.1	Using the standard normal distribution	210
7.4	Sampling Distributions	213
7.4.1	Estimating the standard error	216
7.5	The <i>t</i> Distribution.....	217
	<i>Excel Recipe Card – The <i>t</i> distribution</i>	<i>219</i>
7.6	Choosing the Correct Model for a Sampling Distribution	220
	Test yourself questions.....	221
8	Statistical Decision Making.....	223
8.1	<i>Introduction</i>	<i>224</i>
8.2	Estimation.....	224
8.2.1	Determining sample size.....	232
8.2.2	Estimating without σ	233

8.2.3	Estimating with small samples	234
	<i>Excel Recipe Card – Confidence intervals for the population mean</i>	<i>235</i>
8.3	Estimating Population Proportions.....	235
8.3.1	Determining sample size.....	237
8.4	Hypothesis Testing.....	238
8.4.1	Hypothesis testing without σ	248
8.4.2	Hypothesis testing with small samples	249
8.5	Testing Hypotheses About Two Population Means	250
8.5.1	Large independent samples	251
8.5.2	Small independent samples	253
	<i>Excel Recipe Card – Hypothesis tests for differences between population means</i>	<i>254</i>
8.5.3	Paired samples	255
	<i>Excel Recipe Card – Paired t tests.....</i>	<i>257</i>
8.6	Testing Hypotheses About Population Proportions.....	258
8.7	A Hypothesis Test for the Population Median.....	259
	Test yourself questions.....	262
9	Statistical Decision Making with Bivariate Data.....	263
9.1	Introduction	264
9.2	Contingency Tests.....	264
	<i>Excel Recipe Card – Contingency tests.....</i>	<i>272</i>
9.3	Testing and Estimating with Quantitative Bivariate Data.....	273
9.3.1	Testing correlation coefficients	273
9.3.2	Testing regression models.....	274
	<i>Excel Recipe Card – Hypothesis tests for regression model coefficients.....</i>	<i>280</i>
9.3.3	Constructing interval predictions	282
9.3.4	When simple linear models won't do the job.....	286
	<i>Excel Recipe Card – Residual plots</i>	<i>288</i>
	Test yourself questions.....	290
10	Managing Statistical Research	293
10.1	Introduction	294
10.2	Secondary Data.....	296
10.3	Primary Data	298
10.3.1	Selecting your sample	299
	<i>Excel Recipe Card – Random number generation.....</i>	<i>300</i>
10.3.2	Choosing the size of your sample.....	303
10.3.3	Methods of collecting primary data	304
10.4	Presenting Your Analysis.....	309

APPENDIX 1 STATISTICAL TABLES	315
APPENDIX 2 ANSWERS TO TEST YOURSELF QUESTIONS	323
REFERENCES.....	343
INDEX.....	345
