

Handbook of Nanoscale Optics and Electronics

Edited by:
Gary Wiederrecht

CONTENTS

Contents	v
Preface	vii
Contributors	ix
Editorial Advisory Board	xii
1 Optics of Metallic Nanostructures G A WURTZ, <i>University of North Florida, Jacksonville, FL, USA</i> R J POLLARD and A V ZAYATS, <i>The Queen's University of Belfast, Belfast, Northern Ireland, UK</i>	1
2 Surface Nanophotonics Theory J M MCMAHON, <i>Northwestern University, Evanston, IL, USA</i> S K GRAY, <i>Argonne National Laboratory, Argonne, IL, USA</i> G C SCHATZ, <i>Northwestern University, Evanston, IL, USA</i>	53
3 Second Harmonic Generation in Nanostructures P-F BREVET, <i>Université Claude Bernard Lyon 1, Villeurbanne, France</i>	75
4 Organic Electronic Devices with Water-Dispersible Conducting Polymers J TARVER, <i>Princeton University, Princeton, NJ, USA</i> J E YOO, <i>University of Texas at Austin, Austin, TX, USA</i> Y-L LOO, <i>Princeton University, Princeton, NJ, USA</i>	107
5 Electronic Properties of Alkanethiol Molecular Junctions: Conduction Mechanisms, Metal-Molecule Contacts, and Inelastic Transport G WANG, T-W KIM and T LEE, <i>Gwangju Institute of Science and Technology, Gwangju, Korea</i> W WANG, <i>University of Wyoming, Laramie, WY, USA</i> M A REED, <i>Yale University, New Haven, CT, USA</i>	141
6 Nanoscale Transistors Y LI and C-H HWANG, <i>National Chiao Tung University, Hsinchu 300, Taiwan</i>	167
7 Spin-Based Data Storage O OZATAY, <i>San Jose Research Center, San Jose, CA, USA</i> P G MATHER, <i>Everspin Technologies, Chandler, AZ, USA</i> J-U THIELE, <i>Seagate Recording Media Operations, Fremont, CA, USA</i> T HAUET and P M BRAGANCA, <i>Hitachi Global Storage Technologies, San Jose Research Center, San Jose, CA, USA</i>	239

8	Optical Holographic Data Storage K CURTIS, L DHAR and W L WILSON, <i>InPhase Technologies, Longmont, CO, USA</i>	293
9	Nanostructures and Surface-Enhanced Raman Spectroscopy K M KOSUDA, J M BINGHAM, K L WUSTHOLZ and R P VAN DUYNE, <i>Northwestern University, Evanston, IL, USA</i>	309
10	Colloidal Semiconductor Nanocrystal-Enabled Organic/Inorganic Hybrid Light Emitting Devices K R CHOUDHURY and F SO, <i>University of Florida, Gainesville, FL, USA</i> Z KAFAFI, <i>National Science Foundation, Arlington, VA, USA</i>	347
	Index	379
