

LECTURE NOTES

Clinical Biochemistry

GEOFFREY BECKETT

SIMON WALKER

PETER RAE

PETER ASHBY

8th edition

WILEY-
BLACKWELL

Contents

- Preface vi
List of abbreviations vii
- 1 Requesting and interpreting tests 1
 - 2 Disturbances of water, sodium and potassium balance 15
 - 3 Acid–base balance and oxygen transport 35
 - 4 Renal disease 51
 - 5 Disorders of calcium, phosphate and magnesium metabolism 71
 - 6 Diabetes mellitus and hypoglycaemia 90
 - 7 Disorders of the hypothalamus and pituitary 104
 - 8 Abnormalities of thyroid function 118
 - 9 Disorders of the adrenal cortex and medulla 133
 - 10 Investigation of gonadal function, infertility, menstrual irregularities and hirsutism 152
 - 11 Pregnancy and antenatal screening 170
 - 12 Cardiovascular disorders 179
 - 13 Liver disease 196
 - 14 Gastrointestinal tract disease 211
 - 15 Nutrition 223
 - 16 Trauma, inflammation, immunity and malignancy 240
 - 17 Disorders of iron and porphyrin metabolism 255
 - 18 Uric acid, gout and purine metabolism 266
 - 19 Central nervous system and cerebrospinal fluid 274
 - 20 Therapeutic drug monitoring and chemical toxicology 278
 - 21 Clinical biochemistry in paediatrics and geriatrics 290
- Self-assessment MCQs 308
Answers to MCQs 319
Appendix: Reference ranges – SI units and ‘conventional’ units 321
Index 325

Colour plate can be found facing p. 182
