

STUDY GUIDE

SIXTH EDITION

PATHOPHYSIOLOGY

The Biologic Basis for Disease in Adults and Children

Prepared by
Clayton F. Parkinson

Kathryn L. McCance
Sue E. Huether
Valentina L. Brashers
Neal S. Rote

Contents

PART ONE: CENTRAL CONCEPTS OF PATHOPHYSIOLOGY: CELLS AND TISSUES

Unit I: The Cell

1. Cellular Biology, 1
2. Altered Cellular and Tissue Biology, 5
3. The Cellular Environment: Fluids and Electrolytes, Acids and Bases, 13

Unit II: Genes and Gene-Environment Interaction

4. Genes and Genetic Diseases, 21
5. Genes, Environment, and Common Diseases, 27

Unit III: Mechanisms of Self-Defense

6. Innate Immunity: Inflammation, 33
7. Adaptive Immunity, 37
8. Alterations in Immunity and Inflammation, 39
9. Infection, 53
10. Stress and Disease, 65

Unit IV: Cellular Proliferation: Cancer

11. Biology, Clinical Manifestations, and Treatment of Cancer, 71
12. Cancer Epidemiology, 79
13. Cancer in Children, 85

PART TWO: PATHOPHYSIOLOGIC ALTERATIONS: ORGANS AND SYSTEMS

Unit V: The Neurologic System

14. Structure and Function of the Neurologic System, 89
15. Pain, Temperature Regulation, Sleep, and Sensory Function, 93
16. Alterations in Cognitive Systems, Cerebral Hemodynamics, and Motor Function, 103
17. Disorders of the Central and Peripheral Nervous Systems and the Neuromuscular Junction, 113
18. Neurobiology of Schizophrenia, Mood Disorders, and Anxiety Disorders, 127
19. Alterations of Neurologic Function in Children, 133

Unit VI: The Endocrine System

20. Mechanisms of Hormonal Regulation, 139
21. Alterations of Hormonal Regulation, 143

Unit VII: The Reproductive Systems

22. Structure and Function of the Reproductive Systems, 157
23. Alterations of the Reproductive Systems, 159
24. Sexually Transmitted Infections, 173

Unit VIII: The Hematologic System

25. Structure and Function of the Hematologic System, 179
26. Alterations of Erythrocyte Function, 181
27. Alterations of Leukocyte, Lymphoid, and Hemostatic Function, 187
28. Alterations of Hematologic Function in Children, 199

Unit IX: The Cardiovascular and Lymphatic Systems

29. Structure and Function of the Cardiovascular and Lymphatic Systems, 205
30. Alterations of Cardiovascular Function, 209
31. Alterations of Cardiovascular Function in Children, 227

Unit X: The Pulmonary System

32. Structure and Function of the Pulmonary System, 233
33. Alterations of Pulmonary Function, 237
34. Alterations of Pulmonary Function in Children, 247

Unit XI: The Renal and Urologic System

35. Structure and Function of the Renal and Urologic Systems, 253
36. Alterations of Renal and Urinary Tract Function, 257
37. Alterations of Renal and Urinary Tract Function in Children, 267

Unit XII: The Digestive System

38. Structure and Function of the Digestive System, 273
39. Alterations of Digestive Function, 277
40. Alterations of Digestive Function in Children, 291

Unit XIII: The Musculoskeletal System

41. Structure and Function of the Musculoskeletal System, 297
42. Alterations of Musculoskeletal Function, 301
43. Alterations of Musculoskeletal Function in Children, 315

Unit XIV: The Integumentary System

44. Structure, Function, and Disorders of the Integument, 321
45. Alterations of the Integument in Children, 331

Unit XV: Multiple Interacting Systems

46. Shock, Multiple Organ Dysfunction Syndrome, and Burns in Adults, 337
47. Shock, Multiple Organ Dysfunction Syndrome, and Burns in Children, 345

Answer Key, 349
