# Contents

<i>Contributors</i>	x	2-7 Applying Sterile Gloves via the Open Method	194
<i>Reviewers</i>	xii	2-8 Surgical Scrub	201
<i>Preface</i>	xiii	2-9 Applying Sterile Gloves and Gown via the Closed Method	208
<i>Acknowledgments</i>	xvi	2-10 Emergency Airway Management	213
<i>About the Author</i>	xvii	2-11 Administering Cardiopulmonary Resuscitation (CPR)	220
<b>CHAPTER 1 • PHYSICAL ASSESSMENT</b>	<b>1</b>	2-12 Performing the Heimlich Maneuver	235
1-1 Physical Assessment	3	2-13 Responding to Accidental Poisoning	244
1-2 Taking a Temperature	29	2-14 Emergency Client Transport	250
1-3 Taking a Pulse	43	<b>CHAPTER 3 • CLIENT CARE AND COMFORT</b>	<b>261</b>
1-4 Counting Respirations	52	3-1 The Effective Communication Process	263
1-5 Taking Blood Pressure	58	3-2 Guided Imagery	273
1-6 Weighing a Client, Mobile and Immobile	67	3-3 Progressive Muscle Relaxation	279
1-7 Measuring Intake and Output	74	3-4 Therapeutic Massage	286
1-8 Breast Examination	81	3-5 Applying Moist Heat	293
1-9 Male Genitalia, Hernia, and Rectal Examination	91	3-6 Warm Soaks and Sitz Baths	299
1-10 Collecting a Clean-Catch, Midstream Urine Specimen	99	3-7 Applying Dry Heat	305
1-11 Testing Urine for Specific Gravity, Ketones, Glucose, and Occult Blood	106	3-8 Using a Thermal Blanket and an Infant Radiant Heat Warmer	312
1-12 Performing a Skin Puncture	114	3-9 Applying Cold Treatment	320
1-13 Measuring Blood-Glucose Levels	120	3-10 Assisting with a Transcutaneous Electrical Nerve Stimulation (TENS) Unit	327
1-14 Collecting Nose, Throat, and Sputum Specimens	128	<b>CHAPTER 4 • BASIC CARE</b>	<b>335</b>
1-15 Testing for Occult Blood with a Hemocult Slide	136	4-1 Changing Linens in an Unoccupied Bed	337
<b>CHAPTER 2 • SAFETY AND INFECTION CONTROL</b>	<b>141</b>	4-2 Changing Linens in an Occupied Bed	345
2-1 Proper Body Mechanics, Safe Lifting, and Transferring	143	4-3 Turning and Positioning a Client	352
2-2 Assisting with Ambulation and Safe Falling	153	4-4 Moving a Client in Bed	361
2-3 Applying Restraints	161	4-5 Assisting with a Bedpan or Urinal	369
2-4 Handwashing/Hand Hygiene	173	4-6 Assisting with Feeding	376
2-5 Donning and Removing Clean and Contaminated Gloves and Mask	179	4-7 Bathing a Client in Bed	383
2-6 Removing Contaminated Items	186	4-8 Oral Care	391
		4-9 Perineal and Genital Care	402

4-10	Eye Care	409	5-15	Preparing an IV Solution	642
4-11	Hair and Scalp Care	417	5-16	Adding Medications to an IV Solution	648
4-12	Hand and Foot Care	425	5-17	Administering Medications via Secondary Administration Sets (Piggyback)	654
4-13	Shaving a Client	433	5-18	Administering Medications via IV Bolus or IV Push	661
4-14	Giving a Back Rub	438	5-19	Administering Medications via Volume-Control Sets	667
4-15	Changing the Gown in Clients With IVs	444	5-20	Administering Medication via a Cartridge System	673
4-16	Assisting from Bed to Stretcher	450	5-21	Administering Patient-Controlled Analgesia (PCA)	678
4-17	Assisting from Bed to Wheelchair, Commode, or Chair	457	5-22	Administering Epidural Analgesia	685
4-18	Assisting from Bed to Walking	464	5-23	Managing Controlled Substances	691
4-19	Using a Hydraulic Lift	471			
4-20	Administering Preoperative Care	478			
4-21	Preparing a Surgical Site	487			
4-22	Administering Immediate Postoperative Care	497			
4-23	Postoperative Exercise Instruction	507			
4-24	Administering Passive Range of Motion (PROM) Exercises	515			
4-25	Postmortem Care	528			
	<b>CHAPTER 5 • MEDICATION ADMINISTRATION</b>	<b>535</b>		<b>CHAPTER 6 • NUTRITION AND ELIMINATION</b>	<b>699</b>
5-1	Administering Oral, Sublingual, and Buccal Medications	537	6-1	Inserting and Maintaining a Nasogastric Tube	701
5-2	Administering Eye and Ear Medications	546	6-2	Assessing Placement of a Large-Bore Feeding Tube and Administering an Intermittent Feeding	710
5-3	Administering Skin/Topical Medications	556	6-3	Assessing Placement of a Small-Bore Feeding Tube	716
5-4	Administering Nasal Medications	563	6-4	Removing a Nasogastric Tube	722
5-5	Administering Rectal Medications	570	6-5	Feeding and Medicating via a Gastrostomy Tube	728
5-6	Administering Vaginal Medications	577	6-6	Maintaining Gastrointestinal Suction Devices	738
5-7	Administering Nebulized Medications	584	6-7	Applying a Condom Catheter	744
5-8	Administering an Intradermal Injection	593	6-8	Inserting an Indwelling Catheter: Male	751
5-9	Administering a Subcutaneous Injection	599	6-9	Inserting an Indwelling Catheter: Female	760
5-10	Administering an Intramuscular Injection	606	6-10	Routine Catheter Care	769
5-11	Administering Medication via Z-Track Injection	614	6-11	Obtaining a Urine Specimen from an Indwelling Catheter	774
5-12	Withdrawing Medication from a Vial	621	6-12	Irrigating a Urinary Catheter	779
5-13	Withdrawing Medication from an Ampule	627	6-13	Irrigating the Bladder Using a Closed-System Catheter	787
5-14	Mixing Medications from Two Vials into One Syringe	634	6-14	Removing an Indwelling Catheter	795
			6-15	Catheterizing a Noncontinent Urinary Diversion	801
			6-16	Maintaining a Continent Urinary Diversion	808

6-17	Pouching a Noncontinent Urinary Diversion	814	<b>CHAPTER 8 • CIRCULATORY</b>	<b>1001</b>
6-18	Administering Peritoneal Dialysis	820	8-1	Performing Venipuncture (Blood Drawing) 1003
6-19	Administering an Enema	827	8-2	Starting an IV 1012
6-20	Digital Removal of Fecal Impaction	840	8-3	Inserting a Butterfly Needle 1021
6-21	Inserting a Rectal Tube	846	8-4	Preparing the IV Bag and Tubing 1029
6-22	Irrigating and Cleaning a Stoma	852	8-5	Setting the IV Flow Rate 1036
6-23	Changing a Bowel Diversion Ostomy Appliance: Pouching a Stoma	858	8-6	Assessing and Maintaining an IV Insertion Site 1043
<b>CHAPTER 7 • OXYGENATION</b>			8-7	Changing the IV Solution 1049
<b>865</b>			8-8	Discontinuing the IV and Changing to a Saline or Heparin Lock 1055
7-1	Administering Oxygen Therapy	867	8-9	Administering a Blood Transfusion 1062
7-2	Assisting a Client with Controlled Coughing and Deep Breathing	877	8-10	Assessing and Responding to Transfusion Reactions 1071
7-3	Assisting a Client with an Incentive Spirometer	883	8-11	Assisting with the Insertion of a Central Venous Catheter 1078
7-4	Administering Pulmonary Therapy and Postural Drainage	888	8-12	Changing the Central Venous Dressing 1086
7-5	Administering Pulse Oximetry	892	8-13	Changing the Central Venous Tubing 1092
7-6	Measuring Peak Expiratory Flow Rates	898	8-14	Flushing a Central Venous Catheter 1098
7-7	Administering Intermittent Positive-Pressure Breathing (IPPB)	905	8-15	Measuring Central Venous Pressure (CVP) 1104
7-8	Assisting with Continuous Positive Airway Pressure (CPAP)	911	8-16	Drawing Blood from a Central Venous Catheter 1111
7-9	Preparing the Chest Drainage System	917	8-17	Infusing Total Parenteral Nutrition (TPN) and Fat Emulsion through a Central Venous Catheter 1118
7-10	Maintaining the Chest Tube and Chest Drainage System	927	8-18	Removing the Central Venous Catheter 1127
7-11	Measuring the Output from a Chest Drainage System	934	8-19	Inserting a Peripherally Inserted Central Catheter (PICC) 1132
7-12	Obtaining a Specimen from a Chest Drainage System	938	8-20	Administering Peripheral Vein Total Parenteral Nutrition 1142
7-13	Removing a Chest Tube	943	8-21	Hemodialysis Site Care 1149
7-14	Ventilating the Client with an Ambu-® Bag	949	8-22	Using an Implantable Venous Access Device 1155
7-15	Inserting the Pharyngeal Airway	956	8-23	Caring for an Implanted Venous Access Device 1162
7-16	Maintaining Mechanical Ventilation	962	8-24	Obtaining an Arterial Blood Gas Specimen 1168
7-17	Suctioning Endotracheal and Tracheal Tubes	969	8-25	Assisting with the Insertion and Maintenance of an Epidural Catheter 1174
7-18	Maintaining and Cleaning Endotracheal Tubes	976	<b>CHAPTER 9 • SKIN INTEGRITY AND WOUND CARE</b>	
7-19	Maintaining and Cleaning the Tracheostomy Tube	983	<b>1181</b>	
7-20	Maintaining a Double Cannula Tracheostomy Tube	989	9-1	Bandaging 1183
7-21	Plugging the Tracheostomy Tube	996	9-2	Applying a Dry Dressing 1191

9-3	Applying a Wet to Damp Dressing (Wet to Moist Dressing)	1197	10-9	External Fixation or Skeletal Traction Pin Care	1367
9-4	Applying a Transparent Dressing	1204	10-10	Assisting with Casting—Plaster and Fiberglass	1372
9-5	Applying a Pressure Bandage	1209	10-11	Cast Care and Comfort	1379
9-6	Changing Dressings around Therapeutic Puncture Sites	1215	10-12	Cast Bivalving and Windowing	1386
9-7	Irrigating a Wound	1225	10-13	Cast Removal	1392
9-8	Packing a Wound	1231	10-14	Assisting with a Continuous Passive Motion Device	1397
9-9	Cleaning and Dressing a Wound with an Open Drain	1240	10-15	Assisting with Crutches, Cane, or Walker	1403
9-10	Dressing a Wound with Retention Sutures	1248			
9-11	Obtaining a Wound Drainage Specimen for Culturing	1255	<b>CHAPTER 11 • SPECIAL PROCEDURES 1415</b>		
9-12	Maintaining a Closed Wound Drainage System	1261	11-1	Administering an Electrocardiogram	1417
9-13	Care of the Jackson-Pratt (JP) Drain Site and Emptying the Drain Bulb	1267	11-2	Magnetic Resonance Imaging (MRI)	1424
9-14	Removing Skin Sutures and Staples	1274	11-3	Assisting with Computed Tomography (CT) Scanning	1429
9-15	Preventing and Managing the Pressure Ulcer	1281	11-4	Assisting with a Liver Biopsy	1435
9-16	Managing Irritated Peristomal Skin	1295	11-5	Assisting with a Thoracentesis	1443
9-17	Applying a Pouch to a Draining Wound	1303	11-6	Assisting with Abdominal Paracentesis	1451
			11-7	Assisting with a Bone Marrow Biopsy/Aspiration	1458
<b>CHAPTER 10 • IMMOBILIZATION AND SUPPORT 1311</b>			11-8	Assisting with a Lumbar Puncture	1465
10-1	Applying an Elastic Bandage	1313	11-9	Assisting with Amniocentesis	1473
10-2	Applying a Splint	1320	11-10	Assisting with Bronchoscopy	1480
10-3	Applying an Arm Sling	1327	11-11	Assisting with a Gastrointestinal Endoscopy	1491
10-4	Applying Antiembolic Stockings	1333	11-12	Assisting with a Proctosigmoidoscopy	1501
10-5	Applying a Pneumatic Compression Device	1339	11-13	Assisting with Arteriography	1508
10-6	Applying Abdominal, T-, or Breast Binders	1346	11-14	Positron-Emission Tomography Scanning	1515
10-7	Applying Skin Traction—Adhesive and Nonadhesive	1353	<b>REFERENCES 1523</b>		
10-8	Maintaining and Monitoring Skeletal Traction	1361	<b>INDEX 1535</b>
