Contents

Preface	ix
Acknowledgements	x
Chapter 1 Principles of abdominal examination: during pregnancy and labour	1
Chapter 2 Principles of abdominal examination: during the postnatal period	19
Chapter 3 Assessment of maternal and neonatal vital signs: temperature measurement	23
Chapter 4 Assessment of maternal and neonatal vital signs: pulse measurement	35
Chapter 5 Assessment of maternal and neonatal vital signs: blood pressure measurement	41
Chapter 6 Assessment of maternal and neonatal vital signs: respiration assessment	55
Chapter 7 Assessment of maternal and neonatal vital signs: neurological assessment	61
Chapter 8 Principles of infection control: standard precautions	67
Chapter 9 Principles of infection control: hand hygiene	73
Chapter 10 Principles of infection control: principles of asepsis	79
Chapter 11 Principles of infection control: obtaining swabs	85
Chapter 12 Principles of hygiene needs: for the woman	89
Chapter 13 Principles of hygiene needs: for the baby	95
Chapter 14 Principles of elimination management: micturition and catheterisation	107
Chapter 15 Principles of elimination management: urinalysis	119
Chapter 16 Principles of elimination management: defecation	125
Chapter 17 Principles of elimination management: obtaining urinary and stool specimens	129
Chapter 18 Principles of drug administration: legal aspects, pharmacokinetics and anaphylaxis	135
Chapter 19 Principles of drug administration: oral administration	143
Chapter 20 Principles of drug administration: injection technique	147
Chapter 21 Principles of drug administration: administration of medicines <i>per vaginam</i>	155

Chapter 22	Principles of drug administration: administration of medicines per rectum	159
Chapter 23	Principles of drug administration: intravenous drug administration	163
Chapter 24	Principles of drug administration: inhalational analgesia (Entonox®)	169
Chapter 25	Principles of drug administration: epidural analgesia	173
Chapter 26	Principles of drug administration: transcutaneous electrical nerve stimulation	183
Chapter 27	Facilitation of related childbearing skills: optimal fetal positioning	187
Chapter 28	Facilitation of related childbearing skills: speculum use	193
Chapter 29	Facilitation of related childbearing skills: membrane sweep	197
Chapter 30	Principles of intrapartum skills: first-stage issues	201
Chapter 31	Principles of intrapartum skills: second-stage issues	213
Chapter 32	Principles of intrapartum skills: third-stage issues	223
Chapter 33	Principles of intrapartum skills: examination of the placenta	235
Chapter 34	Principles of intrapartum skills: perineal repair	241
Chapter 35	Principles of intrapartum skills: management of birth at home	253
Chapter 36	Principles of intrapartum skills: management of birth in water	261
Chapter 37	Assessment of the baby: assessment at birth	267
Chapter 38	Assessment of the baby: daily examination	275
Chapter 39	Assessment of the baby: capillary sampling	281
Chapter 40	Assessment of the baby: developmental dysplasia of the hips	287
Chapter 41	Principles of infant nutrition: breastfeeding	293
Chapter 42	Principles of infant nutrition: cup feeding	299
Chapter 43	Principles of infant nutrition: sterilisation of feeding equipment	303
Chapter 44	Principles of infant nutrition: formula feeding	307
Chapter 45	Principles of infant nutrition: nasogastric feeding	311
Chapter 46	Principles of phlebotomy and intravenous therapy: maternal venepuncture	317
Chapter 47	Principles of phlebotomy and intravenous therapy: intravenous cannulation	321
Chapter 48	Principles of phlebotomy and intravenous therapy: intravenous infusion	327
Chapter 49	Principles of phlebotomy and intravenous infusion: blood transfusion	333
Chapter 50	Principles of moving and handling	341

Chapter 51	Principles of perioperative skills	349
Chapter 52	Principles of wound management: healing and care	357
Chapter 53	Principles of restricted mobility management: pressure area care	369
Chapter 54	Principles of restricted mobility management: prevention of thromboembolism	377
Chapter 55	Principles of cardiopulmonary resuscitation: maternal resuscitation	383
Chapter 56	Principles of cardiopulmonary resuscitation: neonatal resuscitation	393
	Glossary	403
	Index	405
