

DURABILITY DESIGN OF CONCRETE STRUCTURES IN SEVERE ENVIRONMENTS

ODD E. GJØRV

Taylor & Francis

Contents

<i>Preface</i>	viii
1 Historical review	1
2 Field performance	14
2.1 <i>General</i>	14
2.2 <i>Harbour structures</i>	15
2.3 <i>Bridges</i>	38
2.4 <i>Offshore structures</i>	48
2.5 <i>Other structures</i>	59
3 Corrosion of embedded steel	60
3.1 <i>General</i>	60
3.2 <i>Chloride penetration</i>	60
3.3 <i>Passivity of embedded steel</i>	69
3.4 <i>Corrosion rate</i>	71
3.5 <i>Cracks</i>	76
3.6 <i>Galvanic coupling between freely exposed and embedded steel</i>	78
4 Other deteriorating processes	80
4.1 <i>General</i>	80
4.2 <i>Freezing and thawing</i>	81
4.3 <i>Alkali-aggregate reaction</i>	83

vi	<i>Contents</i>	
5	Codes and practice	86
	5.1 <i>General</i>	86
	5.2 <i>Durability requirements for offshore concrete structures</i>	87
	5.3 <i>Durability requirements for land-based concrete structures</i>	89
6	Probability of steel corrosion	94
	6.1 <i>General</i>	94
	6.2 <i>Calculation of chloride penetration</i>	96
	6.3 <i>Calculation of probability</i>	97
	6.4 <i>Calculation of corrosion probability</i>	98
	6.5 <i>Input parameters</i>	99
	6.6 <i>Durability analysis</i>	110
	6.7 <i>Evaluation and discussion of obtained results</i>	115
7	Additional protective strategies and measures	117
	7.1 <i>General</i>	117
	7.2 <i>Stainless steel reinforcement</i>	117
	7.3 <i>Cathodic prevention</i>	120
	7.4 <i>Non-metallic reinforcement</i>	123
	7.5 <i>Corrosion inhibitors</i>	125
	7.6 <i>Concrete surface protection</i>	125
	7.7 <i>Prefabricated structural elements</i>	129
8	Concrete quality control	132
	8.1 <i>General</i>	132
	8.2 <i>Chloride diffusivity</i>	134
	8.3 <i>Electrical resistivity</i>	139
	8.4 <i>Concrete cover</i>	145
	8.5 <i>Electrical continuity</i>	146
9	Achieved construction quality	148
	9.1 <i>General</i>	148
	9.2 <i>Compliance with specified durability</i>	149
	9.3 <i>Durability on the construction site</i>	149
	9.4 <i>Potential durability</i>	150

10	Condition assessment and preventive maintenance	151
	10.1 <i>General</i>	151
	10.2 <i>Control of chloride penetration</i>	152
	10.3 <i>Prediction of corrosion probability</i>	156
	10.4 <i>Protective measures</i>	157
11	Practical applications	158
	11.1 <i>General</i>	158
	11.2 <i>'Nye Filipstadkaia', Oslo (2002)</i>	159
	11.3 <i>'New Container Harbour', Oslo (2007)</i>	162
	11.4 <i>'Nye Tjuvholmen', Oslo (2005–)</i>	169
	11.5 <i>Evaluation and discussion of obtained results</i>	176
12	Life cycle costs	178
	12.1 <i>General</i>	178
	12.2 <i>Case study</i>	179
	12.3 <i>Evaluation and discussion of obtained results</i>	183
13	Life cycle assessment	184
	13.1 <i>General</i>	184
	13.2 <i>Framework for life cycle assessment</i>	186
	13.3 <i>Case study</i>	188
	13.4 <i>Evaluation and discussion of obtained results</i>	193
14	Recommended job specifications	194
	14.1 <i>General</i>	194
	14.2 <i>Job specifications</i>	195
	<i>References</i>	198
	<i>Index</i>	215
