

Structural health monitoring of civil infrastructure systems

Edited by Vistasp M. Karbhari
and Farhad Ansari

<i>Contributor contact details</i>	xi
Introduction: structural health monitoring – a means to optimal design in the future V M KARBHARI, University of Alabama in Huntsville, USA	xv
1 Structural health monitoring: applications and data analysis F N CATBAS, University of Central Florida, USA	1
1.1 Structural health monitoring (SHM) approach	1
1.2 Components for a complete SHM	2
1.3 Application scenarios for decision making	3
1.4 Emerging role of structural health monitoring for management	8
1.5 Critical considerations for structural health monitoring interpretations	8
1.6 Data analysis and interpretation and some methods	14
1.7 Conclusions	35
1.8 Acknowledgments	36
1.9 References	36
