FETAL MEDICINE

Basic Science and Clinical Practice

Foreword by John Queenan

SECOND EDITION

CHURCHILL
LIVINGSTONE
ELSEVIER

Contents

Foreword	vii		
Preface	viii		
Contributors	ix		
SECTION 1 Early fetal development	1	SECTION 4 Epidemiology	195
1 Early concepts and terminology <i>Patricia Collins</i>	3	15 Epidemiological techniques in fetal medicine <i>James P Neilson and Zarko Alfirevic</i>	197
2 Cellular mechanisms and embryonic tissues <i>Patricia Collins</i>	6	SECTION 5 Ethics	205
3 Staging embryos in development and the embryonic body plan <i>Patricia Collins</i>	24	16 Ethical issues in maternal-fetal medicine <i>Susan Bewley</i>	207
4 Development of the head <i>Patricia Collins</i>	33	SECTION 6 Prenatal screening and diagnosis	223
5 Development of the heart <i>Roelof-Jan Oostra and Antoon FM Moorman</i>	47	17 Conveying information about screening <i>Louise Bryant, Shenaz Ahmed and Jenny Hewison</i>	225
SECTION 2 The placenta	61	18 Parental reaction to prenatal diagnosis and subsequent bereavement <i>Jane Fisher and Helen Statham</i>	234
6 The immunology of implantation <i>Ashley Moffett and YW Loke</i>	63	19 Prenatal screening for open neural tube defects and Down's syndrome <i>James E Haddow, Glenn E Palomaki, Jacob A Canick and George J Knight</i>	243
7 Development of the placenta and its circulation <i>Caroline Dunk, Berthold Huppertz and John Kingdom</i>	69	20 Ultrasound screening for fetal abnormalities and aneuploidies in the first and second trimesters <i>Fionnuala M Breathnach and Fergal D Malone</i>	265
8 Placental function in maternofetal exchange <i>Thomas Jansson and Theresa L Powell</i>	97	21 Non-invasive screening and diagnosis from maternal blood <i>Olav Lapaire, Sinuhe Hahn and Wolfgang Holzgreve</i>	282
9 Maternofetal trafficking <i>Diana W Bianchi</i>	110	22 Invasive diagnostic procedures <i>Boaz Weisz and Charles Rodeck</i>	292
SECTION 3 Fetal physiology and pathology	117	23 Cytogenetics <i>Caroline M Ogilvie</i>	305
10 Development of the cardiovascular system <i>Kent L Thornburg and Carley AE Shaut</i>	119	24 Mendelian genetics – the old and the new <i>J Michael Connor</i>	318
11 Lung growth and maturation <i>Richard Harding and Stuart B Hooper</i>	133	25 Preimplantation genetic diagnosis <i>Joyce C Harper and Joy DA Delhanty</i>	323
12 Development of the kidneys and urinary tract <i>Karen M Moritz, Georgina Caruana and E Marelyn Wintour</i>	147	26 Hemoglobinopathies <i>John M Old</i>	331
13 Maternal medicines and the fetus <i>David Williams and Lila Mayahi</i>	158	27 Prenatal screening for thalassemias <i>Mary Tang and Kwok-Yin Leung</i>	344
14 The perinatal postmortem <i>Phil Cox</i>	181	28 Cystic fibrosis <i>Mary Porteous and Jon Warner</i>	349
		29 Inborn errors of metabolism <i>Wim J Kleijer and Frans W Verheijen</i>	357

vi Contents

SECTION 7 Diagnosis and management of fetal malformations

30	Sonography of the fetal central nervous system <i>Gustavo Malingier and Gianluigi Pilu</i>	379
31	The heart <i>Helena M Gardiner</i>	412
32	Fetal lung lesions <i>N Scott Adzick</i>	429
33	Congenital diaphragmatic hernia <i>Alan W Flake and Holly L Hedrick</i>	437
34	Abdomen <i>Martin J Whittle</i>	447
35	Kidney and urinary tract disorders <i>Marc Dommergues, Farida Daikha-Dahmane, Françoise Muller, Marie Cécile Aubry, Stephen Lortat-Jacob, Claire Nihoul-Fékété, Yves Dumez – updated for the 2nd edition by Mark D Kilby</i>	459
36	Fetal skeletal abnormalities <i>Lyn S Chitty, Louise Wilson and David R Griffin</i>	478
37	Fetal hydrops <i>Jon Hyett</i>	514
38	Fetal tumors <i>Mark P Johnson and Stephanie Mann</i>	528

SECTION 8 Diagnosis and management of other fetal conditions

39	Fetal growth and growth restriction <i>Elisabeth Peregrine and Donald Peebles</i>	541
40	Red cell alloimmunization <i>Charles H Rodeck and Anne Deans</i>	559

41	Fetal platelet disorders <i>Leendert Porcelijn, Eline SA van den Akker and Humphrey HH Kanhai</i>	578
42	Treatable fetal endocrine and metabolic disorders <i>Guy Rosner, Shai Ben Shahar, Yuval Yaron and Mark I Evans</i>	592
43	Early pregnancy failure <i>Emma Johns and Eric Jauniaux</i>	602
44	Fetal infections <i>Guillaume Benoist and Yves Ville</i>	620
45	Amniotic fluid <i>Pamela A Mahon and Karim D Kalache</i>	642
46	Multiple pregnancy <i>Neelam Engineer and Nicholas Fisk</i>	649
47	In utero stem cell transplantation <i>Sicco Scherjon and Elles in't Anker</i>	678
48	Fetal gene therapy <i>Anna David and Charles H Rodeck</i>	689

SECTION 9 The neonate

49	Interface of fetal and neonatal medicine <i>Malcolm Chiswick</i>	703
----	---	-----

Self-assessment scenarios

<i>Pranav Pandya</i>	711
----------------------	-----

Appendix: Charts of fetal measurements

<i>LS Chitty and Douglas G Altman</i>	721
---------------------------------------	-----

Index

	767
