# Contents

<b>Preface</b>	<b>vii</b>
1. The Requirement for Minerals	1
2. Natural Sources of Minerals	14
3. Assessing and Controlling Mineral Status in Livestock	39
4. Calcium	54
5. Magnesium	92
6. Phosphorus	122
7. Potassium	168
8. Sodium and Chloride	182
9. Sulfur	206
10. Cobalt	223
11. Copper	255
12. Iodine	306
13. Iron	334
14. Manganese	355
15. Selenium	377
16. Zinc	426
17. Occasionally Beneficial Elements	459

18. Potentially Toxic Elements	489
19. Design of Supplementation Trials For Assessing Mineral Deprivation	528
20. Minerals and Humans	540
Appendices	555
Index	565
