

Water and Nutrient Management in Natural and Constructed Wetlands

Jan Vymazal
Editor

Springer

Contents

1 Application of Constructed Wetlands in Recycling, Agriculture and Agroforestry: Water Management for Changing Flow Regimes	1
Herbert John Bavor	
2 Properties of Biosolids from Sludge Treatment Wetlands for Land Application	9
Enrica Uggetti, Ivet Ferrer, Esther Llorens, David Güell, and Joan García	
3 Process Based Models for Subsurface Flow Constructed Wetlands	21
Günter Langergraber	
4 Application of Vertical Flow Constructed Wetlands for Highly Contaminated Wastewater Treatment: Preliminary Results	37
Hanna Obarska-Pemkowiak, Magdalena Gajewska, and Ewa Wojciechowska	
5 Comparison of Performance, Ageing and Eco Balance Data from Four Types of Constructed Wetlands Treating Raw Sewage	51
Georges Reeb and Stephanie Liey	
6 Duckweed and Algae Ponds as a Post-Treatment for Metal Removal from Textile Wastewater	63
Diederik P.L. Rousseau, Christian B. Sekomo, Saleh A.A.E. Saleh, and Piet N.L. Lens	
7 Diel Fluctuations of Redox Potential in a Horizontal Subsurface Flow Constructed Wetland for Wastewater Treatment	77
Jiří Dušek and Tomáš Pícek	
8 A Finite Element Approach to Modelling the Hydrological Regime in Horizontal Subsurface Flow Constructed Wetlands for Wastewater Treatment	85
Paul R. Knowles and Philip A. Davies	

9	The Evolution of Horizontal Subsurface Flow Reed Bed Design for Tertiary Treatment of Sewage Effluents in the UK . . .	103
	Clodagh Murphy and David Cooper	
10	Treatment of Landfill Leachate in Aerated Subsurface Flow Wetlands: Two Case Studies	121
	Jaime Nivala and Scott Wallace	
11	Nutrient Accumulation by <i>Phragmites australis</i> and <i>Phalaris arundinacea</i> Growing in Two Constructed Wetlands for Wastewater Treatment	133
	Jan Vymazal and Lenka Kröpfelová	
12	Efficiency of Wastewater Treatment Constructed Wetlands during Non-Vegetation Season in the Czech Republic . .	151
	Miloš Rozkošný	
13	Constructed Wetlands in the Czech Republic: 20 Years of Experience	169
	Jan Vymazal	
14	The Concept of a Sewage-Sludge Management System for an Individual Household	179
	Hanna Obarska-Pempkowiak, Magdalena Gajewska, Ewa Wojciechowska, and Arkadiusz Ostojski	
15	Systematic Classification, Nomenclature and Reporting for Constructed Treatment Wetlands	191
	Nat Fonder and Tom Headley	
16	Comparison of Temperature Regimes of Two Temperate Herbaceous Wetlands in the Course of the Growing Season	221
	Jakub Brom, Alžběta Rejšková, and Jan Procházka	
17	Chemical Properties of the Sediment Interstitial Water at Lake Fertő/Neusiedler See	237
	Edit Ágoston-Szabó and Mária Dinka	
18	Water Regime Changes and the Function of an Intermittent Wetland	251
	Nataša Dolinar, Nina Šraj, and Alenka Gaberščik	
19	Effect of Mau Forest Clear Cut on Temperature Distribution and Hydrology of Catchment of Lakes Nakuru and Naivasha: Preliminary Study	263
	Petra Hesslerová and Jan Pokorný	
20	Wetland Analyses in Lake Kyoga Region and Kamuli District in Uganda	275
	Petra Hesslerová and Jan Pokorný	

21	Factors Affecting Metal Mobilisation During Oxidation of Sulphidic, Sandy Wetland Substrates	287
	Gijs Du Laing, Tom Hanssen, Geert Bogaert, and Filip M.G. Tack	
22	The Presence of Mycorrhiza in Different Habitats of an Intermittent Aquatic Ecosystem	299
	Nataša Dolinar, Nina Šraj, Paula Pongrac, Marjana Regvar, and Alenka Gaberščik	
23	Comparison of Reflected Solar Radiation, Air Temperature and Relative Air Humidity in Different Ecosystems: From Fishponds and Wet Meadows to Concrete Surface	309
	Hanna Huryna and Jan Pokorný	
	Subject Index	327
