MARIO HEWARDT

Foreword by **PATRICK DUSSUD**
Technical Fellow, CLR, .NET FX, Microsoft Corporation

CONTENTS

Foreword	xix
Preface	xxi
Acknowledgments	xxxix
About the Author	xxxiii

PART I: OVERVIEW

Chapter 1: Introduction to the Tools	3
Debugging Tools for Windows	3
.NET 2.0—Redistributable	4
.NET 2.0—SDK	5
SOS	8
SOSEX	10
CLR Profiler	11
Performance Counters	14
Reflector for .NET	15
PowerDbg	16
Managed Debugging Assistants	18
Summary	21
Chapter 2: CLR Fundamentals	23
High-Level Overview	23
CLR and the Windows Loader	26
Loading Native Images	28
Loading .NET Assemblies	30
Application Domains	33
The System Application Domain	37
The Shared Application Domain	37
The Default Application Domain	37
Assembly Overview	38

Assembly Manifest	39
Type Metadata	42
Sync Block Table	49
Type Handle	53
Method Descriptors	59
Modules	61
Metadata Tokens	64
EEClass	66
Summary	68

Chapter 3: Basic Debugging Tasks 69

The Debugger and the Debugger Target	69
Symbols	74
Controlling Execution	77
Breaking Execution	77
Resuming Execution	78
Stepping Through Code	80
Exiting a Debugging Session	85
Loading Managed Code Extensions	85
Loading the SOS Extension DLL	86
Loading the SOSEX Extension DLL	89
Controlling CLR Debugging	90
Setting Breakpoints	90
Setting Breakpoints on JIT Compiled Functions	93
Setting Breakpoints on Functions Not Yet JIT Compiled	96
Setting Breakpoints in Precompiled Assemblies	98
Setting Breakpoints on Generic Methods	101
Object Inspection	103
Dumping Raw Memory	106
Dumping Value Types	108
Dumping Basic Reference Types	116
Dumping Arrays	116
Dumping Stack Objects	123
Finding Object Sizes	125
Dumping Exceptions	126
Thread Operations	131
ClrStack	132
Threads	136

DumpStack	139
EESStack	141
COMState	142
Code Inspection	143
Unassembling Code	143
Getting a Method Descriptor from a Code Address	144
Showing the Intermediate Language Instructions	145
CLR Internals Commands	146
Getting the CLR Version	146
Finding the Method Descriptor from a Name	147
Dumping the Sync Block of an Object	148
Dumping the Method Table of an Object	148
Dumping Information About the Managed Heap and Garbage Collector	148
Diagnostics Commands	149
Finding the Application Domain of an Object	149
Process Information	150
SOSEX Extension Commands	151
Extended Breakpoint Support	151
Managed Metadata	156
Stack Traces	157
Object Inspection	158
Automated Deadlock Detection	159
Managed Heap and Garbage Collector Commands	161
Crash Dump Files	163
Summary	165

PART II: APPLIED DEBUGGING

Chapter 4: Assembly Loader

CLR Loader Overview	169
Assembly Identity	170
Global Assembly Cache	174
Default Load Context	177
Load-from Context	178
Load without Context	179
Simple Assembly Load Failure	179

Load Context Failure	185
Interoperability andDllNotFoundException	195
Debugging Light Weight Code Generation	197
Summary	202

Chapter 5: Managed Heap and Garbage Collection 203

Windows Memory Architecture Overview	204
Allocating Memory	207
Garbage Collector Internals	213
Generations	214
Roots	223
Finalization	231
Reclaiming GC Memory	240
Large Object Heap	242
Pinning	248
Garbage Collection Modes	253
Debugging Managed Heap Corruptions	254
Debugging Managed Heap Fragmentation	262
Debugging Out of Memory Exceptions	272
Summary	291

Chapter 6: Synchronization 293

Synchronization Basics	293
Thread Synchronization Primitives	294
Events	299
Mutex	301
Semaphore	302
Monitor	303
ReaderWriterLock(Slim)	304
Thread Pool	305
Synchronization Internals	306
Object Header	307
Sync Blocks	309
Thin Locks	313
Synchronization Scenarios	316
Basic Deadlock	316
Orphaned Lock Exceptions	325

Thread Abortion	331
Finalizer Hangs	335
Summary	344

Chapter 7: Interoperability 345

Platform Invocation	345
COM Interoperability	352
Runtime Callable Wrapper	353
Debugging P/Invoke Calls	358
Calling Conventions	359
Delegates	364
Debugging Interop Leaks	373
Debugging COM Interop Finalization	378
Summary	388

PART III: ADVANCED TOPICS 389

Chapter 8: Postmortem Debugging 391

Dump File Fundamentals	392
Generating Dump Files Using the Debuggers	394
Generating Dump Files Using ADPlus	401
Debugging Dump Files	403
The Data Access Layer	404
Dump File Analysis: Unhandled .NET Exception	407
Windows Error Reporting	409
Windows Error Reporting Architecture	410
Summary	438

Chapter 9: Power Tools 439

PowerDbg	439
Installing PowerDbg	439
Analyze-PowerDbgThreads	441
Send-PowerDbgCommand	443
Extending PowerDbg	445

Visual Studio	448
SOS Integration	448
.NET Framework Source-Level Debugging	451
Visual Studio 2010	456
CLR Profiler	460
Running the CLR Profiler	460
Summary View	462
Histogram Views	464
Graph Views	465
WinDbg and the CmdTree Command	467
Summary	469

Chapter 10: CLR 4.0 **471**

Tools	471
Debugging Tools for Windows	471
.NET 4.0 Redistributable	472
SOS	472
Managed Heap and Garbage Collection	472
Extended Diagnostics	473
Background Garbage Collection	478
Synchronization	480
Thread Pool and Tasks	480
Monitor	481
Barrier	481
CountdownEvent	482
ManualResetEventSlim	482
SemaphoreSlim	482
SpinWait and SpinLock	482
Interoperability	483
Postmortem Debugging	484
Summary	485

Index **487**
