Advances in Stainless Steels

Baldev Raj, K Bhanu Sankara Rao, T Jayakumar,
P V Sivaprasad, Saroja Saibaba, P Shankar

Editor-in-Chief: Baldev Raj

Series in Metallurgy and Materials Science

Contents

<i>Foreword to the series</i>	v
<i>Foreword to the book</i>	vi
<i>Preface</i>	ix

COMPONENT DESIGN MODELLING AND STRUCTURAL INTEGRITY

1. Design and Material Aspects Concerning Austenitic Stainless Steel Components <i>S C Chetal</i>	1
2. Improvement of Austenitic Pipings with Welds—Corrosion Resistance, Non-destructive Testing and Loadability <i>Eberhard Roos</i>	9
3. Design and Fabrication of Stainless Steel Components for Long Life of Spent Fuel Reprocessing Plants <i>R Natarajan, P Ramkumar, V Sundararaman, K Shanmugam, U Kamachi Mudali and Baldev Raj</i>	29
4. Inverse Method for Detection and Sizing of Vertical Bottom Surface Cracks in Thin Sections Using a Hybrid Genetic Algorithm Based Signal Parametrization <i>L Satyanarayan, K Bharath Kumaran, C V Krishnamurthy, Krishnan Balasubramaniam</i>	45
5. Characterization of Irradiated Stainless Steel Wrapper from Fast Breeder Test Reactor <i>C N Venkiteswaran, P Parameswaran, V Anandaraj, V Karthik, N G Muralidharan, V Venugopal, S Saroja, M Vijayalakshmi, K V Kasiviswanathan and Baldev Raj</i>	59

MANUFACTURING TECHNOLOGY

6. Application of Light Energy Beam for Stainless Steel Fabrication <i>G Buvanashakaran</i>	67
---	----

7.	Practice and Products for Welding Duplex Stainless Steels <i>M Larén</i>	85
8.	Repair Welding of Martensitic Stainless Steel Blades and Shrouds of Steam Turbines <i>A K Bhaduri, S K Albert, C R Das and V Ramasubbu</i>	97
9.	Fabrication of Dummy Fuel Sub-assemblies for PFBR <i>P Sivaraman, M Krishnamoorthy, N Easwaran, R Veluswamy and A S L K Rao</i>	113
10.	A New Methodology based on Ultrasonic Attenuation to Characterize Dynamically Recrystallized Microstructure in a 15Cr–15Ni–2.2Mo–Ti Modified Austenitic Stainless Steel <i>S Mandal, S Kumar, A Kumar, P V Sivaprasad, I Samajdar, T Jayakumar and Baldev Raj</i>	125

PROPERTY EVALUATION

11.	Relationship Between Small Punch Creep Properties and Uniaxial Creep Properties of Chromium Martensitic Steels <i>S-i Komazaki, T Nakata, T Sugimoto and Y Kohno</i>	135
12.	Improvements in High Temperature Properties Based on Creep Fracture Mechanism of Austenitic Stainless Steels <i>N Shinya, J Kyono and K Laha</i>	147
13.	High Strength Stainless Steels—Temper Rolled <i>A Kyröläinen</i>	163
14.	Microdeformation Behaviour and Damage Mechanisms in Super Duplex Stainless Steels <i>Chai Guocai, Lillbacka Robert and Lin Peng Ru</i>	179
15.	Importance of Crack Tip Stress Shielding Effect on Fatigue Crack Growth Resistance <i>Y Mutoh</i>	193
16.	High Temperature Fatigue of 316L(N) Stainless Steel <i>K Bhanu Sankara Rao and R Sandhya</i>	205
17.	Nano/Sub-micron Grained Austenitic Stainless Steels <i>S Rajasekhara, L P Karjalainen, A Kyröläinen and P J Ferriera</i>	221

18. **Property Enhancement in Metastable Austenitic Stainless Steels through the Formation of Ultra-fine Grained Austenite and Shear Reversion**
Pasi Juntunen, Mahesh Somani, Pentti Karjalainen, Devesh Misra and Antero Kyröläinen 235
19. **Microstructure, Mechanical Properties and Residual Stress Distribution in Similar and Dissimilar Stainless Steel Welds**
G Madhusudhan Reddy and T Mohandas 257
20. **Characterization of Thermal Properties of a Titanium Modified Austenitic Stainless Steel (Alloy D9)**
S Raju and E Mohandas 285
21. **Enhancement of Properties of SS 410 Track Forging by Suitable Heat Treatment**
Sandeep Korantak, R Rajkumar, S Ramsundar, M K Mathur, Parag Ahmedabadi and Vivekanand Kain 303
22. **Influence of Dynamic Strain Ageing on Tensile Strain Energy of Type 316L(N) Austenitic Stainless Steel**
E Isaac Samuel, B K Choudhary and K Bhanu Sankara Rao 313

ALLOY DEVELOPMENT AND APPLICATIONS

23. **A Perspective on Research and Development in Austenitic Stainless Steels for Fast Breeder Reactor Technology at Kalpakkam**
Baldev Raj, P Shankar and T Jayakumar 325
24. **Developments in Chrome–Manganese and Low Nickel Austenitic Stainless Steels: Characteristics, Applications and Trends**
L K Singhal 367
25. **Modern Developments in Stainless Steel Making**
V Ramaswamy 383
26. **Developments in High Chromium Steels for Advanced Power Plants**
P J Ennis 397
27. **High Performance Stainless Steels for Critical Engineering Applications**
M Narayana Rao 407
28. **Evolution of Stainless Steels in Nuclear Industry**
Farhad Tavassoli 417

29. **Technological Advances in Refining and Processing of Stainless Steel—a Brief Overview**
S K Das, S P Mehrotra, and K M Godiwalla 431
30. **Thermochemistry of Stainless Steel Making**
G Balachandran 453
31. **Stainless Steel Waterlines—A Promising Application**
P M Balasubramanian and M Ramdas 475

NDE METHODS

32. **Non-destructive Evaluation of Steels Using Magnetic Methods**
D C Jiles 485
33. **Stainless Steels—Fabrication, Quality Control and Non-destructive Testing**
N V Wagle 493
34. **Non-destructive Characterization of Austenitic Stainless Steels**
T Jayakumar and Anish Kumar 509
35. **Pulsed Electromagnetic Methods for Defect Detection, Stress Measurement and Material Characterization**
Gui Yun Tian and John W Wilson 521
36. **Enhancing the Capabilities of Eddy Current Techniques for Non-destructive Evaluation of Austenitic Stainless Steels**
B P C Rao, S Thirunavukkarasu, B Sasi, T Jayakumar and Baldev Raj 539

CORROSION AND SURFACE MODIFICATION

37. **Sensitization-induced Localized Corrosion in Austenitic Stainless Steels**
B K Shah 549
38. **Nitrogen Addition and Localized Corrosion Behaviour of Austenitic Stainless Steels**
U Kamachi Mudali and S Ningshen 561
39. **Corrosion of Stainless Steel in Shallow and Deep Sea Environment**
R Venkatesan and E S Dwarakadasa 579

40.	Current Issues and Control Strategies to Combat Corrosion Degradation for Austenitic Stainless Steels in Applications using Nitric Acid <i>Vivekanand Kain, K N Adhe, K Chandra and B P Sharma</i>	589
41.	Stress Corrosion Cracking Behaviour of 904L SS and type 317L SS Weld-fusion Zones in Boiling Water Reactor Startup Conditions <i>V S Raja</i>	611
42.	Chloride Stress Corrosion Cracking of a Super Duplex Stainless Steel: Role of Nitrite Addition <i>R K Singh Raman and W H Siew</i>	617
43.	Monitoring Early Biofilm Formation in Cooling Water Systems using Electrochemical Probes Made of AISI Type 316 Stainless Steel <i>R P George, P Muraleedharan, R K Dayal and H S Khatak</i>	627
44.	Electrochemical Corrosion Behaviour of Ni- and Mn-free High Nitrogen Stainless Steels <i>S B Arya, V S Raja, A N Tiwari and Y Katada</i>	637
45.	Atmospheric Corrosion Resistance of Stainless Steel in Saline Environment <i>T Nishimura and V Raman</i>	647
46.	Advances in Wear Behaviour of Stainless Steel Modified by Ion Implantation <i>Chenglong Liu and Paul K Chu</i>	659
	<i>About the editors</i>	670
	<i>Author Index</i>	671
	<i>Subject Index</i>	673
