Health Economics

Fourth Edition

Charles E. Phelps

PEARSON

CONTENTS

Preface	xiii
CHAPTER 1 Why Health Economics?	1
Important (If Not Unique) Aspects of Health Care Economics	2
How Markets Interrelate in Medical Care and Health Insurance	9
Afterthought	30
Summary	30
Related Chapters in <i>Handbook of Health Economics</i>	31
Problems	31
CHAPTER 2 Utility and Health	32
How to Think About Health and Health Care (or . . . How Health Economics?)	33
The Production of Health	36
Health Through the Lifecycle	38
A Model of Consumption and Health	40
Summary	53
Related Chapter in <i>Handbook of Health Economics</i>	54
Problems	54
Appendix to Chapter 2: A Formal Model of Utility Maximization	55
CHAPTER 3 The Transformation of Medical Care to Health	56
The Productivity of Medical Care	56
Confusion About the Production Function: A Policy Dilemma	73
Physician-Specific Variations (Medical Practice Styles)	80
Extensive and Intensive Margin Differences: Are They Similar?	85
Summary	86
Related Chapters in <i>Handbook of Health Economics</i>	87
Problems	87
Appendix to Chapter 3: Marginal, Average, and Total Productivity	88
CHAPTER 4 The Demand for Medical Care: Conceptual Framework	91
Indifference Curves for Health and Other Goods	92
From Indifference Curves to Demand Curves	98

How Demand Curves Depend on Illness Events	100
Demand Curves for Many Medical Services	101
The Demand Curve for a Society: Adding Up Individual Demands	102
Use of the Demand Curve to Measure Value of Care	103
How Insurance Affects a Demand Curve for Medical Care	105
Time Costs and Travel Costs	116
The Role of Quality in the Demand for Care	118
Revisited: The Price Index for Health Care	121
Summary	122
Related Chapters in <i>Handbook of Health Economics</i>	123
Problems	123
Appendix to Chapter 4: Demand Curves and Demand Elasticities	124

CHAPTER 5 Empirical Studies of Medical Care Demand and Applications 126

Studies of Demand Curves	127
Effects of Age and Gender on Demand	138
The Effects of Illness on Demand	139
Lifestyle and its Effects on Demand	139
The Demand for “Illness”	142
The Demand for Quality: Choice of Provider Specialization	145
Other Studies of Demand for Medical Care	146
Applications and Extensions of Demand Theory	150
Decision Theory: Deriving the “Right” Demand Curve for Medical Care	155
Cost-Effectiveness Ratios and Demand Curves	156
Why Variations in Medical Practice?	157
Summary	158
Related Chapters in <i>Handbook of Health Economics</i>	159
Problems	159
Appendix to Chapter 5: An Example of Medical Decision Theory	160

CHAPTER 6 The Physician and the Physician Firm 165

The “Firm”—Inputs, Output, and Cost	166
The Physician as Entrepreneur	167
The Physician-Firm and its Production Function	168
The Physician as Diagnostician	169
Nonphysician Primary-Care Providers	176
The Size of the Firm—Group Practice of Medicine	180
The Physician as Labor	185
The Aggregate Supply Curve: Entry and Exit	191

The Open Economy: U.S.- and Internationally Trained Physicians	191
Summary	193
Related Chapters in <i>Handbook of Health Economics</i>	193
Problems	193
Appendix to Chapter 6: Cost Passthrough	194
CHAPTER 7 Physicians in the Marketplace	197
Physician Location Decisions	198
Consumer Search and Market Equilibrium	204
Actual Search by Patients	216
Advertising and the Costs of Information	219
The Role of Licensure	221
Estimates of the Demand Curve Facing Physician-Firms	223
Induced Demand	225
The Role of Payment Schemes	233
Summary	235
Related Chapters in <i>Handbook of Health Economics</i>	236
Problems	236
CHAPTER 8 The Hospital as a Supplier of Medical Care	238
The Hospital Organization	239
Who Is the Residual Claimant?	244
Where Does the Utility Function Come From? A Political Theory Model	249
Hospital Costs	254
Long-Run Versus Short-Run Costs	258
The Hospital's "Cost Curve"	259
Another Complication: Outpatient Surgery	262
The Demand Curve Facing a Single Hospital	264
The Utility-Maximizing Hospital Manager Revisited	266
Summary	266
Related Chapters in <i>Handbook of Health Economics</i>	267
Problems	267
CHAPTER 9 Hospitals in the Marketplace	269
Hospitals and the Market for Medical Staff	270
Hospitals and Patients	272
A Model of Equilibrium Quality and Price	274
Insurance and Competition in the Hospital's Decision	278
Interaction of Doctors and Hospitals: "Goodies" for the Doctor	281

Interaction of Doctors and Hospitals: Patients for the Hospital	282
Competition—"Old Style" Versus "New Style"	283
Entry and Exit: The Pivotal Role of For-Profit Hospitals	286
The Hospital in Labor Markets	286
Nursing "Shortages"	292
Summary	294
Related Chapters in <i>Handbook of Health Economics</i>	295
Problems	296
Appendix to Chapter 9: The Hospital's Quality and Quantity Decision	296
CHAPTER 10 The Demand for Health Insurance	300
The Demand for Health Insurance	301
Reasons People Want Insurance	302
Choice of the Insurance Policy	308
Insurance Market Stability: The Question Of Self-Selection	318
Income Tax Subsidization of Health Insurance	326
Empirical Estimates of Demand for Insurance	333
The Overall Effect of the Tax Subsidy on the Health Sector	335
"Optimal" Insurance	335
Other Models of Demand for Insurance	336
Summary	337
Related Chapters in <i>Handbook of Health Economics</i>	338
Problems	338
Appendixes to Chapter 10	
Appendix A: A Detailed Calculation of Welfare Loss	341
Appendix B: The Calculus of the Risk/Moral Hazard Trade-off	342
Appendix C: The Statistics of an Insurance Pool	344
CHAPTER 11 Health Insurance Supply and Managed Care	345
The Supply of Insurance	345
Managed Care: A Response to the Incentives of Traditional Insurance	350
Why Managed Care?	352
Types of Interventions	357
Consumer Side	357
Which Interventions Work Best for Managed Care?	368
Long-Run Issues	370
Summary	374
Related Chapters in <i>Handbook of Health Economics</i>	374
Problems	374

CHAPTER 12 Government Provision of Health Insurance	376
The Medicare Program	378
Medicare HMOs (Medicare Advantage)	381
Operational Changes in Medicare	390
The Medicaid Program	411
Summary	416
Related Chapters in <i>Handbook of Health Economics</i>	418
Problems	418
CHAPTER 13 Medical Malpractice	420
Background of the Legal System in the United States	421
The Economic Logic of Negligence Law	427
Judicial Error, Defensive Medicine, and “Tough Guys”	430
Medical Malpractice Insurance	433
Evidence on Actual Deterrence	434
Malpractice Awards: “Lightning” or a “Broom Sweeping Clean”?	445
Tort Reform	446
Tort Reform Writ Large	450
HMO Liability: A New Domain for Malpractice Law	450
Summary	452
Related Chapter in <i>Handbook of Health Economics</i>	452
Problems	452
CHAPTER 14 Externalities in Health and Medical Care	453
Externalities, Property Rights, and the Control of Externalities	454
Externalities of Contagion	456
Solutions to the Externality Problems	464
International Issues—Expanding the Scope of the Externality	467
Externalities from Tobacco	469
Information as an Externality	472
Research as an Externality	475
Reasons for So Little Research on Medical Effectiveness	476
Transfusion-Induced AIDS and Hepatitis	478
Summary	480
Related Chapters in <i>Handbook of Health Economics</i>	480
Problems	480
Appendix to Chapter 14: Value of Life	481

CHAPTER 15	Managing the Market: Regulation and Technical Change in Health Care	484
A Taxonomy of Regulation		485
Licensure		486
“Certificate of Need” (CON) Laws		493
Drugs and Devices: The New Wave of Medical Care		507
Summary		526
Related Chapters in <i>Handbook of Health Economics</i>		527
Problems		527
CHAPTER 16	Universal Insurance Issues and International Comparisons of Health Care Systems	529
General Considerations for a National Health Policy		531
Review of Health Policy and Systems in Selected Countries		541
Snapshots of Four Countries		542
Aggregate International Comparisons		552
Increase in Costs and Health Outcomes		562
A Final Conundrum		566
Summary		566
Related Chapters in <i>Handbook of Health Economics</i>		567
Problems		567
Author’s Postscript		569
Appendix: Introduction to Basic Economics Concepts		571
The Concept of Utility and Demand Curves		571
The Demand Curve by a Society: Adding Up Individual Demands		576
Using Demand Curves to Measure Value		577
The Problem of Supply of Goods		579
Market Equilibrium		585
Monopoly Pricing		588
Monopolistic Competition		591
Bibliography		595
Acknowledgments		623
Index		625
