ADOBE ILLUSTRATOR CS4 REVEALED

Adobe Approved Certification Courseware

CHRIS BOTELLO

Not for Sale in the United States

CHAPTER 1 GETTING STARTED WITH ILLUSTRATOR 1-2

INTRODUCTION
Getting Started with Illustrator 1-2
Getting to Know Illustrator 1-2

LESSON 1
Create a New Document 1-4
Creating a New Document 1-4
Choosing Color Modes and Document Size 1-4
Choosing a Unit of Measure 1-5
Tasks Create a new document (Windows) 1-6
Create a new document (Macintosh) 1-7

LESSON 2
Explore the Illustrator Window 1-8
Touring the Illustrator Window 1-8
Using Quick Keys in Illustrator 1-11
Tasks Navigate the Illustrator artboard 1-14
Work with objects 1-16

LESSON 3
Create Basic Shapes 1-18
Getting Ready to Draw 1-18
Understanding Bitmap Images and Vector Graphics 1-18
Tasks Use the Rectangle Tool 1-20
Use the Rectangle dialog box 1-21

LESSON 4
Apply Fill and Stroke Colors to Objects 1-22
Activating the Fill or Stroke 1-22
Applying Color with the Swatches Panel 1-23
Task Apply fill and stroke colors 1-24

LESSON 5
Select, Move, and Align Objects 1-26
Selecting and Moving Objects 1-26
Grouping Objects 1-26
Making a Marquee Selection with the Selection Tool 1-26
Working with Smart Guides 1-27
Tasks Select and move an object using Smart Guides 1-28
Duplicate objects using drag and drop 1-29

LESSON 6
Transform Objects 1-30
Transforming Objects 1-30
Repeating Transformations 1-31
Tasks Use the Scale and Rotate Tools 1-32
Use the Transform Again command 1-33
Create a star and a triangle, and use the Reflect Tool 1-34

LESSON 7
Make Direct Selections 1-36
Using the Direct Selection Tool 1-36
Adding Anchor Points 1-36
Turning Objects into Guides 1-36
Tasks Make guides and direct selections 1-38
Add anchor points 1-39
Select paths 1-40
Create a simple special effect utilizing a direct selection 1-41

CHAPTER 2 CREATING TEXT AND GRADIENTS

INTRODUCTION

Creating Text and Gradients 2-2
Working with Text 2-2
Creating and Applying Gradient Fills 2-2

LESSON 1

Create and Format Text 2-4
Creating Text 2-4
Formatting Text 2-4
Hiding Objects 2-5
Tasks Create text 2-6
Format text 2-7
Track and kern text 2-8
Create vertical type 2-9

LESSON 2

Flow Text into an Object 2-10
Filling an Object with Text 2-10
Locking Objects 2-11
Using Rulers, Guides, and the Grid 2-11
Making Guides 2-11
Tasks Fill an object with text 2-12
Format text in an object 2-13
Make guides and use the Lock command 2-14

LESSON 3

Position Text on a Path 2-16
Using the Path Type Tools 2-16
Tasks Flow text on a path 2-18
Move text along a path 2-19

LESSON 4

Create Colors and Gradients 2-20
Using the Gradient Panel 2-20
Using the Color Panel 2-21
Adding Colors and Gradients to the Swatches Panel 2-21
Tasks Create a gradient and a color 2-22
Add gradients and colors to the Swatches panel 2-24

LESSON 5

Apply Colors and Gradients to Text 2-26
Applying Fills and Strokes to Text 2-26
Converting Text to Outlines 2-26
Tasks Apply color to text 2-28
Create outlines and apply a gradient fill 2-29

LESSON 6

Adjust a Gradient and Create a Drop Shadow 2-30
Using the Gradient Tool with Linear Gradient fills 2-30
Applying Gradient fills to multiple objects 2-31
Using the Gradient tool with radial gradient fills 2-32
Adding a Drop Shadow 2-33
Tasks Use the Gradient Tool 2-34
Add a drop shadow to text 2-35

CHAPTER 3 DRAWING AND COMPOSING AN ILLUSTRATION

INTRODUCTION

Drawing and Composing an Illustration 3-2
Drawing in Illustrator 3-2

LESSON 1

Draw Straight Lines 3-4
Viewing Objects on the Artboard 3-4
Drawing Straight Segments with the Pen Tool 3-4
Aligning and Joining Anchor Points 3-5
Tasks *Create new views 3-6*
Draw straight lines 3-7
Close a path and align the anchor points 3-8
Join anchor points 3-9

LESSON 2

Draw Curved Lines 3-10
Defining Properties of Curved Lines 3-10
Converting Anchor Points 3-12
Tasks *Draw and edit a curved line 3-14*
Convert anchor points 3-15
Draw a line with curved and straight segments 3-16
Reverse direction while drawing 3-17

LESSON 3

Draw Elements of an Illustration 3-18
Starting an Illustration 3-18
Drawing from Scratch 3-18
Tracing a Scanned Image 3-18
Tasks Draw a closed path using smooth points 3-20
Begin and end a path with a corner point 3-21
Redirect a path while drawing 3-22
Place a scanned image 3-23

LESSON 4

Apply Attributes to Objects 3-24
Using the Eyedropper Tool 3-24
Adding a Fill to an Open Path 3-25
Tasks Apply new attributes to open and closed paths 3-26
Copy attributes with the Eyedropper Tool 3-27

LESSON 5

Assemble an Illustration 3-28
Assembling an Illustration 3-28
Task Assemble the illustration 3-29

LESSON 6

Stroke Objects for Artistic Effect 3-30
Defining Joins and Caps 3-30
Defining the Miter Limit 3-31
Creating a Dashed Stroke 3-32
Creating Pseudo-Stroke Effects 3-32
Tasks Modify stroke attributes 3-33
Create a dashed stroke 3-34
Create pseudo-strokes 3-35

LESSON 7

Use Live Trace and the Live Paint Bucket Tool 3-36
Introducing Live Trace 3-36
Tracing a Line-Art Sketch 3-37
Expanding a Traced Graphic 3-37
Tracing a Photograph 3-38
Introducing Live Paint 3-39
Live Painting Regions 3-40
Painting Virtual Regions 3-41
Inserting an Object into a Live Paint Group 3-42
Expanding a Live Paint Group 3-43
Live Painting Edges 3-43
Tasks Use Live Trace to trace a sketch 3-44
Use Live Trace to trace a photo 3-45
Use the Live Paint Bucket tool 3-48
Use the Live Paint Bucket tool to paint an illustration 3-51

CHAPTER 4 TRANSFORMING AND DISTORTING OBJECTS

INTRODUCTION

Transforming and Distorting Objects 4-2

Putting It All Together 4-2

LESSON 1

Transform Objects 4-4

Defining the Transform Tools 4-4

Defining the Point of Origin 4-4

Working with the Transform Again Command 4-6

Using the Transform Each Command 4-6

Using the Free Transform Tool 4-7

Using the Transform Panel 4-7

Tasks Rotate an object around a defined point 4-8

Use the Shear tool 4-10

Use the Reflect tool 4-11

LESSON 2

Offset and Outline Paths 4-12

Using the Offset Path Command 4-12

Using the Outline Stroke Command 4-13

Tasks Offset a path 4-14

Convert a stroked path to a closed path 4-15

LESSON 3

Create Compound Paths 4-16

Defining a Compound Path 4-16

Tasks Create compound paths 4-18

Create special effects with compound paths 4-19

LESSON 4

Work with the Pathfinder Panel 4-20

Defining a Compound Shape 4-20

Understanding Essential Shape Modes and Pathfinders 4-20

Using the Pathfinder Panel 4-22

Applying Shape Modes 4-23

Releasing and Expanding compound Shapes 4-23

Tasks Apply the Unite shape mode 4-24

Apply the Minus Back shape mode 4-25

Apply the Intersect shape mode 4-27

Apply the Divide pathfinder 4-28

Create compound shapes using the Pathfinder panel 4-29

Create special effects with compound shapes 4-30

LESSON 5

Create Clipping Masks 4-31

Defining a Clipping Mask 4-31

Using Multiple Objects as a Clipping Mask 4-32

Creating Masked Effects 4-32

Tasks Create a clipping mask 4-33

Apply a fill to a clipping mask 4-34

Use text as a clipping mask 4-36

Use a clipping mask for special effects 4-37

CHAPTER 5 WORKING WITH LAYERS

INTRODUCTION

Working with Layers *5-2*

Designing with Layers 5-2

LESSON 1

Create and Modify Layers 5-4

Creating Layers and Sublayers 5-4

Duplicating Layers 5-5

Setting Layer Options 5-6

Selecting Artwork on Layers and Sublayers 5-7

Selecting All Artwork on a Layer 5-7

Tasks Create a new layer 5-8

Name a layer and change a layer's selection color 5-9

Select items on a layer and lock a layer 5-10

Show and hide layers 5-11

LESSON 2

Manipulate Layered Artwork 5-12

Changing the Order of Layers and Sublayers 5-12

Merging Layers 5-12

Defining Sublayers 5-12

Working with Sublayers 5-13

Dragging Objects Between Layers 5-13

Tasks Change the hierarchy of layers 5-14

Merge layers 5-15

Work with sublayers 5-16

Create new sublayers 5-17

Move objects between layers *5-18*

LESSON 3

Work with Layered Artwork 5-20

Using the View Buttons on the Layers Panel 5-20

Locating an Object on the Layers Panel 5-21

Reversing the Order of Layers 5-21

Making Layers Nonprintable 5-21

Tasks Explore view options on the Layers panel 5-22

Locate, duplicate, and delete layers 5-23

Dim placed images 5-24

Exclude specific layers from printing 5-25

LESSON 4

Create a Clipping Set 5-26

Working with Clipping Sets 5-26

Flattening Artwork 5-26

Tasks Create clipping sets 5-27

Copy a clipping mask and flatten artwork 5-28

CHAPTER 6 WORKING WITH PATTERNS AND BRUSHES

INTRODUCTION
Working with Patterns and Brushes 6-2
Working with Patterns and Brushes 6-2

LESSON 1
Use the Move Command 6-4
Using the Move Command 6-4
Task Copy and move objects using the Move dialog box 6-6

LESSON 2
Create a Pattern 6-8
Creating Patterns 6-8
Designing a Pattern 6-8
Controlling How a Pattern Fills an Object 6-9
Transforming Patterns 6-10
Tasks Create a pattern swatch 6-11
Transform pattern-filled objects 6-12
Create a pattern using open paths 6-13

LESSON 3
Design a Repeating Pattern 6-14
Designing Patterns 6-14
Modifying Patterns 6-15
Tasks Create a repeating pattern with precision 6-16
Modify a pattern 6-18

LESSON 4
Work with the Brushes Panel 6-20
Working with the Brushes Panel 6-20
Tasks Create a calligraphic brush 6-22
Create a scatter brush 6-24
Create an art brush 6-25
Create a pattern brush 6-26
Modify a pattern brush 6-27

LESSON 5
Work with Scatter Brushes 6-28
Working with Scatter Brushes 6-28
Tasks Modify a scatter brush 6-30
Manipulate random values in a scatter brush 6-32

LESSON 6
Compare the Paintbrush Tool to the Blob Brush Tool 6-34
Working with the Paintbrush Tool 6-34
Comparing the Paintbrush Tool with the Blob Brush Tool 6-35
Tasks Use the Paintbrush tool 6-38
Use the Blob Brush Tool 6-39

CHAPTER 7 WORKING WITH DISTORTIONS, GRADIENT MESHES, ENVELOPES, AND BLENDS

INTRODUCTION

Working with Distortions, Gradient Meshes, Envelopes, and Blends 7-2

LESSON 1

Edit colors and distort objects 7-4
Introducing Effects 7-4
Modifying Color with the Edit Colors Command 7-5
Tasks Create a front to back blend 7-6
Saturate and desaturate an illustration 7-7
Apply the Pucker & Bloat and Twist effects 7-8

LESSON 2

Work with Gradient Meshes 7-9
Working with a Mesh Object 7-9
Creating a Mesh Object 7-9
Tasks Create a gradient mesh 7-11
Manipulate a gradient mesh 7-13

LESSON 3

Work with Envelopes 7-15
Defining Envelopes 7-15
Creating Envelopes with Top Objects, Meshes, and Warps 7-16
Applying Envelopes to Gradient and Pattern Fills 7-16
Tasks Create an envelope distortion with a top object 7-17
Create an envelope distortion with a mesh 7-18
Create an envelope distortion with a warp effect 7-19

LESSON 4

Create Blends 7-21
Defining a Blend 7-21
Specifying the Number of Steps in a Blend 7-22
Manipulating Blends 7-23
Tasks Create blends between shapes 7-24
Create a clockwise color blend 7-26
Edit blends 7-27
Create color effects with blends 7-28

CHAPTER 8 WORKING WITH TRANSPARENCY, LIVE COLOR, EFFECTS, AND GRAPHIC STYLES

INTRODUCTION

Working with Transparency, Live Color, Effects, and Graphic Styles 8-2

LESSON 1

Use the Transparency Panel and the Color Picker 8-4

Understanding Opacity 8-4
Working with the Transparency Panel 8-4
Working with Blending Modes 8-4
Working with the Color Picker 8-6
Tasks Change the opacity and blending mode of objects 8-8
Use the Color Picker 8-9

LESSON 2

Recolor Artwork 8-10

Recoloring Artwork 8-10
Assigning Color in the Live Color Dialog Box 8-11
Editing Color in the Live Color Dialog Box 8-12
Reducing an Illustration's Colors in the Live Color Dialog Box 8-14
Reducing Artwork to a Two-Color Job 8-14
Using Isolation Mode 8-15
Tasks Explore the Color Guide panel 8-16
Set a base color and save a color group 8-17
Use Isolation mode to examine groups in an Illustration 8-18
Assign colors with the Live Color dialog box 8-20
Edit colors with the Live Color dialog box 8-22
Reduce colors in the Live Color dialog box 8-25

LESSON 3

Apply Effects to Objects 8-28

Working with Effects 8-28
Tasks Apply a Bloat effect 8-30
Apply an Inner Glow and a Warp effect 8-31
Apply a Drop Shadow effect 8-32
Apply a Grain effect 8-33

LESSON 4

Use the Appearance Panel 8-34

Working with the Appearance Panel 8-34
Duplicating Items on the Appearance Panel 8-35
Changing the Order of Appearance Attributes 8-35
Tasks Modify effects 8-36
Remove effects from new art 8-37
Create a complex appearance from a single object 8-39

LESSON 5

Work with Graphic Styles 8-42

Creating and Applying Graphic Styles 8-42
Tasks Create a new graphic style 8-44
Apply a graphic style to an object 8-45
Apply a graphic style to text 8-46
Modify a graphic style 8-47

CHAPTER 9 CREATING GRAPHS IN ILLUSTRATOR

INTRODUCTION

Creating Graphs in Illustrator 9-2

LESSON 1

Create a Graph 9-4
Defining a Graph 9-4
Creating a Graph 9-5
Task Create a column graph 9-6

LESSON 2

Edit a Graph Using the Graph Data Window 9-8
Editing Data and Graphs 9-8
Task Edit data in a graph 9-9

LESSON 3

Use the Group Selection Tool 9-10
Using the Group Selection Tool 9-10
Task Use the Group Selection Tool 9-11

LESSON 4

Use the Graph Type Dialog Box 9-12
Using the Graph Type Dialog Box 9-12
Task Use the Graph Type dialog box 9-13

LESSON 5

Create a Combination Graph 9-14
Defining a Combination Graph 9-14
Task Create a combination graph 9-15

LESSON 6

Create a Custom Graph Design 9-16
Creating a Custom Graph Design 9-16
Task Create a custom graph design 9-17

LESSON 7

Apply a Custom Design to a Graph 9-18
Applying a Custom Design to a Graph 9-18
Task Apply a custom graph design 9-20

LESSON 8

Create and Apply a Sliding-Scale Design 9-22
Creating a Sliding-Scale Design and Applying It to a Graph 9-22
Task Create and apply a sliding-scale design 9-24

CHAPTER 10 DRAWING WITH SYMBOLS

INTRODUCTION
Drawing with Symbols 10-2

LESSON 1
Create Symbols 10-4
Creating Symbols 10-4
Task Create symbols 10-5

LESSON 2
Place Symbol Instances 10-6
Placing Instances of Symbols 10-6
Task Place instances of a symbol 10-7

LESSON 3
Modify Symbols and Symbol Instances 10-8
Modifying Symbol Instances 10-8
Modifying Symbols 10-9
Tasks Edit symbol instances 10-10
Edit a symbol 10-11
Transform symbol instances 10-12

LESSON 4
Create Symbol Instance Sets 10-14
Creating a Symbol Instance Set 10-14
Working with Symbol Instance Sets 10-14
Setting Options for the Symbol Sprayer tool 10-16
Expanding a Symbol Set 10-17
Tasks Use the Symbol Sprayer tool 10-18
Create a mixed symbol instance set 10-19

LESSON 5
Modify Symbol Instance Sets 10-20
Using Symbolism Tools 10-20
Tasks Use the Symbol Stainer tool 10-22
Use the Symbol Shifter tool 10-24
Use the Symbol Spinner tool 10-25
Use the Symbol Sizer tool 10-26

CHAPTER 11 CREATING 3D OBJECTS

INTRODUCTION

Creating 3D Objects 11-2

LESSON 1

Extrude Objects 11-4
Extruding Objects 11-4
Rotating 3D Objects 11-6
Extruding Compound Paths 11-7
Applying a Bevel Edge to an Extruded Object 11-8
Tasks Extrude an object 11-12
Extrude and rotate an object 11-14
Extrude a compound path 11-16
Apply a bevel shape to an object's edge 11-17

LESSON 2

Revolve Objects 11-18
Revolving Objects 11-18
Revolving Multiple Objects 11-20
Revolving Grouped Objects 11-22
Applying an Offset to a Revolved Object 11-22
Tasks Revolve an object 11-24
Revolve multiple objects 11-24
Revolve grouped objects 11-26
Offset a revolved object 11-28

LESSON 3

Manipulate Surface Shading and Lighting 11-30
Applying Surface Shading 11-30
Manipulating Lighting Controls 11-31
Manipulating Light Sources 11-33
Tasks Apply surface shading to a 3D object 11-35
Manipulate lighting controls 11-36
Manipulate light sources 11-36

LESSON 4

Map Artwork to 3D Objects 11-38
Mapping Artwork 11-38
Tasks Prepare a document for mapped artwork 11-41
Map rectangular artwork 11-42
Map round artwork 11-44
Map texture artwork 11-45

CHAPTER 12 PREPARING A DOCUMENT FOR PREPRESS AND PRINTING

INTRODUCTION
Preparing a Document for Prepress and Printing 12-2

LESSON 1
Explore Basic Color Theory 12-4
Exploring Basic Color Theory 12-4
Understanding Subtractive Primary Colors 12-6
Understanding the Theory of Four-Color Process Printing 12-7
Understanding CMYK Inks 12-8

LESSON 2
Work in CMYK Mode 12-10
Understanding Color Gamut 12-10
Specifying CMYK Tints 12-12
Tasks Specify process tints in the Color Picker 12-14
Mix process tints in the Color panel 12-15

LESSON 3
Specify Spot Colors 12-16
Understanding Spot Colors 12-16
Loading Spot Colors 12-17
Outputting Documents with Spot Colors 12-18
Task Import and apply spot colors 12-20

LESSON 4
Create Crop Marks 12-22
Creating Crop Marks 12-22
Editing Crop Marks 12-23
Creating Multiple Crop Marks For Multiple Objects 12-23
Tasks Create crop marks 12-24
Use the Create Crop Marks filter 12-25

LESSON 5
Create Bleeds 12-26
Creating Bleeds and Safety Guides 12-26
Tasks Create a bleed using the Offset Path command 12-28
Create a bleed using the Move command 12-29

CHAPTER 13 **PREPARING GRAPHICS FOR THE WEB**

INTRODUCTION

Preparing Graphics for the Web 13-2

LESSON 1

Create Slices 13-4
Understanding Web Graphics 13-4
Understanding Sliced Artwork 13-5
Creating Slices with the Make Slice Command and the Slice Tool 13-6
Creating Slices from Guides 13-7
Tasks Make slices 13-10
Combine slices 13-11

LESSON 2

Specify Slice Type and Slice Options 13-12
Specifying Slice Types 13-12
Setting Options for Image Content Slices 13-13
Setting Options for No Image Content Slices 13-14
Tasks Specify the type of slice 13-15
Set options for image content slices 13-16

LESSON 3

Use the Save for Web & Devices Dialog Box 13-18
Optimizing Artwork for the Web and Other Devices 13-18
Optimizing with the GIF File Format 13-18
Optimizing with the JPEG File Format 13-19
Tasks Optimize a slice as a JPEG 13-20
Optimize slices as GIFs 13-21
Compare and contrast JPEG vs. GIF formats 13-22
Create photo effects with a GIF 13-24
Save and view artwork for the Web 13-25

LESSON 4

Create an Image Map 13-26
Working with Web Safe Colors 13-26
Understanding Image Maps 13-27
Tasks Choose Web safe colors 13-28
Create hotspots 13-29
