Table of Contents

Preface	xv
Acknowledgment.....	xxi

Section 1 Audio Scene Analysis, Recognition and Modeling

Chapter 1

Unstructured Environmental Audio: Representation, Classification and Modeling	1
<i>Selina Chu, University of Southern California, USA</i>	
<i>Shrikanth Narayanan, University of Southern California, USA</i>	
<i>C.-C. Jay Kuo, University of Southern California, USA</i>	

Chapter 2

Modeling Grouping Cues for Auditory Scene Analysis using a Spectral Clustering Formulation	22
<i>Luis Gustavo Martins, Portuguese Catholic University, Porto Portugal</i>	
<i>Mathieu Lagrange, CNRS - Institut de Recherche et Coordination Acoustique Musique (IRCAM), France</i>	
<i>George Tzanetakis, University of Victoria, Canada</i>	

Chapter 3

Cocktail Party Problem: Source Separation Issues and Computational Methods	61
<i>Tariqullah Jan, University of Surrey, UK</i>	
<i>Wenwu Wang, University of Surrey, UK</i>	

Chapter 4

Audition: From Sound to Sounds	80
<i>Tjeerd C. Andringa, University of Groningen, The Netherlands</i>	

Section 2

Audio Signal Separation, Extraction and Localization

Chapter 5

A Multimodal Solution to Blind Source Separation of Moving Sources..... 107

Syed Mohsen Naqvi, Loughborough University, UK

Yonggang Zhang, Harbin Engineering University, China

Miao Yu, Loughborough University, UK

Jonathon A. Chambers, Loughborough University, UK

Chapter 6

Sound Source Localization: Conventional Methods and Intensity Vector Direction Exploitation.... 126

Banu Günel, University of Surrey, UK

Hüseyin Hacıhabiboglu, King's College London, UK

Chapter 7

Probabilistic Modeling Paradigms for Audio Source Separation 162

Emmanuel Vincent, INRIA, France

Maria G. Jafari, Queen Mary University of London, UK

Samer A. Abdallah, Queen Mary University of London, UK

Mark D. Plumbley, Queen Mary University of London, UK

Mike E. Davies, University of Edinburgh, UK

Chapter 8

Tensor Factorization with Application to Convulsive Blind Source Separation of Speech 186

Saeid Sanei, Cardiff University, UK

Bahador Makkabadi, Cardiff University, UK

Chapter 9

Multi-Channel Source Separation: Overview and Comparison of Mask-Based
and Linear Separation Algorithms 207

Nilesh Madhu, Ruhr-Universität Bochum, Germany

André Gückel, Dolby Laboratories, Nürnberg, Germany

Chapter 10

Audio Source Separation Using Sparse Representations..... 246

Andrew Nesbit, Queen Mary University of London, UK

Maria G. Jafari, Queen Mary University of London, UK

Emmanuel Vincent, INRIA, France

Mark D. Plumbley, Queen Mary University of London, UK

Section 3
Audio Transcription, Mining and Information Retrieval

Chapter 11

- Itakura-Saito Nonnegative Factorizations of the Power Spectrogram
for Music Signal Decomposition 266

Cédric Févotte, CNRS LTCI; TELECOM ParisTech, France

Chapter 12

- Music Onset Detection 297

Ruohua Zhou, Queen Mary University of London, UK

Josh D. Reiss, Queen Mary University of London, UK

Chapter 13

- On the Inherent Segment Length in Music 317

Kristoffer Jensen, Aalborg University Esbjerg, Denmark

Chapter 14

- Automatic Tagging of Audio: The State-of-the-Art 334

Thierry Bertin-Mahieux, Columbia University, USA

Douglas Eck, University of Montreal, Canada

Michael Mandel, University of Montreal, Canada and Columbia University, USA

Chapter 15

- Instantaneous vs. Convulsive Non-Negative Matrix Factorization: Models,
Algorithms and Applications to Audio Pattern Separation 353

Wenwu Wang, University of Surrey, UK

Section 4
Audio Cognition, Modeling and Affective Computing

Chapter 16

- Musical Information Dynamics as Models of Auditory Anticipation 371

Shlomo Dubnov, University of California in San Diego, USA

Chapter 17

- Multimodal Emotion Recognition 398

Sanaul Haq, University of Surrey, UK

Philip J.B. Jackson, University of Surrey, UK

Chapter 18	
Machine Audition of Acoustics: Acoustic Channel Modeling and Room Acoustic Parameter Estimation	424
<i>Francis F. Li, The University of Salford, UK</i>	
<i>Paul Kendrick, The University of Salford, UK</i>	
<i>Trevor J. Cox, The University of Salford, UK</i>	
Chapter 19	
Neuromorphic Speech Processing: Objectives and Methods	447
<i>Pedro Gómez-Vilda, Universidad Politécnica de Madrid, Spain</i>	
<i>José Manuel Ferrández-Vicente, Universidad Politécnica de Madrid, Spain</i>	
<i>Victoria Rodellar-Biarge, Universidad Politécnica de Madrid, Spain</i>	
<i>Roberto Fernández-Baíllo, Universidad Politécnica de Madrid, Spain</i>	
<i>Agustín Álvarez-Marquina, Universidad Politécnica de Madrid, Spain</i>	
<i>Rafael Martínez-Olalla, Universidad Politécnica de Madrid, Spain</i>	
<i>Víctor Nieto-Lluis, Universidad Politécnica de Madrid, Spain</i>	
<i>Luis Miguel Mazaira-Fernández, Universidad Politécnica de Madrid, Spain</i>	
<i>Cristina Muñoz-Mulas, Universidad Politécnica de Madrid, Spain</i>	
Compilation of References	474
About the Contributors	515
Index	526
