

PREMIER REFERENCE SOURCE

Network Security, Administration and Management

Advancing Technology and Practice

Dulal Chandra Kar & Mahbubur Rahman Syed

Table of Contents

Forewordxiii

Prefacexiv

Acknowledgment.....xxi

Section 1
Network Systems Security

Chapter 1
Basic Device and Protocol Security..... 1
Bruce Hartpence, Rochester Institute of Technology, USA

Chapter 2
Mitigating the Blended Threat: Protecting Data and Educating Users..... 20
Christophe Veltsos, Minnesota State University, Mankato, USA

Chapter 3
Security Issues for Multi-Domain Resource Reservation..... 38
*Christos Bouras, Research Academic Computer Technology Institute (CTI) &
University of Patras, Greece*
*Kostas Stamos, Research Academic Computer Technology Institute (CTI) &
University of Patras, Greece*

Section 2
Authentication and Data Privacy: Passwords and Keys

Chapter 4
Healthcare Employees and Passwords: An Entry Point for Social Engineering Attacks 52
B. Dawn Medlin, Appalachian State University, USA
Douglas May, Appalachian State University, USA
Ken Corley, Appalachian State University, USA

Chapter 5

Public Key Infrastructure	65
---------------------------------	----

Reed Petty, University of Arkansas at Little Rock, USA

Jiang Bian, University of Arkansas at Little Rock, USA

Remzi Seker, University of Arkansas at Little Rock, USA

Chapter 6

Key Management	88
----------------------	----

Chuan-Kun Wu, Chinese Academy of Sciences, China

Section 3

Network Security Auditing, Assessment, and Manageability Security

Chapter 7

Security Assessment of Networks	115
---------------------------------------	-----

Aftab Ahmad, Norfolk State University, USA

Chapter 8

Network Security Auditing	131
---------------------------------	-----

Yin Pan, Rochester Institute of Technology, USA

Bo Yuan, Rochester Institute of Technology, USA

Sumita Mishra, Rochester Institute of Technology, USA

Chapter 9

Network Manageability Security	158
--------------------------------------	-----

Salvador Mandujano, Intel Corporation, USA

Section 4

Sensor Network Security

Chapter 10

Security and Attacks in Wireless Sensor Networks	183
--	-----

Murat Al, University of Arkansas at Little Rock, USA

Kenji Yoshigoe, University of Arkansas at Little Rock, USA

Chapter 11

Wireless Sensor Networks: Emerging Applications and Security Solutions	217
--	-----

Sumita Mishra, Rochester Institute of Technology, USA

Chapter 12	
Privacy Preserving Data Gathering in Wireless Sensor Networks	237
<i>Md. Golam Kaosar, Victoria University, Australia</i>	
<i>Xun Yi, Victoria University, Australia</i>	

Section 5
Security Architectures, Algorithms, and Protocols

Chapter 13	
BANBAD: A Centralized Anomaly Detection Technique for Ad Hoc Networks	253
<i>Rajeev Agrawal, North Carolina A&T State University, USA</i>	
<i>Chaoli Cai, Western Michigan University, USA</i>	
<i>Ajay Gupta, Western Michigan University, USA</i>	
<i>Rajib Paul, Western Michigan University, USA</i>	
<i>Raed Salih, Western Michigan University, USA</i>	

Chapter 14	
Data Regulation Protocol for Source-End Mitigation of Distributed Denial of Service	277
<i>Nirav Shah, Arizona State University, USA</i>	
<i>Dijiang Huang, Arizona State University, USA</i>	

Chapter 15	
Instant Messaging Security	288
<i>Zhijun Liu, The Ohio State University, USA</i>	
<i>Guoqiang Shu, The Ohio State University, USA</i>	
<i>David Lee, The Ohio State University, USA</i>
