# C contents

1	Methodology of Thermo-oxidative Degradation of Polymers.....	1
1.1	TGA .....	1
1.1.1	Methods Involving Maximisation of Rate .....	7
1.1.2	Method of Multiple Heating Rates [13–15] .....	10
1.2	Differential Scanning Calorimetry .....	14
1.3	Evolved Gas Analysis (EGA).....	16
1.4	Pyrolysis-based Techniques .....	16
2	Carbon-Hydrogen-Type Polymers .....	21
2.1	Polyethylene .....	21
2.1.1	Mechanism of Oxidative Degradation .....	21
2.1.2	Thermogravimetric Analysis (TGA).....	24
2.1.3	DSC .....	28
2.1.4	Infrared (IR) Spectroscopy .....	28
2.1.5	Pyrolysis–Gas Chromatography–Mass Spectrometry (Py–GC–MS) .....	30
2.2	Polypropylene.....	33
2.2.1	Mechanism of Oxidative Degradation .....	33
2.2.2	IR Spectroscopy .....	35
2.2.3	Differential Scanning Calorimetry .....	37
2.2.3.1	Differential Scanning Calorimetry with Chemiluminescence .....	39

2.2.4	DTA.....	42
2.2.5	TGA.....	42
2.2.6	Py-GC .....	42
2.2.7	Positron Annihilation Lifetime Spectroscopy .....	44
2.3	Rubbers .....	44
2.4	Polystyrene (PS) and Poly( $\alpha$ -methyl styrene) .....	45
3	Oxygen-Containing Polymers .....	51
3.1	Polyoxymethylene.....	51
3.2	Polyphenylene Oxides (PPO) .....	54
3.3	Polyesters.....	54
3.3.1	Polycarbonate .....	54
3.3.2	Polyethylene Terephthalate (PETP).....	57
3.3.3	Polymethacrylates .....	58
3.3.4	Styrenated Polyesters.....	58
3.3.5	Phenol-formaldehyde (PF) Resins .....	62
3.3.6	Epoxy Resins.....	68
3.3.6.1	Thermogravimetric Analysis .....	70
3.3.6.2	Differential Scanning Calorimetry .....	72
3.3.7	Ethylene Oxide-Propylene Oxide Copolymers.....	73
3.3.8	Ethylene Vinyl Acetate (EVA) Copolymers .....	77
3.3.9	Phenolic Resins .....	83
4	Halogen-Containing Polymers .....	87
4.1	Polyvinyl Chloride (PVC) .....	87
4.2	Chlorinated Natural Rubber.....	89
4.3	Polytetrafluoroethylene (PTFE).....	89
5	Nitrogen-Containing Polymers .....	97

5.1	Rigid Polyurethanes.....	97
5.2	Polyacrylonitrile .....	103
5.3	Polyimides (PI).....	105
5.4	Polyamides .....	112
5.5	Polycaprolactam .....	119
6	Silicon-Containing Polymers.....	123
	Abbreviations.....	127
	Index .....	131
