Contents

Foreword 9

List of abbreviations 13

Part 1

Introduction to LCA

1 LCA in a nutshell 19

1.1 What is LCA? 19

1.2 LCA methodology in short 23

1.3 LCA and environmental systems analysis 31

1.4 Pay attention to ... 33

1.5 Summary and further reading 41

2 Development of the LCA concept 43

2.1 Early LCA activities (1969–1989) 44

2.2 "... one of the most important tools for the 1990s ..." 52

2.3 LCA in the environmental tool box 60

2.4 Summary and further reading 68

Part 2

LCA methodology

3 Goal and scope definition 73

3.1 Goal and context of the study 74

3.2 Scope and modelling requirements 75

3.3 Procedural aspects and planning of an LCA study 93

3.4 Summary and further reading 95

4 Inventory analysis 97

4.1 Construction of a flowchart 98

4.2 Data collection 99

- 4.3 Calculation procedure 107
- 4.4 More about allocation 110
- 4.5 Accounting for recycling rate 119
- 4.6 Accounting for energy use in LCI 123
- 4.7 Summary and further reading 126

- 5 Life cycle impact assessment 129**
 - 5.1 What is an environmental impact? 131
 - 5.2 The different phases of life cycle impact assessment 133
 - 5.3 Characterisation methods 144
 - 5.4 Ready-made LCIA methods 159
 - 5.5 Comparison of LCIA methods 169
 - 5.6 Summary and further reading 172

- 6 Interpretation and presentation of results 175**
 - 6.1 Quantitative results with varying level of detail 178
 - 6.2 Qualitative results 185
 - 6.3 Different purposes – different result presentations 189
 - 6.4 Testing the robustness of the results 196
 - 6.5 Summary and further reading 202

- 7 Critical review of LCA 203**
 - 7.1 When are LCAs reviewed critically? 204
 - 7.2 With respect to what are LCAs reviewed? 206
 - 7.3 How are critical reviews conducted? 210
 - 7.4 Summary and further reading 211

- 8 LCA data management 213**
 - 8.1 LCA software packages 214
 - 8.2 LCA databases 218
 - 8.3 Documentation of LCA data according to ISO/TS 14048 223
 - 8.4 Summary and further reading 229

Part 3

LCA applications

- 9 LCA and product development 235**
 - 9.1 Product development and environmental considerations 236
 - 9.2 LCA and life cycle based approaches for ecodesign 242
 - 9.3 Ecodesign and LCA in product development in practice 251
 - 9.4 Summary and further reading 253

- 10 Green marketing and LCA 255**
 - 10.1 What is green marketing? 256
 - 10.2 Standardised environmental market communication 260
 - 10.3 Summary and further reading 274

- 11 LCA for production processes 277**
 - 11.1 LCA for the process industry 278
 - 11.2 LCA for manufacturing processes 288
 - 11.3 Transportation and logistics 296
 - 11.4 Summary and further reading 299

- 12 LCA and waste management 301**
 - 12.1 LCA of waste management 302
 - 12.2 Waste treatment in LCA 310
 - 12.3 Summary and further readings 312

- 13 Organising LCA activities in a company 313**
 - 13.1 An LCA project in a process industry 314
 - 13.2 An LCA project in a manufacturing industry 321
 - 13.3 An LCA project in a service/manufacturing industry 327
 - 13.4 An LCA project in a consumer goods industry 329
 - 13.5 Organising LCA projects 332
 - 13.6 Implementing LCA 337
 - 13.7 Summary and further reading 343

- 14 Bibliography 345**

Exercises 371

- A Functional units 373
- B Goal and scope definition 375
- C A beginner's introduction to LCA 385
- D Data collection and documentation 393
- E Allocation 397
- F Impact assessment: classification 399
- G Critical review 401
- H General introduction to LCA projects 403
 - H1 Roofing. Comparison of concrete tiles with clay tiles 404
 - H2 Clay tiles. Comparison of single use with reuse 409
 - H3 Concrete tiles. Comparison of single use with reuse 411
 - H4 Polyethylene. Comparison of incineration and recycling 415
 - H5 Polyethylene. Comparison of landfilling and recycling 423
 - H6 Glass. Comparison of single use with material recycling 432
 - H7 Glass. Comparison of single use with refilling 436
 - H8 Linoleum. Choice of linseed oil supplier 441
 - H9 Linoleum. Choice of waste management 447
 - H10 Apples. Development of type III eco-labelling 453

Solutions to some exercises 471

- A Problem solution 473
- C Problem solution 475
- E Problem solution 481

Appendices 483

- Appendix 1 General inventory data 485
- Appendix 2 Characterisation indicators 509
- Appendix 3 Weighting indices 517

Glossary 529

Index 535
