

Automobile Engineering

G.B.S. NARANG

KHANNA PUBLISHERS

CONTENTS

<i>Chapter</i>	<i>Pages</i>
1. Automobile — An Introduction	1—53
1'1. The Automobile and its Development	1
1'2. General Classification of Vehicles	11
1'3. Types of Automobiles	13
1'4. Layout of an Automobile	15
1'5. Main Components and Assemblies (Constructional Features)	18
1'6. Specifying an Automobile, or Vehicle	24
1'7. Resistance to the Motion of the Vehicle	25
1'8. Power Required for Propulsion of the Vehicle	31
1'9. Power Required for Acceleration	32
Solved Problems	37
Questions	48
2. Chassis and Frames	54—79
2'1. Introduction	54
2'2. Chassis in General	56
2'3. Layout of a Chassis and its Main Components	57
2'4. Design Features	58
2'5. Types of Chassis Frames	60
2'6. Important Layouts	68
Questions	79
3. Front Axle	80—89
3'1. Introduction	80
3'2. Front Axle	80
3'3. Types of Front Axles	82
4. Suspension Systems and Springs	90—116
4'1. Introduction	90
4'2. The Objectives of Suspension System	90
4'3. Principles of Suspension System	91
4'4. Suspension Systems	91
4'5. Independent Suspension	92
4'6. Independent Front Suspension	92
4'7. Independent Rear Suspension	98
4'8. Purpose of a Spring	100
4'9. Laminated or Leaf Springs	101
4'10. Coil Spring	103
4'11. Helper Springs	105
4'12. Rubber Suspension	106

<i>Chapter</i>	<i>Pages</i>
4'13. Air Suspension	... 107
4'14. Shock Absorbers	... 108
4'15. Lever Type Shock Absorber	... 109
4'16. Direct Acting Type	... 110
4'17. Stabilizer	... 112
4'18. Difference between the Functions of Springs and Shock Absorbers	... 113
4'19. Sprung and Unsprung Weight	... 113
4'20. Basic Suspension Movements	... 114
Questions	... 116
5. The Clutch	117—146
5'1. Introduction	... 117
5'2. The Clutch and its Function	... 119
5'3. Principles of Operation	... 120
5'4. Types of Clutches	... 121
Questions	... 144
6. Transmission System	147—168
6'1. Introduction	... 147
6'2. General Principles of Automobile Transmission Systems	... 148
6'3. Transmission and its Purpose	... 150
6'4. Types of Transmission Systems	... 151
6'5. Constant Mesh Transmission	... 156
6'6. Semi-Automatic Transmission	... 157
6'7. Overdrive	... 158
6'8. Automatic Transmission	... 159
6'9. Hydramatic Transmission	... 160
6'10. Gear System	... 161
6'11. Clutch Systems	... 165
6'12. Three Speed Gear System	... 167
Questions	... 168
7. Gear and Gear Boxes	169—200
7'1. Introduction	... 169
7'2. Necessity of a Gear Box	... 170
7'3. Principle of Gearing	... 172
7'4. Types of Gear boxes	... 172
7'5. Construction and Operation of a Gear Box	... 173
7'6. Sliding Mesh Gear-Box	... 175
7'7. Constant Mesh Gear-Box	... 177
7'8. Synchromesh Gear-Box	... 179
7'9. Types of Synchromesh Gear-Boxes	... 182
7'10. Three Speed Gear Box	... 184
7'11. Four-Speed Gear-Box	... 185
7'12. Pre-selective Gear-Box	... 186
7'13. Epicyclic Gear-Box	... 188
7'14. Auxiliary Gear-Box	... 190

<i>Chapter</i>	<i>Pages</i>
7.15. The Free-Wheel Drive	... 191
7.16. Five Speed Gear Box	... 194
7.17. The ZF Synchronizer	... 196
7.18. Gear Tooth Failures and Adjustment	... 197
Questions	... 199
8. Propeller Shafts	201—215
8.1. Introduction	... 201
8.2. Propeller Shafts and Their Types	... 201
8.3. Fluid Drive and Fluid Flywheel	... 203
8.4. The Fluid Flywheel	... 203
8.5. Hotchkiss Drive	... 205
8.6. Universal Joints	... 206
8.7. Torque Tube Drive	... 210
8.8. Torque Converters	... 211
8.9. Single Stage Three Element Torque Converter	... 214
Questions	... 215
9. Differential	216—220
9.1. Introduction	... 216
9.2. Principle of the Differential	... 216
9.3. Locking Differential	... 218
9.4. Limited Slip Differential	... 220
Questions	... 220
10. Final Drive and Rear Axle	221—236
10.1. Introduction	... 221
10.2. Final Drive and its Types	... 221
10.3. Hypoid Type Final Drive	... 225
10.4. Real Axel	... 230
10.5. Axle Casing	... 233
10.6. Axle Breather	... 234
10.7. Oil Retention	... 235
Questions	... 235
11. Steering and Steering Geometry	237—275
11.1. Introduction	... 237
11.2. Steering Gear Layout	... 238
11.3. Types of Steering Gears	... 239
11.4. The Steering Linkage	... 243
11.5. Construction and Operation of a Steering Mechanism	... 246
11.6. Ackermann Principles of Steering	... 249
11.7. Under-Steer and Over-Steer	... 253
11.8. Wheel Alignment	... 255
11.9. Power Steering	... 255
11.10. Steering Geometry	... 257
11.11. Suspension Geometry	... 265

<i>Chapter</i>	<i>Pages</i>
11'12. Steering Gears and Linkages of Indian Automobiles	... 267
11'13. Steering Methods	... 267
11'14. Wheel Balancing	... 267
11'15. Backlash in Steering Gears and its Adjacent Questions	... 269 ... 272
12. Brakes And Braking System	276—314
12'1. Introduction	... 275
12'2. Basic Requirements of a Brake	... 276
12'3. Principle of Braking	... 276
12'4. Braking of Vehicles	... 277
12'5. Brake System Layout	... 279
12'6. Classification of Automobile Brakes	... 280
12'7. Hydraulic Brake System	... 281
12'8. Master Cylinder	... 287
12'9. Types of Master Cylinder	... 290
12'10. Modern Braking System	... 291
12'11. The Transmission Brake	... 293
12'12. Parking and Emergency Brakes	... 294
12'13. Self-Adjusting Brakes	... 295
12'14. Self-Emergizing Brakes	... 296
12'15. Girling Brakes	... 297
12'16. Bendix Brakes	... 298
12'17. Power Assisted Brakes	... 299
12'18. The Vacuum Servo-Assisted Brakes	... 301
12'19. Electric Brakes	... 303
12'20. Air Brake	... 302
12'21. Retarders	... 305
12'22. Exhaust Brake	... 307
12'23. Braking Efficiency	... 307
12'24. Brake Fluid	... 309
12'25. Hill-Holders	... 310
12'26. Bleeding of Brakes	... 313
Questions	... 313
13. Accessories and Controls	315—340
13'1. Introduction	... 315
13'2. Types of Accessories and Controls	... 315
Questions	... 340
14. Wheels and Tyres	341—365
14'1. Introduction	... 341
14'2. Tyres and their Types	... 342
14'3. Specification of Tyres	... 346
14'5. Construction of a Tyre	... 348
14'5. Adhesion Characteristics of Tyres	... 349
14'6. Wheels	... 352

Chapter	Pages
14.7. Tyre Wear, its Causes and Remedies	... 353
14.8. Tyre Valves	... 358
14.9. Tyre Inspection	... 358
14.10. Care and Maintenance of Tyres and Tubes	... 360
14.11. Repair of the Inner Tube	... 361
14.12. Vulcanizing	... 364
Questions	... 365
15. Motor Vehicles Body and its Construction	366—379
15.1. Introduction	... 366
15.2. Functions of a Car Body	... 370
15.3. Types of Auto Bodies	... 372
15.4. Method of Manufacture	... 375
15.5. Engine Positioning on Commerical Vehicles	... 379
Questions	... 379
16. Automobile Airconditioning	380—387
16.1. Introduction	... 380
16.2. Principles of Automobile Airconditioning	... 381
16.3. Operating Conditions	... 382
16.4. Typical Installation	... 383
16.5. Types of Control Systems	... 384
16.6. Magnetic Clutch	... 386
16.7. Car Airconditioning Systems	... 386
16.8. Bus Airconditioning	... 387
16.9. Truck Airconditioning	... 387
Questions	... 387
17. Automobile Engines and Their Classification	388—446
17.1. Introduction	... 388
17.2. Types of Automobile Engines	... 389
Questions	... 444
18. Constructional Details of Automobile Engines	447—472
18.1. Introduction	... 447
18.2. Constructional Features of an Automobile Engine	... 447
Questions	... 472
19. Engine Servicing	473—486
19.1. Introduction	... 473
19.2. Types of Automobile Service	... 473
19.3. Basic Requirements of Engine Servicing	... 473
19.4. Engine Service Procedure	... 474
Questions	... 486
20. Engine Tune-Up	487—514
20.1. Introduction	... 487
20.2. Engine Tune-up	... 487
Questions	... 514

<i>Chapter</i>	<i>Pages</i>
21. Performance of Automobile Engines	515—560
21'1. Introduction	... 515
21'2. Performance of Automobile Engine	... 515
21'3. Engine Testing and its Purpose	... 516
21'4. Types of Tests	... 517
21'5. Engine Performance Parameters	... 518
Questions	... 559
22. Lubrication and Lubricating System	561—593
22'1. Introduction	... 561
22'2. Necessity of Lubrication	... 561
22'3. Lubricants and their Types	... 563
Questions	... 591
23. Cooling Systems	594—620
23'1. Introduction	... 594
23'2. Necessity of Cooling	... 595
23'3. Types of Cooling Systems	... 595
23'4. Air Cooling Systems	... 596
23'5. Water Cooling Systems	... 599
23'6. Positive Circulation Systems	... 601
23'7. Thermo-Syphon Or Gravity System	... 602
23'8. Impeller Thermo-Syphon System	... 604
23'9. Steam Cooling Or Evaporative Cooling System	... 604
23'10. Bypass Recirculation System	... 605
23'11. Closed System	... 607
23'12. Components of Cooling System	... 607
23'13. Water Pumps	... 609
23'14. Radiators And Their Types	... 611
23'15. Radiator Mounting	... 613
23'16. Fans	... 613
23'17. Thermostats	... 613
23'18. Temperature Indicator	... 615
23'19. Prevention of Frost	... 617
23'20. Anti-Freeze Mixture	... 617
Questions	... 619
24. Automotive Fuel And their Types	621—639
24'1. Introduction	... 621
Questions	... 639
25. Fuel Systems In Spark Ignition Engines	640—691
25'1. Introduction	... 640
25'2. Type Of Fuel Feed Systems	... 640
25'3. Components Of the Fuel System	... 642
25'4. Carburettor And Its Purpose	... 652
25'5. Simple Carburettor	... 654
Questions	... 689

<i>Chapter</i>	<i>Pages</i>
26. Fuel Supply Systems In Compression Ignition Engines	692—707
26'1. Introduction	... 692
26'2. Combustion And Combustion Chmabers	... 692
26'3. Fuel Supply Systems in Compression Ignition Engines	... 695
Questions	... 707
27. Two Wheeler Automobiles	708—792
27'1. Introduction	... 708
27'2. History of Two Wheelers	... 708
27'3. Types of Two-Wheelers	... 713
27'4. Classification of Two-Wheelers	... 714
27'5. Mopeds	... 714
27'6. Hitodi-51 Mark II-Moped	... 747
27'7. Lambretta Scooter-150 LI	... 748
27'8. M A C 175 S Scooter	... 750
27'9. Vijay Delux	... 753
27'10. Aravali	... 759
27'11. Vespa-Bajaj Scooter	... 761
27'12. Priya Scooter	... 764
27'13. Rajdoot Motorcycle	... 769
27'14. Royal Enfield (35 CC Bullet Motorcycles)	... 770
28. Automobile Electrical Systems	793—884
28'1. Introduction	... 793
28'2. Various Electrical Elements In an Automobile	... 794
28'3. Insulated And Earth Return System	... 796
28'4. Negative and Positive Earth Systems	... 797
28'5. The Automobile Battery	... 798
Questions	... 882
29. Garages and Service Stations	885—896
29'1. Introduction	... 885
29'2. Garages	... 885
29'3. Scope of a Garage	... 886
29'4. Types of Garages	... 886
29'5. Service Station	... 888
29'6. Location and Layout of Garages and Service Station	... 889
29'7. Equipment for Garages and Service Stations	... 890
29'8. To Install a Service Station the Following Initial Equipments are Needed	... 893
29'9. Tools in a Garage/Service Station	... 894
29'10. Services Carried Out in Service Stations	... 894
29'11. Services Procedure	... 895

<i>Chapter</i>	<i>Pages</i>
30. Servicing of Motor Vehicles	897--912
30'1. Introduction	897
30'1. Servicing and its Necessity	897
30'3. Types of Servicing	898
30'4. Cleaning of the Motor Vehicle and its Parts	898
30'5. Steam Cleaning	898
30'6. Cleaning Outside of the Engine	898
30'7. Engine Decoking	899
30'8. Precautions to Minimise Carbon	901
30'9. Methods of Decarbonising or Decoking	901
30'10. Greasing of a Motor Vehicle	903
30'11. Lubrication of Springs	903
30'12. Automobile Overhauling	903
30'13. Car Battery Service	905
30'14. Road Service	906
32'15. Servicing of Petrol Engines	910
Questions	911
31. Inspection and Testing of Motor Vehicles	913--923
31'1. Introduction	913
31'2. Inspection and its types	913
31'3. Inspection cards	914
31'4. Repair Inspection	918
31'5. Accident Inspection	918
31'6. Diagnosing Engine Faults and their Removal	919
31'7. Excessive Consumption	919
31'8. Deterioration	920
31'9. Testing	920
31'10. Laboratory and Road Testing of Vehicles	920
31'11. Road Testing of an Automobile	921
31'12. Engine Testing	923
32. Motor Vehicle Trouble Shooting for Causes and Remedies	924--951
32'1. Introduction	924
32'2. Trouble Shooting	924
32'3. Types of Troubles	925
32'4. Power Plant or Engine Trouble Shooting	925
32'5. Fuel System Troubles	925
32'6. Ignition System Troubles	925
32'7. Cooling System Troubles	941
32'8. Lubrication System Troubles	941
32'9. Brakes and Braking Systems Troubles	941
32'10. Steering Control and Tyre Wear	941
32'11. Electrical System Troubles	941
32'12. Instrument Troubles	941
32'13. Heater Trouble Shooting	941

<i>Chapter</i>	<i>Pages</i>
33. Garages and Fleet Management	852—995
33.1. Introduction	... 952
34. Miscellaneous Topics	996—1039
34.1. Introduction	... 996
34.2. Motor Vehicle Act and its Salient Features	... 997
Questions	... 1039
35. Safety Measures in Automobiles	1040—1055
35.1. Introduction	... 1040
35.2. Safety Measures in Automobiles	... 1040
35.3. Safety Guidelines	... 1045
35.4. Interior Safety and Comfort in the Body Work	... 1046
35.5. Safety Pointer for the Driver	... 1048
35.6. Get more Kilometers from every Litre of Petrol	... 1049
36. Important Features of Indian Automobiles (Four Wheelers)	1056—1095
36.1. Introduction	... 1056
36.2. Types of Automobiles used in India	... 1056
36.3. Ambassador Car	... 1057
36.4. Premier Padamini	... 1062
36.5. Ashok Layland Comet Bus/Truck	... 1077
36.6. Tata Mercedes Benz Truck	... 1078
36.7. Willys Jeep-F4-134	... 1081
36.8. Bed Ford	... 1081
36.9. Chevrolet CC 60 L/X3	... 1082
36.10. Cubic Capacity, Compression Ratio and Maximum B.H.P. of Indian Automobiles	... 1087
Questions	... 1095
37. Over Hauling of Automobiles	1096—1137
37.1. Introduction	... 1096
37.2. Overhaul	... 1096
37.3. Engine Overhaul and its Types	... 1096
37.4. Overhauling Petrol System	... 1103
37.5. Overhauling Ignition System	... 1107
37.6. Overhauling the Brake System	... 1112
37.7. Overhauling the Transmission System	... 1116
37.8. Overhauling of Steering Assembly	... 1122
37.9. Overhauling Suspension Systems	... 1127
37.10. Overhauling Cooling System	... 1128
37.11. Overhauling of the Electrical System	... 1130
37.12. Overhauling of Lubrication System	... 1134
37.13. Overhauling of Wheels and Tyres	... 1135
37.14. Overhauling of Exhaust System	... 1137

<i>Chapter</i>	<i>Pages</i>
38. Automotive Material	1138—1157
38·1. Introduction	... 1138
38·2. Materials used in Motor Vehicle Construction	... 1138
38·3. Ferrous Materials	... 1140
38·4. Cast Iron	... 1140
38·5. Grey Cast Iron	... 1140
38·6. Malleable Iron	... 1141
38·7. Plain Carbon Steels	... 1141
38·8. Medium Carbon Steels	... 1141
38·9. High Carbon Steels	... 1142
38·10. Alloy Steels	... 1142
38·11. Stainless Steels	... 1144
38·12. Steels for Typical Components	... 1145
38·13. Determination of Physical Properties	... 1148
38·14. Types of Non-ferrous Metals	... 1148
Questions	... 1157
APPENDICES	1158—1172
