Table of Contents

The Missing Credits	xix
Introduction	1

Part One: Word

Chapter 1: Word Basics: Opening, Editing, Saving, Printing	15
Document Basics Covered Quickly	15
Creating New Documents	18
A Quick Tour of the Document Window	19
The Minimalist's Document Window	20
Creating Documents from a Template	21
Opening Documents	22
Your Point of View	24
Basic Editing in Word	25
Natural (and Un-Natural) Selection	26
Selecting Text with the Keyboard	27
Undo, Redo and Repeat	27
Save Me	28
More Saving Graces	29
Reducing File Size	32
Document Password Protection	33
Save to Web Page	34
Share Word Documents via Email	35
Printing from Word	35
Chapter 2: Advanced Editing in Word	39
Toolbars and the Ribbon	39
The Standard Toolbar	40
Introducing the Ribbon	41
Space-saving Ribbon Tricks	42

Lists: Bulleted and Numbered	44
Making Lists with Bullets	44
Making Numbered and Multi-level Lists	45
Customizing Word's Automatic Lists	47
Line, Page, and Column Breaks	47
Paragraph Break	47
Line Break	48
Page Break	48
Column Break	48
Section Break	48
Find and Replace	49
Using the Search Box	49
The Find and Replace Sidebar	50
The Advanced Find and Replace Window	52
AutoText: Abbreviation Expanders	55
Spelling and Grammar	57
Check Spelling as You Type	57
Checking Spelling and Grammar All at Once	59
Spelling and Grammar Options	61
Writing Styles	63
Custom Dictionaries and Preferred Spellings	65
AutoCorrect	67
Adding and Formatting Tables	69
Creating Tables	71
Creating a Table from the Ribbon	71
Using the Insert Table Box	72
Drawing a Table	72
Editing Your Table	73
Formatting Tables	74
Inserting Photos and Media	75
Inserting a Photo	77
Playing Audio and Video in your Word Documents	80
Recording and Running Macros	80
Creating a Macro	81
Running a Macro	83
The Macro Organizer	84
Learning about Visual Basic	85
Organizing Your Templates	85

Chapter 3: Setting Up Documents and Pages 87

Let Word Format Your Document Automatically	87
Choose a Template	89
Using Templates	91
Modifying, Saving, and Installing Templates	92

Choose a Theme	92
Finding More Themes	96
Saving and Sharing Custom Themes	96
Choose a Quick Style	96
Writing with Style	97
Get a New Look with Quick Styles	98
Manually Formatting Your Document	100
Choosing Paper Size and Layout	100
Changing Paper Size	101
Setting Paper Orientation	103
Setting Margins	103
Selecting Preset Margins	103
Setting Custom Margins	105
Using the Ruler to Set Margins	106
Setting Margins for Booklets	106
Adding Color, Borders, and Watermarks	107
Choosing Page Color	107
Adding a Border	107
Adding a Watermark	109
Adding Page Numbers, Headers, and Footers	111
Adding a Page Number	112
Removing Page Numbers	113
The Easy Way to Add Headers and Footers	114
Manually Adding Headers and Footers	116
Dividing Your Document into Sections	117
Formatting Paragraphs with Styles	119
Modifying an Existing Style	120
Overriding a Style Setting	124
Showing Style Guides	125
Manual Paragraph Formatting	125
Paragraph Alignment	126
Indenting Paragraphs	128
Spacing Between Paragraphs	129
Spacing Between Lines	129
Setting Tabs	130
Types of Tabs	132
Managing Tab Settings with the Ruler	134
Managing Line and Page Breaks	135
Formatting Individual Characters	135
Formatting as You Type with Shortcut Keys	136
Formatting with the Ribbon or the Font Box	136
Changing Capitalization	137
Small Caps for Headers	139
Advanced Font Formatting	139

Chapter 4: Printing Documents, Envelopes, and Labels.	141
Choosing a Printer	141
Setting Your Default Printer	142
Advanced Print Settings	143
Exploring Printer-Specific Properties	144
Printing to an Adobe PDF File	145
Printing Part of Your Document	145
Printing Envelopes	146
Printing Labels	148
Changing Your Print Preferences	150
Understanding Mail Merge Basics	151
Common Types of Merge Documents	151
Mail Merge Lists	152
The Six Phases of a Mail Merge	153
Running the Mail Merge Manager	154
1. Select Document Type	155
2. Select Recipients List	156
3. Insert Placeholders	157
4. Filter Recipients	158
5. Preview Results	161
Complete Merge	162
Advanced Merge Techniques	163
Merging to Labels and Envelopes	165
Merging to Labels	165
Merging to Envelopes	168
Chapter 5: Working with Long Documents	173
Switching to Outline View	173
Promoting and Demoting Headings	175
Controlling Subheads During Promotion or Demotion	178
Moving Outline Items	179
Showing Parts of Your Outline	180
Expanding and Collapsing Levels	180
Showing and Hiding Text	181
Showing Only the First Line	181
Showing Text Formatting	181
Notebook: Collecting Random Thoughts	183
Opening Your Notebook	183
The Notebook Ribbon	185
Organizing Your Notes	188
Placing Notes Beside Your Notes	190
Typing Less with Audio Notes	191
Manipulating Notebook Sections	192
Navigating a Large Document	193
Understanding Sections	196

Creating a Table of Contents	196
Updating Your Table of Contents	198
TOC the Harder Way: Using Other Styles	200
Formatting Your Table of Contents	201
Deleting a Table of Contents	202
Creating an Index	203
Marking an Index Entry	203
Building an Index	206
Updating an Index	208
Deleting an Index	209
Deleting an Index Entry	209
Navigating with Hyperlinks	210
Inserting and Removing Bookmarks	213
Cross-Referencing Your Document	214
Deleting Cross-References	216
Cross-Referencing Figures	216
Making a Table of Figures	217
Creating Footnotes and Endnotes	218
Inserting Footnotes and Endnotes	219
Formatting Footnotes and Endnotes	220
Inserting Citations and Creating a Bibliography	221
Adding a Citation	222
Adding a Bibliography	223

Chapter 6: Moving Beyond Text: Publishing Layout View 225

Starting with a Template: Ready-to-Use Page Designs	225
Choosing and Using a Template	226
Arranging the Way Objects Overlap	228
Adding, Removing and Rearranging Pages	230
Managing Master Pages	231
Adding Text and Text Boxes	233
Formatting Text	233
Add Color to Your Text Box	234
Flowing Text between Boxes	235
Adding Photos, Clip Art and Other Graphics	235
Formatting Graphics	236
Aligning Objects on the Page	238

Chapter 7: Working Collaboratively 241

Adding Comments	241
Deleting Comments	243
Highlighting Text	244
Tracking Changes While Editing	245
Tracking and Viewing Changes	245
Printing Edits and Markup	248
Accepting and Rejecting Changes	249

Comparing and Merging Documents	252
Merging Two Documents	253
Protecting Your Document from Changes	254
Sharing Documents over SkyDrive or SharePoint	255
Sharing with SharePoint	258

Part Two: Outlook

Chapter 8: Outlook: Email and Life Management 101	263
Starting Outlook the First Time	263
Outlook Tour	265
Sending Emails with Outlook	268
Email Fancy Formatting	271
Embedding a Picture in Your Email	272
Getting Photos from Cameras, Scanners, and Screenshots	274
Sending Attachments with Your Email	275
Adding Hyperlinks to Your Email	276
Creating and Using Email Signatures	277
About Digitally Signed and Encrypted Email	279
Receiving Email	279
Downloading Pictures	283
Categorize and Arrange Your Emails	284
Setting Up a Schedule to Send and Receive Email	285
Managing Junk Mail	287
Chapter 9: Managing Your Contacts	289
Creating New Contacts	289
Adding Email Senders to Your Contacts	293
Editing, Adding and Deleting Contacts	294
Putting Contacts on the Map	294
Syncing Outlook Contacts with Your Mac Address Book	295
Importing Contacts	295
Importing Contacts and Other Data from Outlook for Windows	299
Creating Contact Groups	300
Organizing and Searching for Contacts	302
Printing Contacts	303
Chapter 10: Calendar: Meetings, Tasks, and Notes.	305
Creating Appointments and Meetings	305
Adding Appointments	308
Editing and Deleting Appointments	310
Creating Recurring Appointments	310
Adding Meetings	311
Sending Updates and Canceling Meetings	313
Responding to a Meeting Invitation	314

Adding Holidays to Your Calendar	315
Removing Holidays	316
Filtering the Displayed Events	317
Printing Calendars	318
Be Your Own Task Master	319
Taking Note	321
Creating Notes	322
Emailing and Forwarding Notes	323
Printing Notes	323

Chapter 11: Customizing Outlook and Managing Data 325

Changing the Look of Outlook	325
Creating Your Own Categories	328
Using Categories to Filter the View	330
Using Folders and Smart Folders	332
Manually Adding Folders in Notes and Email	332
Creating Smart Folders	333
Using Advanced Searches to Create Smart Folders	334
Creating Email Rules	336
Create Multiple Outlook Identities	338
Using My Day as Outlook Lite	340

Part Three: Excel

Chapter 12: Basic Excel 347

Spreadsheet Basics	347
Opening a Spreadsheet	348
Data Entry	350
Basic Formatting	354
Kinds of Data	355
Tedium Savings 1: AutoComplete	357
Tedium Savings 2: Formula AutoComplete	358
Tedium Savings 3: AutoFill	359
Selecting Cells (and Cell Ranges)	362
Moving Things Around	364
Inserting and Removing Cells	367
Find and Replace	368
Erasing Cells	369
Tutorial 1: Entering Data	370
Formula Fundamentals	372
Basic Calculations	373
Functions	375
Order of Calculation	378
Tutorial 2: Yearly Totals	379

Chapter 13: Building Advanced Workbooks.	383
Naming Cells and Ranges	383
Creating Names Quickly	385
Using Names to Look Up Data	386
References: Absolute and Relative	387
Workbooks and Worksheets	388
Working with Multiple Worksheets	388
Exporting Files	390
Advanced Formula Magic	394
Nested Formulas	394
The Formula Builder	395
Circular References	396
Connecting to Other Workbooks	398
Auditing	400
Chapter 14: Excel Data Magic	401
Excel Tables, the New List Maker	401
Building Your Table	403
Naming Your Table and Renaming Headers	405
Adding New Records and Fields	405
Rearranging Rows and Columns	407
Deleting Records, Fields, and Entire Tables	407
Converting and Deleting a Table	408
Table Formatting Tricks	408
Automatic Formatting with Table Options	409
Conditional Formatting for Cells	410
Sorting and Filtering Your Table	411
Hide and Seek with Table Filters	412
Applying Multiple Filters	414
The Calculating Table	415
Building a Lookup Formula for Your Table	416
Working with Databases	417
Fetching FileMaker Pro Data	418
Grabbing Data from the Web	421
Importing Data from a Text File	422
Analyzing and Viewing Your Data	422
Making a PivotTable	422
What If Tools Analyze Your Data	426
Viewing Your Data	435
Flag for Follow-Up	438
Adding a Comment	438

Chapter 15: Excel Macros and Visual Basic	441
Recording and Playing Macros	442
Playing and Saving Macros	444
Absolute vs. Relative Cell References	444
Using Formulas in Macros	447
Making Macros Always Available	449
Introducing Visual Basic for Applications	450
Opening a Recorded Macro in Visual Basic	451
Referencing Cells the VB Way	453
Changing the Contents of a Cell	455
Getting More Visual Basic Help	455
Chapter 16: Formatting and Charts: Well-Dressed Spreadsheets	459
Formatting Worksheets	460
Automatic Formatting with Table Styles	460
The Format Painter	463
Formatting Cells by Hand	463
Format Cells with Borders and Fill Color	467
Setting Cell Fill Colors	469
Changing How Text Looks	469
Adding Pictures, Movies, and Text Boxes	477
Charts	479
Chart Parts	480
Step 1: Select the Data	482
Step 2: Choose a Chart Style	483
Step 3: Check Your Results	486
Step 4: Design the Chart Content	487
Step 5: Refine the Chart's Appearance	488
Transparent Bars	491
Advanced Analysis Charting	492
Sparklines: Small, Intense, Simple Datawords	496
Formatting Sparklines	497
Moving and Removing Sparklines	498
Chapter 17: Printing and Sharing Spreadsheets	499
Printing Worksheets	499
Print Preview	499
Print to PDF Files	500
Page Setup	502
Sharing a Workbook	506
Protecting the Spreadsheet	508
Tracking Changes	510
Merging Workbooks	510

Part Four: PowerPoint

Chapter 18: Planning and Creating Great Presentations	515
Planning the Presentation	516
The Goals of Your Presentation	516
Know Your Audience	516
Tailor the Presentation to the Audience	517
Outline the Presentation	518
Build Your Presentation	518
Practice	519
Delivering the Presentation	520
Welcome Your Audience	521
Introduce Your Presentation	521
Making the Presentation	522
Review	522
Evaluating the Presentation	522
Presentation Hardware	524
Laptops	525
Projectors	525
Remote Controls	528
Chapter 19: Building a PowerPoint Presentation.	531
Step 1: Choose a Template	531
The Three-Pane View	532
Step 2: Specify a Theme	535
Step 3: Add Slides and Choose Layouts	536
Changing Themes in Midstream	537
Step 4: Writing the Outline	538
Using a Word Outline	540
Step 5: Building the Show	542
Using Masters	542
View Controls	546
Navigation	547
Manipulating Your Slides	548
How to Build a Slide	550
Using Backgrounds	551
Working with Text	553
Adding Graphics, Charts, and Tables	555
Movies and Sounds	558
Other Objects	561

Chapter 20: Putting On the Show	563
Adding Movement	563
Transitions	563
Multimedia Effects	569
Adding Animations	569
Putting Controls on Slides	573
Adding Narration	576
Putting On the Show	579
Setting Up	579
Rehearsing Your Presentation	580
Choosing a Navigation Scheme	581
Presenting Onscreen	582
Controlling the Show	583
Using Presenter View	584
Recycling Your Presentations	585
Saving Presentations as QuickTime Movies	586
Broadcasting Presentations on the Web	588
Saving Slides as Graphics	590
Printing Your Presentation	591
Page Setup	592
Printing Your Slides	594
Notes and Handouts	595

Part Five: Office As a Whole

Chapter 21: Making the Most of Graphics and Media 599

Inserting a Graphic or Media Clip	599
The Clip Art Gallery	602
Categories	604
Online	604
Adding Your Own Clips	604
Deleting Clips	605
Search	605
Working with Clip Art	605
AutoShapes, Lines, SmartArt, and WordArt	605
AutoShapes	605
Lines	607
Formatting and Editing Shapes and Lines	608
SmartArt Graphics	609
WordArt	611
Aligning Objects	611

Modifying Graphics with the Format Dialog Box	613
Formatting Fills	614
Drawing Lines	619
Adding Shadows	619
Glow and Soft Edges Effects	620
Creating Reflections	620
3-D Format	621
3-D Rotation	621
Adjust Picture	622
Artistic Filters	623
Cropping Graphics	623
Formatting Text Boxes	624
Size Adjustments	624
Adjust Position	625
Storing Favorites in the Scrapbook	625
Object Linking and Embedding (OLE)	626
Creating Linked Objects	627
Editing Linked Objects	628
Repairing a Broken Link	628
Overriding Automatic Updating	629
Creating Embedded Objects	630
Editing Embedded Objects	630

Chapter 22: Customizing Office 631

Customizing the Ribbon	631
Customizing Your Toolbars	633
Showing Other Toolbars	634
Creating Custom Toolbars	635
Attaching Custom Toolbars to Documents	638
Redesigning Your Menus	639
Adding a Command	640
Removing a Menu Command	641
Adding a Menu	641
Removing a Menu	642
Moving Whole Menus, or Specific Commands	642
Resetting Everything Back to Normal	642
Reassigning Key Combinations	643
AppleScripting Office	644
What is AppleScript?	645
Why Use AppleScript?	645
Installing and Running Office Scripts	646
Installing Applets and Droplets	646
Installing Script Menu Scripts	646
Running the Scripts	647

Part Six: Appendixes

Appendix A: Installation and Troubleshooting	651
Appendix B: The Office Help System	659
Appendix C: Office 2011, Menu by Menu	665
Appendix D: SkyDrive and Office Web Apps	739
Index	753
