WORKSHOP PROCESSES, PRACTICES & MATERIALS

FOURTH EDITION

CONTENTS

Preface to the first edition	xiv
Preface to the second edition	xv
Preface to the third edition	xvi
Preface to the fourth edition	xvii
Acknowledgements	xviii
1 Safe practices	1
1.1 Health and Safety at Work Act 1974 (HSWA) (as amended)	1
1.2 Health and safety organisation	1
1.3 Employer's responsibilities	3
1.4 Safety policy	4
1.5 Safety Representatives and Safety Committees Regulations 1977 (as amended)	4
1.6 Health and Safety (Consultation with Employers) Regulations 1996 (as amended)	5
1.7 Employees' responsibilities	6
1.8 New regulations for health and safety at work	7
1.9 Management of Health and Safety at Work (Amendment) Regulations 2006	7
1.10 Provision and Use of Work Equipment Regulations 1998 (PUWER)	8
1.11 Workplace (Health, Safety and Welfare) Regulations 1992 (as amended)	11
1.12 Personal Protective Equipment at Work Regulations 1992 (as amended)	12
1.13 The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 1995 (RIDDOR) (as amended)	13
1.14 Control of Substances Hazardous to Health (COSHH) Regulations 2002 (as amended)	14
1.15 Control of Noise at Work Regulations 2005	15
1.16 Control of Vibration at Work Regulations 2005	17

1.17	Electrical hazards	18
1.18	The Health and Safety (Safety Signs and Signals) Regulations 1996	22
1.19	Safety signs and colours	22
1.20	Fire	23
1.21	Dangerous Substances and Explosive Atmospheres Regulations (DSEAR) 2002	28
1.22	First Aid at work	28
1.23	Causes of accidents	29
1.24	General health and safety precautions	30
2	Hand processes	33
2.1	Engineer's files	33
2.2	The hacksaw	37
2.3	Cold chisels	38
2.4	Scrapers	39
2.5	Engineer's hammers	40
2.6	Screwdrivers	41
2.7	Taps	41
2.8	Dies	42
2.9	Hand reamer	43
2.10	Powered hand tools	43
3	Marking out	47
3.1	Datum	47
3.2	Co-ordinates	47
3.3	Marking out equipment	48
3.4	Examples of marking out	52
4	Sheet-metal operations	59
4.1	Cutting and bending sheet metal	60
4.2	Development	62

5 Standards, measurement and gauging	65
5.1 Length	66
5.2 Dimensional deviation	73
5.3 Gauging	75
5.4 Straightness	80
5.5 Flatness	81
5.6 Squareness	82
5.7 Roundness	84
5.8 Surface roughness	85
6 Measuring equipment	89
6.1 Vernier instruments	89
6.2 Micrometers	94
6.3 Dial indicators	98
7 Cutting tools and cutting fluids	102
7.1 Cutting-tool materials	102
7.2 Cutting tools	106
7.3 Cutting-tool maintenance	111
7.4 Cutting speed	114
7.5 Cutting fluids	116
7.6 Types of cutting fluid	117
7.7 Application of cutting fluids	119
7.8 Safety in the use of cutting fluids	120
8 Drilling	122
8.1 The sensitive drilling machine	122
8.2 Tool holding	123
8.3 Clamping	124
8.4 Cutting tools on drilling machines	125
8.5 Drilling operations	129
8.6 Drilling sheet metal	130

8.7	Drilling plastics	131
8.8	Safety in use of drilling machine.	131
9	Turning.	133
9.1	Centre-lathe elements	133
9.2	Centre-lathe controls	137
9.3	Guards	138
9.4	Workholding.	139
9.5	Centre-lathe operations	143
9.6	Taper turning	145
9.7	Screw-cutting	147
9.8	Safety in use of lathe	149
10	Surface grinding	150
10.1	Elements of a surface-grinding machine.	151
10.2	Controls	152
10.3	Workholding.	153
10.4	Grinding wheels.	154
10.5	Surface-grinding operations.	161
10.6	Safety in the use of abrasive wheels	163
11	Milling.	165
11.1	Milling-machine elements	166
11.2	Controls	169
11.3	Milling cutters	169
11.4	Cutter mounting	173
11.5	Workholding	174
11.6	The dividing head.	175
11.7	Milling operations	177
11.8	Safety in the use of milling machines	180
12	Joining methods	182
12.1	Mechanical fasteners.	182

12.2 Screw threads	184
12.3 Locking devices	186
12.4 Riveting	188
12.5 Soft soldering	190
12.6 Solders	191
12.7 Brazing	192
12.8 Welding	194
12.9 Adhesives	200
12.10 Electrical connections	206
12.11 Relative merits of joining methods	207
13 Materials	209
13.1 Physical properties	209
13.2 Mechanical properties	212
13.3 Comparison of properties	213
13.4 Plain-carbon steel	213
13.5 Heat treatment of plain-carbon steel	215
13.6 Cast iron	218
13.7 Copper and its alloys	220
13.8 Aluminium and its alloys	222
13.9 Die-casting alloys	223
13.10 Lead	224
13.11 Contact metals	224
13.12 Bearing materials	225
13.13 Metal protection	228
13.14 Corrosion	228
13.15 Protective coatings	229
14 Plastics	242
14.1 Thermoplastics and thermosetting plastics	243
14.2 Types of plastics	244
14.3 Working in plastics	253

14.4	Plastics Welding	253
14.5	Machining	255
14.6	Heat bending	257
14.7	Plastics moulding processes	258
15	Primary forming processes	266
15.1	Forms of supply of raw materials	266
15.2	Properties of raw materials	267
15.3	Sand casting	267
15.4	Rolling	270
15.5	Extrusion	272
15.6	Drawing	273
15.7	Forging	274
15.8	Selection of a primary process	275
16	Presswork	277
16.1	Presses	277
16.2	Press-tool design	282
16.3	Blanking, piercing and bending operations	286
16.4	Blanking layouts	288
17	Investment casting, lost foam casting and shell moulding	290
17.1	Investment casting	290
17.2	Metals for investment casting	293
17.3	Lost foam casting	293
17.4	Shell moulding	295
18	Die-casting and metal injection moulding	298
18.1	Gravity die-casting	298
18.2	Low-pressure die-casting	299
18.3	High-pressure die-casting	300
18.4	Die-casting metals	303

18.5	Special features of die-castings	306
18.6	Advantages and limitations of die-castings	308
18.7	Choice of a die-casting process	309
18.8	Metal injection moulding	311
19	Moving loads.	313
19.1	The Manual Handling Operations Regulations 1992 (as amended).	313
19.2	Lifting Operations and Lifting Equipment Regulations 1998 (LOLER)	318
19.3	The Health and Safety (Safety Signs and Signals) Regulations 1996.	325
20	Drawings, specifications and data	328
20.1	Standardisation	328
20.2	Communicating technical information	329
20.3	Interpreting drawings	333
20.4	Sectional views	337
20.5	Standard conventions.	337
	Appendices	341
	Index	345
