

Visual C#

Game Programming

FOR TEENKS

Jonathan S. Harbour

CONTENTS

Introduction	xiii
PART I DUNGEON PREREQUISITES	1
Chapter 1 Welcome to the Dungeon	3
Game Programming Is an Art	4
Getting Your Feet Wet	5
On Programming Languages	8
Let Your Creativity Fly	10
On Creativity, Talent, and Hard Work	10
The Sky's the Limit	11
Learn the Tricks of the Trade	12
Taking a Look at Dungeon Crawler	14
Building a Role-Playing Game	15
The Dungeon	16
Describing the Player's Character	16
Adventure Game or Dungeon Crawler?	19
Level Up!	20
Chapter 2 Drawing Shapes and Bitmaps with GDI+	21
Drawing Lines	22
PictureBox Is Our Friend	22
Surfaces and Devices	23
4D Programming with a Timer	25

Drawing Rectangles 26

Drawing Text 29

Dissecting Bitmaps 32

 Loading a Bitmap File 33

 Drawing a Bitmap 34

 Rotating and Flipping a Bitmap 35

 Accessing Bitmap Pixels 37

Creating a Reusable Framework 42

 Game Class Constructor 43

 Game Class Destructor 44

 Bitmap Loading 44

 Game Updates 45

 Framework Demo 46

Level Up! 47

Chapter 3 Sprites and Real-Time Animation 49

What Is a Sprite? 50

Animating a Sprite 53

 Sprite Animation Theory 54

 Creating a Sprite Class 56

Sprite Drawing Demo 64

 Improving the Game Class 64

 Form1 Source Code 69

 Adding a Real-Time Game Loop 70

 Gameplay Functions 72

Level Up! 75

Chapter 4 Collision Detection 77

Reacting to Solid Objects 77

 Rectangle Intersection 78

 Collision Test 79

Archery Game (Collision Demo) 80

 Sprite Class 80

 Game Class 80

 Form1 Class 81

Level Up! 88

Contents

Chapter 5	Playing Sound Effects and Music	89
	Programming Audio	89
	Loading and Playing Audio Files	91
	Using Audio Resources	92
	Built-In System Sounds	94
	The Audio Playback Demo Program	95
	Using Windows Media Player	98
	Referencing the Media Player	98
	Playing MP3 and MIDI Files	100
	Level Up!	100
PART II	BUILDING THE DUNGEON	101
Chapter 6	Creating the Dungeon Editor	103
	Level Editor Design	104
	Tile Properties	105
	Using the Level Editor	107
	Building the Editor	117
	Importance of the Tile Palette	118
	Quick Jaunt through the Sources	120
	Level Up!	134
Chapter 7	Rendering a Dungeon Level	135
	Mapping the Dungeon	136
	Tile-Based Dungeon	136
	Loading and Drawing Level Files	140
	Introduction to Tiled Scrolling	145
	Constructing the Tiled Image	146
	Tile Buffer	147
	Stepping Stones of the World	148
	Tile Rendering Theory	148
	Per-Tile Scrolling	153
	Full-Tile Scrolling	153
	Full-Tile Smooth Scrolling	157
	Sub-Tile Scrolling	161
	Sub-Tile Scrolling Theory	161
	Drawing the Scroll Buffer	162

Aligning Tiles to the Scroll Buffer	163
Sub-File Scroll Buffering	163
Sub-File Smooth Scrolling	166
Level Up!	175

Chapter 8 Adding Objects to the Dungeon 177

Adding Objects to the Game World	178
A New Game Loop	178
New Level Class	183
Adding Trees	189
Adding an Animated Character	197
Level Up!	204

Chapter 9 Going Deeper into the Dungeon with Portals 205

Updating the Level Class	206
It's a Data-Driven Game World	212
Creating a Portal	213
Teleporting to Another Dimension	214
Looking for Tile Collisions	217
Secret Doors	218
Portal Demo Program	219
Level Up!	225

PART III EXPLORING THE DUNGEON 227

Chapter 10 Creating Characters and Monsters 229

Character Classes and Attributes	230
Attributes	230
Gaining Experience and Leveling Up	232
The Base Character Classes	232
Peasants as NPCs	237
The Monster Classes	237
The Character Editor	241
Loading Character Files	242
The Character Class	244

Contents

	The Animated Character Artwork	254
	Character Demo	256
	Level Up!	259
Chapter 11	Dialogue: Trainers, Vendors, and NPCs	261
	Talking with NPCs	262
	Creating the “Vendor” NPC	262
	Starting a Conversation	263
	Dialogue Choices	268
	Creating the Dialogue System	270
	Making Eye Contact	270
	Dialogue GUI	272
	<i>Final Example</i>	282
	Level Up!	291
Chapter 12	Fighting Monsters, Gaining Experience, and Leveling Up	293
	Preparing for Combat	294
	Starting an Attack	294
	Combat Demo 1	295
	Character Templates	298
	Animations: Player Characters (PCs)	298
	Animations: Hostile NPCs	301
	Creating the Combat System	304
	Making Up Our Own Rules	306
	Spawning Enemy NPCs	309
	Attack Rolls	309
	Rolling for Damage	312
	Attack Roll Example	314
	Dealing with the Player’s Death	315
	Combat Demo 2	316
	Facing Your Enemies	323
	Which Way Did He Go?	323
	A Change of Character	326
	State-Based Combat	327
	Dialogue Improvements	328
	Plugging in Attack State	329

Dealing Permanent Damage	333
Gaining Experience	337
Level Up!	339

Chapter 13 Equipping Gear and Looting Treasure 341

Item Editor Design	342
Item Images	343
Looking Up Items	345
Item Class	345
Item Editor Project	350
Looting Treasure	350
Preparing to Loot	351
Stumbling Upon Loot	353
Items Class	358
Character Class	360
Dropping Loot	370
Managing Inventory	374
Inventory Class	375
Player Class	385
Level Up!	386

Chapter 14 Populating the Dungeon 387

Player Spawn	388
Dungeon Entrance	388
Positioning the Player	390
Enforcing Tile Collision	393
Treasure Caches	398
Creating Treasure	398
Dropping Loot-Style Treasure	400
Designing Treasure Drops	404
Monster Spawns	407
Adding Monsters	408
Monsters by Design	410
Level Up!	412

Chapter 15	Deep Places of the World	413
	Going Deeper	414
	Line of Sight (Ray Casting)	414
	Torch Light Radius	420
	Scroller Optimizations	423
	Lua Script Language	424
	Installing Lua	425
	Incorporating Script Into the Engine	431
	Finishing Touches	432
	Level Up!	433
Index		435
