BUILDING SURVEYS & REPORTS

4th Edition

 WILEY-BLACKWELL

Contents

<i>Preface to Fourth Edition</i>	xv
<i>Acknowledgements</i>	xvii
1 General Principles and Responsibilities	1
1.1 What is a building survey	1
1.2 Housing quality initiatives	3
1.3 Other housing quality initiatives	6
1.4 Housing health and safety rating system (HHSRS)	8
1.5 Domestic survey implications	8
1.6 Non-domestic condition rating system	8
1.7 Condition appraisal	9
1.8 The purpose of the survey	9
1.9 Surveyor's responsibilities	12
1.10 Contracts and fees	17
2 Procedure and Equipment	22
2.1 Basic survey methodology	22
2.2 Preliminary operations	28
2.3 Property risks	30
2.4 Equipment for measured drawing surveys	34
2.5 Equipment for surveying buildings and examining defects	35
3 Measurement of Existing Buildings	41
3.1 Preliminaries	41
3.2 Internal measuring	43
3.3 Roof space	47
3.4 External measuring	47
3.5 Levelling	51
3.6 Plotting the survey	52
4 Surveys of Historic Buildings	53
4.1 General considerations	53
4.2 Medieval churches	60
4.3 Church towers	62
4.4 Church bells and fittings	63
4.5 Measured drawings	64
5 Foundation Failures	65
5.1 Introduction	65
5.2 Causes of failure	65
5.3 Differential movement	67
5.4 Inadequate foundations	68

5.5	Overloading	68
5.6	Unequal settlement	69
5.7	Effect of tree roots	70
5.8	Shallow foundations	71
5.9	Building on sloping sites	72
5.10	Building on made up ground	74
5.11	Diagnosis	75
6	Defective Walls and Partitions Above Ground	76
6.1	Type of failure	76
6.2	Bulging and leaning walls	76
6.3	Overloading	80
6.4	Thermal and moisture movements	81
6.5	Failure in arches and lintels	83
6.6	Defective materials and chemical action	85
6.7	Failures in bonding and defects at junctions	85
6.8	Frost failure	87
6.9	Cavity walls	87
6.10	Built-in iron and steel members	89
6.11	Tile and slate hanging and weatherboarding	89
6.12	Partitions	90
6.13	Assessment of cracks	92
6.14	Natural stone masonry	92
6.15	Defects in stonework	94
6.16	Cast stone	97
6.17	Recording defects	98
7	Reinforced Concrete, Cladding Materials and Structural Steelwork	100
	REINFORCED CONCRETE	100
7.1	Description	100
7.2	Corrosion and cracking	100
7.3	Aggregates	101
7.4	High alumina cement	103
7.5	Thermal expansion	103
7.6	Frost damage	104
7.7	Electrolytic action	104
7.8	Lightweight aggregates	104
7.9	Deflection	104
7.10	Diagnosis	105
7.11	Brick panel walls in reinforced concrete frames	105
7.12	No-fines concrete housing	105
7.13	Autoclaved aerated concrete	107
	CLADDING MATERIALS	109
7.14	Description	109

7.15	Concrete cladding defects	110
7.16	Joint problems	111
7.17	Metallic fasteners	113
7.18	Metal profile sheeting	114
	STRUCTURAL STEELWORK	118
7.19	Description	118
7.20	Diagnosis	118
8	Damp Penetration and Condensation	119
8.1	Description	119
8.2	Damp courses	119
8.3	Diagnosis	120
	RISING DAMP FROM THE GROUND	121
8.4	Solid walls with DPC absent or defective	121
8.5	Stone walls in older buildings	123
8.6	Basement walls and floors	123
8.7	Heaped earth or paving against walls and bridging of rendering	124
8.8	Internal partitions	124
8.9	Rising damp in ground floors	124
8.10	Rising damp in old timber-framed buildings	127
	PENETRATING DAMP THROUGH WALLS	127
8.11	Locating damp penetration	127
8.12	Parapet walls	129
8.13	Cavity walls	129
	EXTRANEOUS CAUSES	131
8.14	Leaks in plumbing systems	131
	CONDENSATION	132
8.15	Description	132
8.16	Causes	132
8.17	Diagnosis	133
8.18	Problems with flues	134
9	Timber Decay and Insect Attack	135
9.1	Introduction	135
	DRY ROT	135
9.2	Description	135
9.3	Diagnosis	136
	WET ROT	138
9.4	Description	138
9.5	Diagnosis	138
	BEEBLE ATTACK	139
9.6	Description	139
9.7	Diagnosis	141
9.8	Conclusion	142

10 Roof Structures and Coverings	143
ROOF STRUCTURES	143
10.1 Introduction	143
10.2 General investigations	147
10.3 Defects from natural causes	149
10.4 Timber pitched roofs	149
10.5 Timber flat roofs	150
10.6 Steel trusses and lattice girders	151
10.7 Older type roofs	152
10.8 Services and other fittings in the roof space	152
10.9 Electrical installation	155
10.10 Roof insulation	155
10.11 Party walls in roof space	156
ROOF COVERINGS	156
10.12 Introduction	156
10.13 Types of slate	158
10.14 Ridges, hips and valleys	159
10.15 Examination of a slate roof	159
10.16 Tiled roofs	161
10.17 Bituminous felt and polymeric sheet roofing	162
10.18 Asphalt	164
10.19 Copper	166
10.20 Lead	167
10.21 Zinc	169
10.22 Aluminium	170
10.23 Stone slates	171
10.24 Asbestos cement and translucent roofing sheets	173
10.25 Asbestos cement slates	175
10.26 Corrugated iron	176
10.27 Thatch	176
10.28 Wood shingles	178
10.29 Roof lights	178
10.30 Duckboards	181
11 Fireplaces, Flues and Chimney Stacks	182
11.1 Introduction	182
11.2 Domestic fireplaces and flue entry	183
11.3 Down-draught due to external conditions	184
11.4 Flue investigation	187
11.5 Flues serving gas fires	188
11.6 Flues serving oil-fired boilers	188
11.7 Hearths	189
11.8 Old fireplaces	189
11.9 Rebuilding	190

11.10	Chimney stacks	190
11.11	Industrial chimney shafts	192
12	Timber Upper Floors, Floor Coverings, Staircases and Ladders	194
12.1	Introduction	194
12.2	Structural timber floor defects	195
	FLOOR COVERINGS	200
12.3	Introduction	200
12.4	Boarded floors	200
12.5	Chipboard flooring	200
12.6	Hardwood strip flooring	201
12.7	Wood block	201
12.8	Floor screeds	202
12.9	Granolithic paving	202
12.10	Terrazzo	202
12.11	Cork tiles	202
12.12	Linoleum	203
12.13	Rubber flooring	203
12.14	Thermoplastic, PVC and vinyl asbestos tiles	203
12.15	Clay floor tiles	204
12.16	Concrete tiles	204
12.17	Magnesite flooring	204
12.18	Mastic asphalt and pitch mastic paving	205
12.19	Rubber latex cement flooring	205
12.20	Metal tiles	206
12.21	Slate	206
12.22	Marble in tile or slab form	206
12.23	Conclusion	206
	STAIRCASES AND LADDERS	207
12.24	Timber staircases	207
12.25	Metal staircases and ladders	208
12.26	Reinforced concrete stairs	208
13	Finishes and Joinery Externally and Internally	209
13.1	Introduction	209
	PLASTER	209
13.2	Types of plaster	209
13.3	Plasterboards and wallboards	210
13.4	Metal lathing	210
13.5	Plaster wall and ceiling defects	211
13.6	Old plaster ceilings	212
	SHEET LININGS	213
13.7	Types of board	213
13.8	Common defects	215

WALL TILING	215
13.9 Types of tiling and fixings	215
13.10 Common defects in finishes	216
LIGHTWEIGHT AND DEMOUNTABLE PARTITIONS	216
13.11 Types of partition and finish	216
JOINERY	217
13.12 Doors and windows	217
13.13 Skirtings, architraves and picture rails	219
13.14 Cupboard fitments	220
13.15 Ironmongery	220
13.16 Examination of defects	220
EXTERNAL RENDERING AND POINTING	222
13.17 Introduction	222
13.18 Rendering defects	223
13.19 Pointing	225
PAINTING AND DECORATING	226
13.20 Defects due to poor application or unsuitable backgrounds	226
13.21 Interior finishes	227
13.22 Exterior paintwork	228
13.23 Metal surfaces	229
13.24 Historic buildings	229
GLAZING AND LEADED LIGHTS	230
13.25 Introduction	230
13.26 Symptoms and defects	230
14 Services	232
14.1 Introduction	232
COLD WATER SUPPLY	232
14.2 Types of pipework	232
14.3 Guide to checking cold water installations	234
14.4 Old lead pipes	235
HOT WATER AND HEATING INSTALLATIONS	235
14.5 Direct and indirect systems	235
14.6 Oil-fired boilers	236
14.7 Gas-fired boilers	237
14.8 Wall mounted water heaters	237
14.9 Gas fires	238
14.10 Items to check	239
14.11 Immersion heaters	239
14.12 Storage heaters	240
14.13 Boiler flues	240
CENTRAL HEATING	240
14.14 Introduction	240
14.15 Common defects	241

SANITARY FITTINGS	243
14.16 Materials	243
14.17 Wash basins and shower trays	243
14.18 Baths	243
14.19 Bidets	244
14.20 Sinks	244
14.21 Taps	244
14.22 Water closets and cisterns	245
14.23 Urinals	245
WASTE AND SOIL PIPE INSTALLATIONS	246
14.24 Introduction	246
14.25 Types of soil and waste disposal systems	246
14.26 Pipes	248
14.27 Common defects	249
ELECTRICAL INSTALLATIONS	250
14.28 Introduction	250
14.29 Wiring systems	251
14.30 The ring circuits	252
14.31 Testing and inspecting installations	252
14.32 Regulation of electrical installation work in dwellings	256
GAS INSTALLATIONS	256
14.33 Introduction	256
14.34 Checking defects	257
14.35 Gas meter location	257
LIFTS AND HOISTS	258
14.36 Introduction	258
14.37 Lift pit	258
14.38 Lift shaft	259
14.39 Machine room	260
14.40 Prevention of damage	261
14.41 Small service lifts	262
14.42 Hand power hoists	262
14.43 Stair lifts	262
VENTILATION AND AIR CONDITIONING	263
14.44 Natural ventilation	263
14.45 Mechanical ventilation	263
14.46 Air conditioning	264
15 External Works	265
SOIL AND SURFACE WATER DRAINAGE	265
15.1 Introduction	265
15.2 Property erected before 1900	265
15.3 Property erected after 1900	267

ASSESSMENT OF THE CONDITION OF EXISTING SOIL DRAINS, GULLEYS AND INSPECTION CHAMBERS	269
15.4 Sketch plan of the system	269
15.5 Pipes and fittings	269
VISUAL INSPECTION AND TESTING	271
15.6 Drainage defects	271
15.7 Testing	271
15.8 Water test	272
15.9 Air and smoke test	274
15.10 Adjoining owners' drains	274
INSPECTION CHAMBERS, INTERCEPTORS, COVERS AND FRAMES	275
15.11 Inspection chambers	275
15.12 Deep inspection chambers	276
15.13 Back-drop chambers	276
15.14 Interceptors	277
15.15 Access covers and frames	278
GULLEYS AND GREASE TRAPS	279
15.16 Gulleys	279
15.17 Inspecting and checking gulley defects	280
ANTI-FLOOD DEVICES, PETROL INTERCEPTORS AND DRAINAGE CHANNELS	280
15.18 Anti-flood devices	280
15.19 Petrol interceptors	281
15.20 Drainage channels and gratings	282
OTHER MEANS OF SOIL AND WASTE DISPOSAL	282
15.21 Cesspools/cesspits	282
15.22 Septic tanks	284
15.23 Pumping stations	284
SURFACE WATER	285
15.24 Disposal systems from roofs	285
15.25 Disposal of surface water from paved areas	286
15.26 Soakaways	287
REPAIR PROCESSES	288
15.27 Recommendations	288
PAVING AND CARRIAGEWAYS	288
15.28 The function of carriageways	288
15.29 Flexible paving	289
15.30 Concrete paving	289
15.31 Blocks and slabs	289
15.32 Tiles and setts	289
15.33 Gravel and hoggin	289
15.34 Examination of pavings	290
BOUNDARY WALLS, FENCES AND GATES	291
15.35 Introduction	291

15.36	Ownership of fences and walls	291
15.37	Brick and stone boundary walls	293
15.38	Retaining walls	294
15.39	Timber and metal fencing	295
15.40	Types of fencing and their defects	295
15.41	Gates	297
	OUTBUILDINGS AND OTHER MISCELLANEOUS ITEMS	297
15.42	Introduction	297
15.43	Inspection and checking defects	297
	REFUSE COLLECTION	298
15.44	Small domestic dwellings	298
15.45	Large blocks of flats	299
15.46	Lightning conductors	301
15.47	Trees	301
16	Fire and Flood Damage	302
16.1	Introduction	302
	EFFECTS OF FIRE	304
16.2	Preliminary investigation	304
16.3	Brickwork	305
16.4	Concrete structures	306
16.5	Stonework	306
16.6	Steel beams, columns and roof trusses	306
16.7	Timber	307
16.8	Roof structure	307
16.9	Pitched roof coverings	307
16.10	Flat roof coverings	308
16.11	Floors	308
16.12	Internal and external finishes	308
16.13	Services	309
16.14	Recording the defects	309
	FLOOD DAMAGE	310
16.15	Causes	310
16.16	Preliminary examination	310
16.17	General effects of flooding	311
16.18	Foundations	311
16.19	Ground floors	311
16.20	Suspended ground floors	311
16.21	Floor finishes	312
16.22	Wall finishes	312
16.23	Metal finishes and fastenings	312
16.24	Drainage systems	312
16.25	Pavings	313
16.26	Recording defects	313

17 Report Writing	314
17.1 Introduction	314
17.2 Presentation	314
17.3 Report writing criteria	315
17.4 Arrangement of information	316
17.5 Format	317
17.6 Valuations	318
18 Legal Aspects	319
18.1 Introduction	319
18.2 Negligence defined	319
18.3 Duty of care	320
18.4 Breach of duty	321
18.5 Damages	322
18.6 Accuracy of estimates	322
18.7 Brief reports	323
18.8 Parties in tort	323
18.9 Type of survey required	324
18.10 Professional negligence relating to surveying buildings	324
18.11 Recent negligence cases	325
18.12 Disclaimers and limitation periods	326
18.13 Trespass	328
18.14 Party structures	328
18.15 Indemnity insurance	329
18.16 Property claims	330
Appendices	331
<i>Appendix I</i> Definitions of Inspections and Surveys of Buildings (CIC Explanatory Leaflet)	331
<i>Appendix II</i> Sample Extracts of Survey Schedules & Checklists	336
<i>Appendix III</i> Checklist for Property and Site Surveys	341
<i>Appendix IV</i> Checklist for Building Surveys	343
<i>Appendix V</i> Surveying Safely (Based on RICS 2004)	346
<i>Appendix VI</i> Report on Roof Defects (Village Hall)	352
<i>Appendix VII</i> Report on Property to be Purchased	358
<i>Appendix VIII</i> Glossary of Building Inspection and Related Terms	373
<i>Bibliography</i>	380
<i>Index</i>	405
