About the Authors	xi
Preface	xiii
Series Preface	xv
Acknowledgements	xvii
Summary	xix
Introduction	xxi
1 Historical Development of Vegetable Oil-based Lubricants	1
1.1 Introduction	1
1.2 Pioneering Industrial Uses of Vegetable Oils	3
1.3 Petroleum	5
References	8
2 Chemistry of Lubricants	9
2.1 The Nature of the Carbon Atom	9
2.2 Carbon and Hydrocarbons	9
2.2.1 <i>Pointers for Non-Chemists on Vegetable oil and General Chemistry</i>	16
References	19
3 Petroleum-based Lubricants	21
3.1 Introduction	21
3.2 Basic Chemistry of Crude Oils	22
3.2.1 <i>The Paraffinic Oils</i>	22
3.2.2 <i>The Naphthenic Oils</i>	22
3.2.3 <i>The Aromatic Oils</i>	22
References	24
4 Plant Oils	25
4.1 Chemistry of Vegetable Oils Relating to Lubricants	25
4.2 Triglycerides	26

4.3	Properties of Vegetable Oils	29
4.4	Vegetable Oil Processing	32
4.4.1	<i>Degumming</i>	33
4.4.2	<i>Bleaching</i>	33
4.4.3	<i>Refining</i>	33
4.4.4	<i>Deodorizing</i>	33
4.4.5	<i>Interesterification</i>	34
4.5	Oxidation	34
4.5.1	<i>Reducing Oxidation</i>	35
4.5.2	<i>Hydrogenation</i>	35
4.6	Winterization	38
4.7	Chemical Refining	38
4.8	Conventional Crop Oils	39
4.8.1	<i>Soybean</i>	39
4.8.2	<i>Palm Oil</i>	41
4.8.3	<i>Rapeseed</i>	42
4.8.4	<i>Sunflower Oil</i>	43
4.8.5	<i>Corn</i>	45
4.8.6	<i>Safflower</i>	48
	References	49
5	Synthetic Based Lubricants: Petroleum-Derived and Vegetable Oil-Derived	51
5.1	Esters	51
5.2	Esters for Biofuels	52
5.3	Complex Esters	55
5.4	Estolides	55
5.5	Other Chemical Modifications	58
5.5.1	<i>Metathesis</i>	60
5.5.2	<i>Enzymatic Hydrolysis of Fatty Acids</i>	61
	References	62
6	Genetic Modification and Industrial Crops	63
6.1	Introduction	63
6.2	Industrial Crops	64
6.2.1	<i>Camelina</i>	68
6.2.2	<i>Babassu</i>	70
6.2.3	<i>Cuphea</i>	71
6.2.4	<i>Castor</i>	72
6.2.5	<i>Rice Bran</i>	74
6.2.6	<i>Jatropha</i>	75
6.2.7	<i>Neem</i>	76
6.2.8	<i>Karanja (Pongam)</i>	78
6.2.9	<i>Poppy</i>	79
6.2.10	<i>Sesame</i>	80
6.2.11	<i>Jojoba</i>	80

6.2.12	<i>Cocomut</i>	81
6.2.13	<i>Lesquerella</i>	83
6.2.14	<i>Hemp</i>	83
6.2.15	<i>Flaxseed oil</i>	84
6.2.16	<i>Safflower</i>	85
6.3	Future and Industrial Crops	86
	References	88
7	Biobased Lubricants Technology	91
7.1	Determination of Oxidation Stability	91
7.1.1	<i>Active Oxygen Method (AOCS Method Cd 12-57)</i>	92
7.1.2	<i>Peroxide Value (AOCS Method 8b-90)</i>	92
7.1.3	<i>Oil Stability Instrument (AOCS Method Cd 1 2b-92)</i>	93
7.1.4	<i>Rancimat</i>	93
7.1.5	<i>Viscosity Change as a Measure of Oxidation</i>	95
7.2	Applications	97
7.3	Petroleum White Oils and Food Grade Lubricants	99
	References	101
8	Performance Properties of Industrial Lubricants	103
8.1	Introduction	103
8.2	Common Performance Requirements	104
8.2.1	<i>Viscosity</i>	104
8.2.2	<i>Flash and Fire Points</i>	107
8.2.3	<i>Boiling Range</i>	107
8.2.4	<i>Volatility</i>	108
8.2.5	<i>Cold Temperature Properties</i>	108
8.2.6	<i>Density</i>	109
8.2.7	<i>Foaming Properties</i>	109
8.2.8	<i>Copper Strip Corrosion</i>	111
8.2.9	<i>Copper Strip Corrosion Test</i>	111
8.2.10	<i>Rust Prevention</i>	111
8.2.11	<i>Test Purpose</i>	112
8.2.12	<i>Neutralization Number</i>	113
8.2.13	<i>Solubility</i>	113
8.2.14	<i>Aniline Point</i>	113
8.3	Heat Transfer Properties	113
8.4	Dielectric Properties	116
8.5	Fluid Quality	117
8.6	Fluid Compatibility	118
8.7	Hydrostatic Stability	120
8.8	Demulsibility	121
8.9	Oxidation Stability	122
8.10	Oxidation Stability for Mineral Oils	122
8.10.1	<i>Aromatic Content of Mineral Oils</i>	123
8.11	Elemental Analysis	123

8.12	Cleanliness	124
8.13	Storage and Shipping Temperatures	126
8.14	Tribological Performance of Biobased Lubricants	127
	8.14.1 <i>Four Ball Wear Test: ASTM D 4172</i>	128
	8.14.2 <i>Four Ball Extreme Pressure Test</i>	128
	8.14.3 <i>Timken O.K. Load Test – ASTM D 2509</i>	128
	8.14.4 <i>FZG Rating</i>	128
8.15	Metalworking Fluids	130
8.16	Biobased Engine Oils	135
	8.16.1 <i>Stationary Diesel Engines for CORS</i>	137
	8.16.2 <i>Test Results</i>	138
	References	141
9	Biobased and Petroleum-Based Greases	143
9.1	How to Make Soap	143
9.2	Basic Process for Manufacturing Grease	148
	9.2.1 <i>Simple (Soap-Based) Greases</i>	149
	9.2.2 <i>Complex (Soap-Salt) based Greases</i>	152
	9.2.3 <i>Non-Soap-Based Greases</i>	152
	9.2.4 <i>Preformed Soaps</i>	154
	9.2.5 <i>Preformed Dehydrated Soap for Biobased Greases</i>	154
	9.2.6 <i>Microparticle Dispersion of Lithium Hydroxide</i>	154
	9.2.7 <i>Polymer-thickened Greases Using Bio-based Base Oil</i>	155
9.3	Continuous Grease Manufacturing Process	156
9.4	Use of High Pressure-High, Shear Reaction Chambers (Contactor)	157
9.5	Vegetable Oil-based Greases	159
	9.5.1 <i>Alternative Heating Methods</i>	160
	9.5.2 <i>Heating Method and Impact on Oxidation Stability</i>	162
9.6	Grease Consistency	164
9.7	Grease Specifications	166
	9.7.1 <i>ASTM D4950 Specification</i>	167
	9.7.2 <i>Service Category “L” Chassis (and Universal Joint) Grease</i>	167
	9.7.3 <i>Service Category “G” Wheel Bearing Grease</i>	167
	9.7.4 <i>Multi-purpose Category</i>	168
	9.7.5 <i>Dropping Point</i>	169
	9.7.6 <i>Water Washout</i>	170
	9.7.7 <i>Water Spray-Off</i>	171
	9.7.8 <i>Bearing Oxidation Test</i>	172
	9.7.9 <i>Grease Cleanliness and Noise</i>	173
	9.7.10 <i>Grease Mobility Test</i>	173
	9.7.11 <i>Evaporation</i>	175
	9.7.12 <i>Oxidation Stability for Storage of Biobased Greases</i>	176
	9.7.13 <i>Oxidation Stability in Service</i>	177
9.8	Friction and Wear Tests	177
	9.8.1 <i>Four-ball Wear Test and Four-ball EP</i>	177
9.9	Application Examples of Biobased Greases	177

9.9.1	<i>Rail Curve Greases</i>	177
9.9.2	<i>Solid Lubricants</i>	180
9.9.3	<i>Truck Greases</i>	184
	References	186
10	Factors Affecting the Environment	187
10.1	Biodegradable and Biobased	187
10.2	REACH	190
10.3	Biodegradation of Oils	191
10.3.1	<i>Biodegradability Test</i>	192
10.3.2	<i>Electrolytic Respirometer</i>	192
10.4	Toxicity Types and Testing Methods	194
10.5	Chronic Toxicity	194
10.6	Terrestrial Plant Toxicity	195
	References	196
	List of Useful Organizations	197
	Useful Test Methods	199
	Glossary	203
	Index	209
