

Contents

Section 1: Coastal management

A sustainability index for offshore wind farms and open water aquaculture <i>G. Benassai, C. Stenberg, M. Christoffersen & P. Mariani</i>	3
Recent evolution and the present-day conditions of the Campanian Coastal plains (South Italy): the case history of the Sele River Coastal plain <i>G. Pappone, I. Alberico, V. Amato, P. P. C. Aucelli & G. Di Paola</i>	15
Integrated coastal management for local municipalities in Latvia: sustainability governance and indicator system <i>R. Ernsteins, J. Kaulins, E. Lice & A. Štals</i>	29
Coastal adaptation to sea level rise along the Nile delta, Egypt <i>Y. Eldeberky</i>	41
Yachting and pleasure crafts in relation to local development and expansion: Marina di Stabia case study <i>C. Bizzarri & D. La Foresta</i>	53

Section 2: Coastal processes and GIS

Cartography and remote sensing for coastal erosion analysis <i>M. Basile Giannini, P. Maglione, C. Parente & R. Santamaria</i>	65
Changes in land use and their impact on the coastal zone in northern Sinaloa (Gulf of California, Mexico) <i>P. Muñoz, L. Menanteau & D. Escobedo</i>	77
Intervisibility analysis of an offshore wind farm using GIS tools <i>A. Errico, F. Guastaferrro, C. Oliviero & R. Santamaria</i>	87

Section 3: Coastal geomorphology

Wave climate and coastal processes in the Osmussaar–Neugrund region,
Baltic Sea
Ü. Suursaar, R. Szava-Kovats & H. Tõnisson 99

Radar and optical hybrid images to improve geoenvironmental
mapping in Rio Grande do Norte state, Brazil
B. R. De Barros Pereira, V. E. Amaro & D. R. Valentim da Silva 111

Far-infragravity and infragravity “pulses” in a rip current
B. Greenwood, R. W. Brander & E. Joseph..... 123

Section 4: Extreme events and sea level rise

A new approach to calculate extreme storm surges:
analysing the interaction of storm surge components
G. Gönner & K. Sossidi..... 139

Pacific Island Land Ocean Typhoon (PILOT) experiment
S. J. Boc & K. K. Hathaway..... 151

Control of salt water intrusion due to sea level rise
in the coastal zone of Bangladesh
M. J. A. N. Bhuiyan & D. Dutta..... 163

Section 5: Coastal processes and navigation

The satellite positioning evolution in coastal processes
A. Angrisano, S. Gaglione, C. Gioia & M. Vultaggio..... 177

Longshore current velocities prediction:
using a neural networks approach
T. M. Alaboud & M. S. El-Bisy..... 189

Section 6: Sediment transport and erosion

Temporal and spatial variability of bottom sedimentation
for survey periodicity
P. C. Chu & N. S. Wheatley..... 203

The hydrodynamic response of beach nourishment in the Cancun Beach, Quintana Roo, México <i>J. C. Sanchez, J. C. Espinal & D. Moran</i>	215
---	-----

Connecting river to sea by a 2-D mathematical model <i>A. Astaraki & F. Fallah</i>	227
---	-----

Section 7: Interaction between coastal defences and processes

Shoreline behind a breakwater for wave energy absorption in Reggio Calabria: comparison between theoretical models and experimental data <i>G. Barbaro & G. Foti</i>	237
---	-----

A model to follow the evolution in time of free beach fill <i>L. Rebaudengo Landò & S. Stura</i>	249
---	-----

Section 8: Pollution and dispersion

Application of the MSB model to ballast water exchange in tidal embayments <i>S. Mecca, S. Morris & R. Barber</i>	265
---	-----

Environmental impact assessment based on a potential oil spill scenario: Eastern Black Sea coastal zone, Turkey <i>Ö. Acir, R. Aps, M. Fetissov & M. Sert</i>	273
---	-----

Coastal and marine impact assessment for the development of an oil spill contingency plan: the case study of the east coast of Sicily <i>L. de Santoli, F. Cumo, D. Astiaso Garcia & D. Bruschi</i>	285
---	-----

Relation between natural cleansing effect and angularity of coastal gravel <i>S. Hamada, N. Sawano & R. Aps</i>	297
--	-----

Section 9: Hydrodynamic forces

Influence of seasonal sea ice conditions on hydrodynamic processes and oil spill drift <i>R. Aps & Ü. Suursaar</i>	309
--	-----

Hydrodynamic forces acting on an oscillating structure <i>D. Mirauda, A. Volpe Plantamura & S. Malavasi</i>	321
Detrended fluctuations analysis of significant wave height time series <i>L. Cabrera & G. Rodríguez</i>	333
Author Index	343
