Professional Web Design

Techniques and Templates

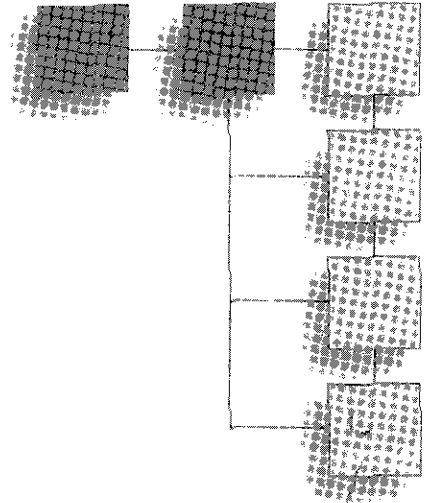

Fourth Edition

A Web design training course and
free library of templates all in one!

Clint Eccher

CONTENTS

	Introduction	xv
Chapter 1	Overview of Web Development Today	1
	Defining Web Design	2
	Knowing the Seven Rules of Web Design	5
	Understanding Three Web-Design Philosophies	6
	Usability Philosophy	7
	Pros and Cons	8
	Multimedia Philosophy	12
	Pros and Cons	13
	Mortised Philosophy	14
	Pros and Cons	15
	Summary	17
Chapter 2	Designing for the Past, Present, and Future	19
	Feeling Browser Pains	19
	Incorporating Usage Statistics	22
	Branching Pages	25
	Understanding Bandwidth	25
	Building on Previous Design Weaknesses	28
	IFrames and Frames	29
	Image Buttons	30
	Background Images	32
	Uncontrolled Color	36

Uncompressed Images	37
Thumbnails	38
Summary	40

Chapter 3	Things to Consider Before Beginning	41
	Using Requirements	41
	Collecting the Requirements	43
	Obtaining Front-End Requirements	46
	Creating a Flowchart	47
	Knowing Bandwidth Requirements	47
	Deciding on Resolution	50
	Designing Fixed versus Relative Sites	55
	Creating Versions of a Site to Satisfy Differing Resolutions	57
	Deciding on Color Depth	57
	Designing for Scalability	60
	Using Include Files	60
	Creating a Flexible Design	62
	Summary	65

Chapter 4	Enhancing Usability	67
	Simplifying Architecture	67
	Use a Consistent Naming Convention	68
	Limit the Clicking	69
	Avoid Linking the User Out of the Section	69
	Create Cascading Architecture versus Flat Architecture	71
	Creating Layout	72
	Scrolling versus Nonscrolling	72
	Pros of Scrolling	72
	Cons of Scrolling	72
	Positioning Content	73
	Developing Navigation	74
	Creating Consistency	74
	Using Text for Menu Items	76
	Deciding Whether to Use a Horizontal or Vertical Structure	76
	Allowing Enough Width	77
	Understanding the Different Types of Menus	77
	Designing for Accessibility	79
	Designing for Content	79
	Summary	82

Chapter 5	Gathering Requirements and Creating a Comp	83
	Gathering and Basing a Site on Requirements	85
	Creating a Comp for the Client	89
	Creating a Source Directory	90
	Collecting and Documenting Stock Images	92
	Selecting Colors	94
	Deciding Layout	95
	Developing Layers	96
	Using Masks	99
	Receiving a Decision on the Chosen Comp and Making Edits	100
	Summary	101
 Chapter 6	 What Is Needed to Build Mortised Sites	 103
	Understanding the Concept of Mortising Images	104
	Understanding XHTML	113
	Using a Limited Number of Tags	114
	Understanding Graphics	114
	Understanding CSS	114
	Understanding CSS Terminology	116
	CSS Used in This Book	117
	Block- and Line-Level Tags	118
	Understanding the DocType Declaration	118
	Linking to CSS Style Sheets	118
	Including Print Style Sheets	121
	Understanding Include Files	123
	Summary	124
 Chapter 7	 Understanding Graphics	 125
	Learning about Vector and Bitmap Images	125
	Learning about JPGs, PNGs, and GIFs	128
	Using PNGs and GIFs	128
	Knowing How PNG and GIF Compression Work	134
	Using JPGs	137
	Saving a Photograph	138
	Saving an Image That Has Gradations	138
	Saving Text on Top of a Photo	142
	Misusing Image Formats	143
	Understanding Graphics/Compression Software	151
	Summary	153

Chapter 8	Creating CSS Designs	155
	CSS-Based Design Versus XHTML Table Design	155
	Advantages of CSS Designs	156
	Disadvantages of CSS Designs	156
	The Basics of CSS-Based Design Works Versus XHTML Table-Based Design	157
	Understanding the Box Model	170
	When to Use Tables	176
	Validating Code	176
	Testing Designs in Various Browsers	177
	Summary	178
 Chapter 9	 Case Study: Low-Content CSS Design	 179
	Understanding the Design's Structure	180
	The Reasoning Behind Guides and Creating Slices in Photoshop Files	180
	Understanding the Placement of CSS Containers	183
	Building the Structure	185
	Creating the XHTML and CSS Framework	185
	Adding the Header Content	188
	Adding <DIV> in Which to Nest Left and Right Columns	192
	Creating the Left Column	194
	Adding the Center (Right) Column	201
	Constructing Second-Level Pages	207
	Adding a Floating Container for Additional Content	214
	Summary	222
 Chapter 10	 Case Study: Medium-Content CSS Design	 223
	Understanding the Design's Structure	223
	Reasoning Behind Guides and Creating Slices in a Photoshop File	224
	Understanding the Placement of CSS Containers	226
	Building the Structure	228
	Creating the XHTML and CSS Framework	228
	Adding the Left Column	230
	Adding <DIV> to Nest Center and Inside-Right Columns	236
	Adding the Top-Right Images	237
	Adding the Bottom, Center, and Right Content Areas	244
	Constructing Second-Level Pages	253

	Constructing a Second-Level Page with Three Columns	253
	Constructing a Second-Level Page with Two Columns	260
	Summary	265
Chapter 11	Case Study: High-Content CSS Design	267
	Understanding the Design's Structure	267
	Reasoning Behind Guides and Creating Slices in Photoshop Files	268
	Understanding the Placement of CSS Containers	271
	Building the Structure	272
	Creating the XHTML and CSS Framework	273
	Adding the Header Row	275
	Creating the Left Column	280
	Adding the Center Column	286
	Constructing Second-Level Pages	299
	Constructing a Second-Level Page with Three Columns	300
	Constructing a Second-Level Page with Two Columns	310
	Summary	320
Chapter 12	Case Study: Full-Height Three-Column Layout	321
	Understanding the Design's Structure	322
	Reasoning Behind Guides and the Creating of Slices in Photoshop File	323
	Understanding the Placement of CSS Containers	325
	Building the Structure	326
	Creating the XHTML and CSS Framework	326
	Adding the Rows and Columns to the Framework	329
	Populating the Header, Footer, and Columns with Content	335
	Constructing Second-Level Pages	343
	Summary	344
Chapter 13	Case Study: Background-Based Design	345
	Understanding the Design's Structure	346
	Reasoning Behind Guides and the Creating of Slices in the Photoshop File	347
	Understanding the Placement of CSS Containers	349
	Building the Structure	350
	Creating the XHTML and CSS Framework	350
	Adding the Header Area to the Framework	353

	Adding the Body Content and Footer	359
	Constructing Second-Level Pages	368
	Summary	370
Chapter 14	Case Study: A CSS Form	371
	Understanding the Form's Structure	371
	Explaining the Style Sheet Used for the Form	374
	Building the Form Row by Row	376
	Adding the <FORM> Tag and Required Row	376
	Adding the First Name Row	377
	Adding the Last Name Row	378
	Adding the Contact Name Row	379
	Adding the Region and Language Rows	379
	Adding the Status and Unlimited Rows	380
	Adding the Purchase Date Row	381
	Adding the Comments Row	382
	Adding the Options to Select Rows	383
	Adding the Submit and Cancel Buttons	384
	The Final Product	384
	Summary	389
Chapter 15	Case Study: Low-Content XHTML Template	391
	Creating the Design for a Low Amount of Content	392
	Understanding the Strengths and Weaknesses of the Chosen Design	392
	Adding Guides and Slices	394
	Creating the Parent Table	395
	Creating and Linking the Style Sheet	396
	Creating the Menu Table	398
	Adding an Image to the Center Column	401
	Creating the Content (Right-Area) Table	402
	Creating the Footer Information	408
	Summary	409
Chapter 16	Tips and Techniques	411
	Tantek or Box Model Hack	411
	Naming Rules and Properties Correctly	416
	Removing Body Margins and Padding	420

Creating the Framework for a Fixed-Width CSS Design	421
Taking into Account Increasing and Decreasing Column Heights	430
Centering a Fixed-Width Design	432
Creating a Liquid Design	437
Creating a Line	438
Using Background Images as Design Elements	440
Coding CSS Mouseovers	441
Using JavaScript Drop-down Menus	443
Remembering the Order of Margin and Padding Shortcuts	443
Using the Border and Background Properties for Troubleshooting	443
Commenting Out Code for Troubleshooting	447
Using Unique Naming Conventions	449
Avoiding Horizontal Scrollbars	449
Using CSS Shortcuts	450
Understanding Font Units	450
Using Globally Driven and <DIV> Tags for Printing Purposes	450
Using Non-Graphical Elements When Designing Rebrandable Sites	451
Including Hidden <DIV> Tags for Future Use	453
Positioning the Line-Height Property Correctly	453
Testing Continually and Consistently	455
Creating Source Image Files That Can Be Easily Customized and Resaved	455
Breaking Out Sections of Source Image Files	457
Creating Smart Navigation	458
Reusing Images	459
Indenting and Commenting Code	461
Removing Spaces and Comments	462
Summary	464

Chapter 17	Search Engine Optimization (SEO)	465
	Search Engines	465
	Tips and Techniques	466
	Content Is King	468
	Keyword Research	468
	Creating Strong Title Tags	471
	Meta Keywords and Meta Description	473

Use <h1> to <h6> Tags	475
Use Bold and Italics Tags	476
Include Keywords in "alt" and "title" Properties in Images	477
Use Keywords in Naming Directories, Files, and Images	477
Link Keywords	479
Building a Strong Page Rank Value with Google	480
Adding Sitemaps to Site	481
Case Studies	482
Case Study 1—A5design.com	483
Optimization Changes Made to Site	483
Optimized Code	484
Optimization Results	490
Case Study 2—Onepartart.com	491
Optimization Changes Made to Site	492
Optimized Code	492
Optimization Results	500
Case Study 3—Apricotpetal.com	502
Optimization Changes Made to Site	503
Optimized Code	503
Optimization Results	505
Summary	505

Chapter 18 Conversion Rate Optimization (CRO)

What Are the Variables Associated with CRO?	507
Functionality	509
Layout	512
Imagery	515
Color	518
Content	519
Testing	521
Case Studies	524
A/B Test 1—Onepartart.com	524
A/B Test 2—apricotpetal.com	528
Multivariate Test—medcomgroup.com	528
Summary	532

Chapter 19 Customizing the Designs Included in This Book

Steps to Customizing a Template	535
Step 1: Open the Main Photoshop File	536

Step 2: Customize Images and Colors	537
Step 3: Optimize and Save Necessary Images	538
Step 4: Open an XHTML (HTML), CSS, or JavaScript File	541
Step 5: Customize Text and Code	542
Step 6: Test the Design	542
Photoshop Tutorials	544
Replacing Photos	544
Resizing Photos	549
Changing Colors	551
Undoing and Redoing Actions	556
Undoing Actions	556
Redoing Actions	556
Configuring the Undo Actions (History States) Setting	557
Summary	558
Chapter 20 Templates Included on DVD	559
Designs—Fourth Edition Folder	562
Designs—Third Edition Folder	594
Designs—First Edition Folder	808
Summary	876
Index	877
