<i>Introduction</i>	xiii
1 Membranes as Targets of Antimicrobial Lipids	1
<i>Peter J. Quinn</i>	
1.1 Introduction	2
1.2 Oil and Water Don't Mix!	2
1.3 Polar Lipids	3
1.3.1 The Amphiphilic Character of Polar Lipids	3
1.3.2 Hydrophobic Constituents of Lipids	4
1.3.3 Polar Groups of Complex Lipids	5
1.4 Properties of Surfactants	7
1.4.1 Critical Micelle Concentration	7
1.4.2 Aggregation of Surface-Active Molecules	8
1.4.3 The Influence of Solvent	9
1.5 Cell Membranes	11
1.5.1 Membrane Lipids	11
1.5.2 Lipid Domains in Membranes	13
1.5.3 Membrane Proteins	15
1.5.4 Membrane Stability	15
1.5.4.1 Membrane Lipid Phase Behaviour	17
1.5.4.2 Membrane Lipid Homeostasis in Homoiothermic Organisms	18
1.5.4.3 Membrane Lipid Adaption in Poikilothermic Organisms	19
1.6 The Action of Antimicrobial Lipids on Cell Membranes	20
1.7 Conclusions	21
Acknowledgements	21
References	22
2 Antibacterial Effects of Lipids: Historical Review (1881 to 1960)	25
<i>Halldor Thormar</i>	
2.1 Introduction	25
2.2 Antibacterial Activity of Soaps	26
2.2.1 Antibacterial Action of Fatty Acids and Their Derivatives	29
2.3 Inhibition of Lipids and Serum Albumin against the Antibacterial Action of Soaps	33
2.4 Diverse Actions of Fatty Acids and Their Salts on Bacteria	34

Contents

2.5	The Nature of the Bactericidal Action of Fatty Acids	36
2.6	A Possible Role of Soaps and Fatty Acids in Host Defence against Bacteria	38
2.7	Studies of Prophylactic and Therapeutic Applications of Soaps and Fatty Acids	40
2.8	Conclusions	43
	References	43
3	Antibacterial, Antiviral and Antifungal Activities of Lipids	47
	<i>Gudmundur Bergsson, Hilmar Hilmarsson and Halldor Thormar</i>	
3.1	Introduction	48
3.2	Antibacterial Activities of Fatty Acids and Monoglycerides	48
3.2.1	Activities against Gram-Positive Bacteria <i>In Vitro</i>	48
3.2.2	Activities against Gram-Negative Bacteria <i>In Vitro</i>	51
3.2.3	Antibacterial Mechanism	53
3.2.4	A Possible Role of Antimicrobial Lipids in Host Defence against Bacteria	57
3.3	Antiviral Activities of Fatty Alcohols, Fatty Acids and Monoglycerides	58
3.3.1	Early Studies of Antiviral Lipids	58
3.3.2	Antiviral Activities of Milk Lipids	60
3.3.3	Antiviral Activities of Lipids and Fatty Alcohols	61
3.3.4	Antiviral Mechanism of Lipids	65
3.4	Antifungal Activities of Fatty Acids and Monoglycerides	67
3.4.1	<i>In Vitro</i> Studies	67
3.4.2	<i>In Vivo</i> Studies	71
3.5	Conclusions	74
	References	75
4	Antimicrobial Lipids in Milk	81
	<i>Charles E. Isaacs</i>	
4.1	Introduction	82
4.2	Occurrence	83
4.2.1	Biosynthesis	83
4.2.2	Quantitative Assays	83
	4.2.2.1 Measurement of Antibacterial Activity	83
	4.2.2.2 Measurement of Antiviral Activity	84
4.3	Molecular Properties	84
4.3.1	Lipids in Milk and Plant Oils	84
4.3.2	Dependence of Antimicrobial Activity on Chain Length, Saturation and pH	85
4.4	Antimicrobial Activity	85
4.4.1	Mechanism of Action	85
4.4.2	Synergy between Antimicrobial Lipids and Antimicrobial Peptides	87
	4.4.2.1 Antimicrobial Peptides and Proteins	87

4.4.2.2	Potential Synergism between Antimicrobial Milk Lipids and Peptides	88
4.4.3	Influencing Factors	88
4.4.4	Spectrum	89
4.5	Applications	89
4.5.1	Additive Advantage to Foods and Biological Products	89
4.5.2	Physiological Advantage	90
4.5.3	Sexually Transmitted Pathogens and Topical Activity	91
4.6	Safety, Tolerance and Efficacy	91
4.7	Conclusions	92
	References	92
