Acknowledgments.....	xxvii
Authors.....	xxix

PART I History and Background

Chapter 1	Introduction and History of Military Logistics.....	3
1.1	Introduction	3
1.2	Assyrians	3
1.3	Philip II of Macedon and Alexander the Great	4
1.3.1	Reduction of Logistical Burdens	4
1.3.2	Naval Logistics	4
1.3.3	Advanced Supply Depots	5
1.4	Middle Ages Logistics: 1000–1400 AD	5
1.4.1	Early Scorched Earth Policy	5
1.4.2	Siege Logistical Considerations	5
1.5	Early British Naval Logistics: 1700–1800s	6
1.5.1	Lord Nelson	6
1.5.2	Logistical Requirements to Prevent Scurvy	7
1.5.3	Prevention of Spoilage of Supplies.....	7
1.5.4	Cannon Logistics Considerations.....	7
1.5.5	Gunpowder Logistics Considerations.....	8
1.6	American Revolutionary War.....	8
1.6.1	Logistical Acquisition and Supply Difficulties	8
1.6.2	Host Nation Support.....	8
1.7	Early 1800s.....	9
1.8	U.S. Civil War.....	9
1.8.1	Railways and Trains	9
1.8.2	Mortuary Logistics.....	9
1.9	Zulu Wars	10
1.9.1	British Ammunition Logistics.....	10
1.10	Spanish–American War.....	10
1.10.1	Logistical Problems at the Departure Port.....	10
1.10.2	Logistical Problems at Sea	11
1.10.3	More Logistical Problems in the Field.....	11
1.11	World War I	11
1.11.1	Use of Railways and Trains.....	11
1.11.2	Fortified Defensive Positions.....	12
1.11.3	Heavier than Air Aircraft.....	12
1.11.4	U-Boats.....	12
1.11.5	Poison Gas	13

- 1.12 World War II..... 13
 - 1.12.1 Use of Widespread Air Transportation 13
 - 1.12.2 Use of Long-Range Bombers 14
 - 1.12.3 Ammunition 14
 - 1.12.4 U-Boats..... 14
 - 1.12.5 Russian Campaign..... 14
- 1.13 Korean War..... 15
 - 1.13.1 ANTIAC..... 15
 - 1.13.2 First Widespread Use of the Helicopter for Logistical Operations 15
- 1.14 Cold War..... 16
 - 1.14.1 Stockpiling of Supplies 16
 - 1.14.2 Dependence on Civilian Aircraft 16
- 1.15 Vietnam War: U.S. Perspective 17
 - 1.15.1 Rapid Removal of Battlefield Casualties..... 17
 - 1.15.2 Increased Firepower 17
- 1.16 Vietnam War: Viet Cong Perspective..... 17
 - 1.16.1 Military Supply Recycling 18
 - 1.16.2 Acquisition of Supplies on the Open Market 18
 - 1.16.3 Viet Cong Medical Logistics..... 18
 - 1.16.4 Viet Cong Mortuary Logistics 18
- 1.17 Soviet–Afghanistan War..... 18
 - 1.17.1 Use of Local Support..... 19
 - 1.17.2 Logistical Operations without Local Support 19
- 1.18 Iran–Iraq War 19
 - 1.18.1 Use of Modern Foreign Weapons Systems 19
 - 1.18.2 World Involvement in Military Logistics 20
 - 1.18.3 Overreliance on Foreign Military Suppliers 20
- 1.19 Falkland Islands War..... 20
 - 1.19.1 British Vulcan Bombing of Port Stanley Airfield 20
 - 1.19.2 Exocet Missiles..... 21
- 1.20 Gulf War 22
 - 1.20.1 Lack of Resupply..... 22
 - 1.20.2 Incompatibility of Logistical Information Systems 22
- 1.21 War on Terrorism in Afghanistan..... 22
- 1.22 Iraq War..... 23
 - 1.22.1 Personal Body Armor..... 23
 - 1.22.2 Widespread Use of Military Contractors 23
 - 1.22.3 U.S. Soldiers Forced to Steal Water 24
- 1.23 Future of Military Logistics 24
- 1.24 Summary 24

Chapter 2 U.S. Department of Defense and North Atlantic Treaty Organization Supply Classes and National Stock Numbers..... 25

- 2.1 Introduction 25
- 2.2 Specific Supply Class Details..... 26
 - 2.2.1 Class I: Food..... 26
 - 2.2.2 Class II: Clothing 26
 - 2.2.3 Class III: Fuel and Lubricants 27
 - 2.2.4 Class IV: Barrier or Fortification Materials 27

- 2.2.5 Class V: Ammunition 27
- 2.2.6 Class VI: Personal Demand Items 27
- 2.2.7 Class VII: Major End Items 27
- 2.2.8 Class VIII: Medical Supplies 27
- 2.2.9 Class IX: Repair Parts 28
- 2.2.10 Class X: Materials for Nonmilitary Programs 28
- 2.3 Summary 28

Chapter 3 DOD Shipping Level Containers RFID Designations 29

- 3.1 Introduction 29
- 3.2 Layer 0: Product Item 29
- 3.3 Layer 1: Package 29
- 3.4 Layer 2: Transport Unit or Shipping Container 29
- 3.5 Layer 3: Unit Load or Palletized Unit Load 29
- 3.6 Layer 4: Freight Container 30
- 3.7 Layer 5: Movement Vehicle 30
- 3.8 Summary 30

PART II Overview of RFID and AIT Technologies

Chapter 4 Overview of AIT Technologies 33

- 4.1 Introduction 33
- 4.2 Automatic Information Technologies 33
 - 4.2.1 AIM Global 33
 - 4.2.1.1 Bar Codes 34
 - 4.2.1.2 RFID 35
 - 4.2.1.3 RFDC 36
 - 4.2.1.4 RTLS 36
 - 4.2.1.5 Satellite Tags with GPS 36
 - 4.2.1.6 MEMS 37
 - 4.2.1.7 Contact Memory Buttons 37
 - 4.2.1.8 Biometrics 38
 - 4.2.1.9 Common Access Cards 38
 - 4.2.1.10 Optical Character Recognition 38
- 4.3 Bar Codes 39
 - 4.3.1 Early History of the Bar Code 39
 - 4.3.2 Industry Acceptance 40
 - 4.3.2.1 Railroads 40
 - 4.3.2.2 Grocery Industry 40
 - 4.3.3 Universal Product Code 40
 - 4.3.3.1 Economic Impact of the UPC 40
 - 4.3.4 Technology behind the Bar Code 41
 - 4.3.5 Current Level of Use 42
 - 4.3.6 Future Uses 43
- 4.4 RFID 43
 - 4.4.1 Prior to IFF 44
 - 4.4.2 How the Great Bug Seal Worked 45

4.4.3	Research on RFID.....	45
4.4.3.1	In the Twentieth Century.....	45
4.4.3.2	The First RFID Patents.....	46
4.4.3.3	Toll Road and Animal Tracking.....	46
4.4.4	Development of Cost-Effective Protocol.....	48
4.4.5	Overview of Passive and Active Radio Frequency Identification Technologies.....	49
4.5	Global Positioning Systems.....	50
4.5.1	Integration of Real-Time Technologies and GPS.....	51
4.5.2	Conclusion.....	52
4.6	Real-Time Location Systems.....	52
4.7	Differences in Using RFID, RTLS, and GPS.....	53
4.8	Trend to Integrated AIT Applications.....	53
4.9	Summary.....	55
Chapter 5	Basic Introduction to Common RFID Components.....	57
5.1	General Component Overview.....	57
5.1.1	Tags.....	57
5.1.2	Reader.....	58
5.1.3	Antennas.....	59
5.1.4	Host.....	60
5.2	Tags.....	60
5.2.1	Power Sources.....	60
5.2.1.1	Passive Tags.....	60
5.2.1.2	Active Tags.....	61
5.2.1.3	Semi-Active Tags.....	62
5.2.1.4	SAW RFID Tags.....	62
5.2.2	Tag Frequencies.....	62
5.2.3	Writing Capabilities.....	63
5.2.3.1	Read Only.....	63
5.2.3.2	Write Once Read Many.....	63
5.2.3.3	Read-Write.....	63
5.2.4	Tag Components.....	64
5.2.4.1	Tag Integrated Circuitry.....	64
5.2.4.2	Tag Antennas.....	64
5.2.4.3	Tag Substrate or Tag Housing.....	65
5.2.5	Tag Generations.....	65
5.3	Scanners and Readers.....	66
5.3.1	Scanners.....	66
5.3.2	Readers.....	66
5.3.3	Reader Frequencies.....	66
5.3.4	Reader Interrogation Modes.....	66
5.4	Antennas.....	68
5.5	Hosts.....	69
5.5.1	Communication Protocols.....	69
5.5.1.1	RS-232.....	69
5.5.1.2	RS-485.....	69
5.5.1.3	Ethernet.....	70
5.6	Summary.....	70
	Questions.....	70

Chapter 6 Passive RFID System Components 71

6.1 Introduction 71

6.1.1 Major Advantages to Passive RFID Systems 71

6.1.1.1 Lower Expense 71

6.1.1.2 Smaller Sizes 71

6.1.1.3 Greater Operational Life 72

6.1.1.4 Environmental Robustness 72

6.1.2 Major Disadvantages to Passive RFID Systems 72

6.1.2.1 Less Range 72

6.1.2.2 Less Identification Capability 73

6.2 Chapter Organization 73

6.3 Trovan Electronic Identification Systems 73

6.3.1 Trovan Passive Tags 73

6.3.1.1 ID 100 Series 73

6.3.1.2 ID 200 and 300 Series 74

6.3.1.3 ID 400 Series 75

6.3.1.4 ID 600 Series 75

6.3.1.5 ID 700 Series 75

6.3.1.6 ID 800 Series 75

6.3.1.7 ID 1000 Series 77

6.3.2 Trovan Portable Readers 77

6.3.2.1 LID WAPR Workabout Pro Reader 77

6.3.2.2 GR-250 High-Performance Reader 78

6.3.2.3 LID Pocket Series Readers 78

6.4 SmartCode 79

6.4.1 SmartCode Inlays 79

6.4.2 SmartCode Passive Tags 79

6.5 Symbol Technologies 79

6.5.1 RFX3000 Series Inlays 79

6.5.1.1 RFX3000 1 × 1 Read/Write Tag 80

6.5.1.2 RFX3000 1 × 6 Read/Write Tag 80

6.5.1.3 RFX3000 2 × 2 Read/Write Tag 81

6.5.1.4 RFX3000 4 × 4 Read/Write Tag 81

6.5.2 Gen 2 RFX6000 Series Read/Write Inlay 81

6.5.2.1 RFX6000 1 × 1 Series Read/Write Inlay 81

6.5.2.2 RFX6000 2 × 4 Series Read/Write Inlay 81

6.5.2.3 Cargo Tag 82

6.5.3 Symbol Antennas 83

6.5.3.1 AN200 General Purpose Antenna 83

6.5.3.2 AN400 High-Performance Area Antenna 84

6.5.4 Symbol Readers 84

6.5.4.1 RD5000 84

6.5.4.2 XR400 Series 84

6.6 Intermec 85

6.6.1 Intellitag Windshield Tag 85

6.6.2 Intellitag Container Tag 85

6.6.3 Intellitag ID Card 86

6.6.4 Intermec Readers 86

6.6.4.1	IF Series of Fixed Readers.....	87
6.6.4.2	IP4 Handheld Reader Handle with Intermec 700 Series Computer.....	87
6.6.4.3	IV7 Vehicle Mount Reader.....	88
6.7	Summary.....	88
Chapter 7	Active RFID System Components.....	89
7.1	Introduction.....	89
7.1.1	Major Advantages to Active RFID Systems.....	89
7.1.1.1	Greater Range.....	89
7.1.1.2	Greater Identification Capability.....	89
7.1.2	Major Disadvantages to Active RFID Systems.....	90
7.1.2.1	More Expensive.....	90
7.1.2.2	Less Operational Life.....	90
7.1.2.3	Larger Physical Size.....	90
7.2	Savi Corporation.....	91
7.2.1	Savi Active Tags.....	91
7.2.1.1	SaviTag ST-602.....	91
7.2.1.2	SaviTag ST-604.....	92
7.2.1.3	SaviTag ST-654.....	92
7.2.1.4	SaviTag ST-656.....	92
7.2.2	Savi Fixed Readers.....	92
7.2.2.1	SR-650 Fixed Reader.....	93
7.2.2.2	Savi Signpost.....	93
7.2.3	Savi Mobile Readers.....	94
7.3	Mark IV Industries.....	95
7.3.1	Mark IV Transponders.....	95
7.3.1.1	Mark IV Internal Flat Pack Transponder.....	95
7.3.1.2	License Plate Transponder.....	95
7.3.1.3	Roof Mount Transponder.....	95
7.3.1.4	Fusion Transponder.....	96
7.3.1.5	Ubiquity Transponder.....	96
7.3.2	Mark IV Readers.....	96
7.3.2.1	Badger Reader.....	97
7.3.2.2	MGate Reader.....	97
7.3.3	Mark IV Antennas.....	99
7.4	Summary.....	99

PART III Overview of Equipment Interoperability Protocols and Standards

Chapter 8	Important RFID Mandates.....	103
8.1	Introduction.....	103
8.2	Department of Defense Mandate.....	103
8.2.1	Commencing January 1, 2005.....	103
8.2.2	Commencing January 1, 2006.....	103
8.2.3	Commencing January 1, 2007.....	104
8.2.4	Guidelines and Requirements.....	104

8.3	Walmart Mandate	104
8.4	Other Organizations	105
Chapter 9	Standards Organizations and RFID Standards	107
9.1	Introduction	107
9.2	International Standards Organization Standards	107
9.3	ISO Standards and RFID	107
9.3.1	18000-1 Part 1: Generic Parameters for the Air Interface for Globally Accepted Frequencies	108
9.3.2	18000-2 Part 2: Parameters for Air Interface Communications below 135 kHz	108
	9.3.2.1 Protocol and the Commands	108
	9.3.2.2 Compliance Rules	109
9.3.3	18000-3 Part 3: Parameters for Air Interface Communications at 13.56 MHz	109
	9.3.3.1 Intellectual Property	109
9.3.4	18000-4 Part 4: Parameters for Air Interface Communications at 2.45 GHz	109
	9.3.4.1 Frequency	109
	9.3.4.2 Interface Definitions	109
9.3.5	18000-5 Part 5: Parameters for Air Interface Communications at 5.8 GHz	110
	9.3.5.1 Intellectual Property	110
9.3.6	18000-6 Part 6: Parameters for Air Interface Communications at 860–930 MHz	110
9.3.7	18000-7 Part 7: Parameters for Air Interface Communications at 433 MHz	111
	9.3.7.1 DASH7 Alliance	111
9.4	Work Group on RFID for Item Management (WG 4)	111
	9.4.1 ISO Standards Summary	112
9.5	EPC Global Standards	112
9.6	GS1 and GS1 US	113
9.7	EPC/GTIN Integration	114
9.8	EPC Generation 2	114
9.9	Other Standards	115
9.10	Electronic Product Code Details	115
	9.10.1 Serialized Global Trade Item Number	116
	9.10.2 Serialized Global Location Number	116
	9.10.3 Global Returnable Asset Identifier	117
	9.10.4 Global Individual Asset Identifier	117
	9.10.5 Global Identifier (GID-96)	118
9.11	Department of Defense UID	119
9.12	EPC Global Tag Data Construct Option	120
9.13	FCC Part 15 Radiation Regulation	122
Chapter 10	UID and RFID Standards for Military	123
10.1	Introduction	123
10.2	UID	123

10.3	RFID.....	124
10.3.1	Passive RFID.....	124
10.3.1.1	DOD-96 Identifier.....	124
10.3.1.2	Data Fields.....	124
10.3.2	Active RFID.....	126
10.4	Implementation.....	126
10.4.1	Implementation Strategies.....	129
10.4.2	Replacement for Bar Codes.....	130
10.5	Summary.....	130

PART IV Implementation, Decision Making, and Testing Approaches

Chapter 11	RFID Project Management.....	133
11.1	Introduction.....	133
11.2	RFID Project Selection.....	133
11.2.1	Project Selection Models and Factors.....	134
11.2.2	Nonnumeric Project Selection Models.....	134
11.2.2.1	Sacred Cow.....	134
11.2.2.2	Operating Necessity.....	134
11.2.2.3	Competitive Necessity.....	134
11.2.2.4	Comparative Models.....	135
11.2.3	Numeric Project Selection Models.....	135
11.2.3.1	Payback Time.....	135
11.2.3.2	Average Rate of Return.....	136
11.2.3.3	Unweighted 0–1.....	136
11.2.3.4	Unweighted Scoring.....	136
11.2.3.5	Weighted Scoring.....	137
11.2.3.6	Constrained Weighted Scoring.....	137
11.3	RFID Project Parameters.....	138
11.4	RFID Implementation Life Cycle.....	138
11.4.1	Conceptual Phase.....	139
11.4.2	Planning Phase.....	139
11.4.3	Installation Phase.....	139
11.4.4	Startup Phase.....	139
11.5	RFID Project Manager.....	139
11.6	RFID Project Manager Authority.....	139
11.7	RFID Project Manager Functions.....	140
11.7.1	Planning.....	140
11.7.2	Organizing.....	140
11.7.3	Motivating.....	140
11.7.3.1	Maslow’s Theory.....	140
11.7.3.2	Herzberg’s Theory.....	141
11.7.4	Directing.....	141
11.7.4.1	Situational Leadership Theory.....	141
11.7.5	Controlling.....	142
11.8	Developing the Project Plan.....	143
11.8.1	Work Breakdown Structure.....	143

11.8.2	Linear Responsibility Chart	144
11.8.3	Gantt Chart	145
11.8.3.1	Finish-to-Start Relationship	145
11.8.3.2	Start-to-Start Relationship	145
11.8.3.3	Finish-to-Finish Relationship	146
11.8.3.4	Lags	146
11.9	Compressing and Crashing Projects	146
11.9.1	Compressing the Acquisition of Hardware and Software	147
11.9.2	Compressing the Testing of RFID Tags	147
11.9.3	Compressing the Installation of Hardware and Software	147
11.9.4	RFID Project Tasks That Cannot or Should Not Be Compressed	147
11.9.4.1	Hardware and Software Selection	148
11.9.4.2	Avoid Compressing Pilot Testing	148
Chapter 12	RFID System Design.....	149
12.1	System Design Approach	149
12.2	Step 1: Gain Ideas through Understanding	149
12.2.1	On-Site Analysis.....	149
12.2.2	Equipment Evaluation	150
12.2.3	Environmental Evaluation.....	151
12.2.3.1	Radio Frequency Interference Testing.....	151
12.2.4	Human Factor Evaluation.....	151
12.3	Step 2: Create Preliminary Designs	151
12.4	Step 3: Prototype Development	151
12.5	Step 4: Choose an Alternative	151
12.6	Step 5: Test and Retest Chosen System	152
12.7	Step 6: Implement the Solution	152
Appendix 12.A	152
12.A.1	Sample RFID Dock Door Survey	152
12.A.1.1	Dock Doors Checklist.....	153
12.A.2	RFID Environment Evaluation	154
12.A.2.1	Common Problems	154
12.A.2.2	Best Practices.....	154
12.A.3	Using a Spectrum Analyzer to Test EMI	155
12.A.3.1	General Directions for Using a Spectrum Analyzer.....	156
12.A.3.2	General Guidelines and Notes	157
12.A.3.3	Other	158
12.A.4	Overview of Work Measurement and Times Studies.....	158
12.A.4.1	Brief History of Industrial Engineering	158
12.A.4.2	Industrial Engineering Organizations	159
12.A.5	Cognitive Turnover Job Satisfaction Survey	160
12.A.5.1	Background.....	160
12.A.5.2	Study Limitations	164
12.A.5.3	Lessons Learned and Recommendations	164
Chapter 13	RFID Supply Chain Planning Levels.....	167
13.1	Introduction	167
13.2	RFID Supports Supply Chain Planning and Operational Optimization.....	167
13.2.1	Tactical Level	168

13.2.2	Intermediate-Level Problems	168
13.2.2.1	Transportation Strategy	168
13.2.2.2	Common Transportation Decisions	169
13.2.2.3	Transportation Mode	169
13.2.2.4	Intermediate-Level Summary.....	169
13.2.3	Strategic Level.....	169
13.2.3.1	Facilities Strategy	170
13.2.3.2	Facilities Decisions	170
13.3	RFID Best Practices for Success.....	171
13.4	Summary	171
Chapter 14	Implementing RFID Systems.....	173
14.1	Introduction	173
14.1.1	Make the ROI Case for RFID	173
14.1.2	Choose the Right RFID Technology.....	173
14.1.3	RFID System Details	174
14.1.4	Six Sigma Methodology	174
14.2	3P's Theoretical Model.....	174
14.3	Plan.....	175
14.3.1	Define	175
14.3.2	Measure	175
14.4	Predict.....	176
14.4.1	Analyze	176
14.4.2	Design.....	176
14.5	Perform.....	177
14.5.1	Optimize.....	177
14.5.1.1	Factors and Levels	178
14.5.2	Verify.....	178
14.6	Conclusion	179
Chapter 15	Obsolete Inventory Reduction with Modified Carrying Cost Ratio	183
15.1	Introduction	183
15.2	Two-Echelon Model	183
15.3	One-Echelon Model.....	185
15.4	Modified Carrying Cost Ratio Model	186
15.5	Results: Case Study	187
15.6	Facilities Costs.....	187
15.7	Purchasing Costs	188
15.8	Modified Carrying Cost Ratio.....	188
15.9	Inventory Turn Analysis	189
15.10	Decision.....	189
15.11	Conclusion	189
 PART V Overview of Logistics Planning and Inventory Control		
Chapter 16	Engineering Economics of RFID.....	193
16.1	Introduction	193
16.2	Problem Statement.....	193

16.3	Background.....	194
16.4	Cost Justification.....	194
16.4.1	Scenario 1: Baseline	194
16.5	Audit Costs	194
16.6	Rework Costs.....	196
16.7	Scrap Costs	196
16.8	Management Costs	196
16.9	Customer Service Costs.....	197
16.10	Total Annual Cost.....	198
16.10.1	Scenario 2: RFID Implementation	198
16.11	Tag Costs	198
16.12	Reader Costs.....	199
16.13	Software Costs.....	199
16.14	Implementation Costs.....	199
16.14.1	Investment for Scenario 2.....	199
16.15	Net Present Value Comparison.....	200
16.16	Comparison	201
16.17	Sensitivity Analysis	201
16.18	Limitations.....	203
16.19	Conclusions.....	203
	Appendix 16.A	204
16.A.1	Investment	204
16.A.2	Yearly Cost	204
16.A.3	Maintenance Cost.....	205
16.A.4	Discount Rate (i).....	206
16.A.5	Number of Periods (N).....	206
Chapter 17	Forecasting.....	209
17.1	Time Horizon in Forecasting.....	209
17.2	Characteristics of Forecasts.....	209
17.3	Subjective Forecasting Models.....	210
17.4	Objective Forecasting Methods	211
17.4.1	Causal Models	211
17.4.2	Time Series Methods.....	212
17.5	Notation Conventions	212
17.6	Evaluating Forecasts.....	213
17.7	Methods for Forecasting Stationary Series	214
17.7.1	Moving Averages.....	214
17.7.1.1	Moving Average Lags behind the Trend	215
17.7.2	Exponential Smoothing.....	216
17.7.3	Comparison of Exponential Smoothing and Moving Averages	217
17.7.3.1	Similarities.....	217
17.7.3.2	Differences.....	217
17.8	Trend-Based Methods.....	217
17.8.1	Regression Analysis	218
17.8.2	Double Exponential Smoothing Using Holt's Method	219
17.9	Advanced Methods.....	219

Chapter 18	Manpower Planning	221
18.1	Aggregate Units of Production	221
18.2	Overview of the Aggregate Planning Problem.....	223
18.3	Costs in Aggregate Planning	223
18.4	Prototype Problem.....	225
18.4.1	Evaluation of a Chase Strategy (Zero Inventory Plan).....	226
18.4.2	Evaluation of the Constant Workforce Plan	228
18.5	Solution of Aggregate Planning Problems by Linear Programming.....	229
18.5.1	Cost Parameters and Given Information.....	229
18.5.2	Problem Variables	229
18.5.3	Problem Constraints	230
18.6	Solving Aggregate Planning Problems by Linear Programming: An Example.....	231
18.7	Advantages and Disadvantages	232
Chapter 19	Production Planning and Scheduling.....	233
19.1	Introduction	233
19.2	Schedule Design	233
19.2.1	Process Requirements	233
19.2.2	Scrap Estimates	234
19.3	Tools for Production Scheduling	234
19.3.1	Affinity Diagram.....	234
19.3.2	Interrelationship Digraph	235
19.3.3	Activity Network Diagram.....	235
19.4	Summary	235
Chapter 20	RFID in Logistics.....	237
20.1	Introduction	237
20.2	RFID Supports Information Use in the Supply Chain.....	237
20.2.1	Data Analysis and Information Gathering	237
20.2.1.1	Push and Pull Operational Strategies	238
20.2.1.2	Supply Chain Coordination	238
20.2.1.3	Forecasting.....	238
20.2.1.4	Aggregate Planning	238
20.2.2	RFID and Other Enabling Technologies.....	239
20.2.2.1	EDI Business Transmissions.....	239
20.2.2.2	Web-Based Application Systems.....	239
20.2.2.3	Business Operations Systems	239
20.2.2.4	Overall Trade-Off: Responsiveness versus Efficiency	240
20.2.2.5	e-Commerce and Technology	240
20.2.2.6	RFID as Part of the Information Supply Chain.....	241
20.2.3	RFID as an Intelligent Agent System.....	241
20.2.4	Summary of RFID and Information Enablers	242
20.2.5	RFID Provides Timely Visibility in Logistics	242
20.3	Inventory in the Supply Chain.....	243

20.4	Business Responsiveness	244
20.4.1	Cycle Inventory	244
20.4.2	Safety Inventory	244
20.4.3	Seasonal Inventory	244
20.4.4	Level of Product Availability	245
20.4.4.1	Inventory-Related Metrics	245
20.4.5	Bullwhip Effect	245
20.5	Summary	246
	Questions	247
Chapter 21	Inventory Control Basics	249
21.1	Introduction	249
21.2	Inventory Carrying Costs	249
21.3	Stock-Out Costs	250
21.4	Safety Stocks	250
21.5	Economic Order Quantity	251
21.6	Inventory Flows	254
21.7	Fixed-Order-Interval System	255
21.8	Just-in-Time Inventory Systems	256
21.9	RFID and Inventory Control	256
21.9.1	Automatic Replenishment	257
21.9.2	Safety-Stock Reduction	257
21.9.3	Picking and Routing	257
21.9.4	Order Batching of Waves	258
21.10	Summary	258
Chapter 22	Transportation and RFID Applications.....	261
22.1	Introduction	261
22.2	Transportation Definitions.....	262
22.2.1	Small-Volume Shippers	262
22.2.2	LTL Shippers	263
22.2.3	Freight Forwarders and Other Consolidators	263
22.2.4	Shippers' Cooperatives.....	264
22.2.5	Truckload and Carload Shippers	264
22.2.6	Large Bulk Shippers.....	264
22.2.7	Bulk Cargo	264
22.2.8	Truckload Hauls	264
22.2.9	Railroads	264
22.2.10	Water Carriers	265
22.2.11	Pipelines	265
22.2.12	Slurry Systems.....	265
22.2.13	Comparison of Modes	265
22.3	Transportation in SCM.....	266
22.4	Information Technology and SCM.....	267
22.5	Real-Time Technologies	267
22.6	Future Technologies	269
22.7	Conclusion	270

Chapter 23	Optimizing RFID Portal Locations in Distribution Using Systematic Layout Planning	271
23.1	Introduction	271
23.2	Modeling Procedure	272
23.2.1	Phase 1: Multi-Objective RF Warehouse Architecture	272
23.2.2	Phase 2: Data Environment Analysis	273
23.3	Layout Improvement Alternatives and Numerical Results	277
23.4	Computer-Aided Program Algorithm Approach (BLOCPLAN).....	277
23.4.1	Relationship Data	277
23.5	RFID-Enabled Forklift System vs. RFID Portal System.....	278
23.6	Discussion and Conclusion	280
Chapter 24	RFID Uses in Warehousing.....	281
24.1	Introduction	281
24.2	Warehouse Applications.....	281
24.3	Receiving	282
24.4	Storage.....	282
24.5	Pick/Pack.....	282
24.6	Shipping.....	283
24.7	Reliability	283
24.8	IT Infrastructure Issues	283
24.9	RFID Warehouse Implementation Examples.....	284
24.9.1	Gillette.....	284
24.9.2	International Paper	284
24.9.3	Proctor & Gamble	284
24.10	Conclusion	286
 PART VI Military RFID Initiatives and Applications		
Chapter 25	U.S. Army RFID Initiatives	289
25.1	Introduction	289
25.2	Total Asset Visibility and In-Transit Visibility	289
25.3	Tracking Trainees.....	290
25.4	Gun Monitoring.....	290
25.5	Using RFID to Track Army Medical Records	290
25.5.1	Introduction	290
25.5.2	Application	291
25.5.3	Summary	291
25.6	Chapter Summary	291
Chapter 26	Marine Corps and Navy RFID Initiatives.....	293
26.1	Marine Corps Active RFID Initiatives.....	293
26.1.1	Introduction	293
26.1.2	Active Tagging Requirements.....	293
26.1.3	Containers inside the Defense Transportation System.....	294
26.1.4	Active RFID Tags and Placement	294
26.1.5	Summary of Marine Corps Active RFID Initiatives	294

26.2	Marine Corps Passive RFID Initiatives	295
26.2.1	Introduction	295
26.2.2	Passive RFID Pilot Project: 2004	295
26.2.3	Implementation Plan Pilot Project 1: 2008	295
26.2.4	Implementation Plan Pilot Project 2: 2009	295
26.2.5	Implementation Plan Pilot Project 3: 2010.....	296
26.2.6	Implementation Plan Pilot Project 4: 2011	296
26.2.7	The Future of Marine Corp Passive Applications.....	296
26.2.8	Summary of Marine Corps Passive Initiatives.....	297
26.3	Personnel Records Applications	297
26.3.1	Application	297
26.3.2	Tracking Tag.....	297
26.3.3	Tracking Pad.....	297
26.3.4	Handheld Tracker	298
26.3.5	Summary	298
Chapter 27	Marine Terminal RFID Applications.....	299
27.1	Introduction	299
27.2	Tracking Containers	299
27.3	Container Tags.....	299
27.3.1	Tag Operation.....	299
27.3.2	Tag Mounting	300
Chapter 28	Other Foreign Countries Armed Forces Adoption of RFID Technology	301
28.1	New Zealand Military Clothing RFID Applications	301
28.1.1	Application	301
28.1.2	Summary	302
28.2	Spanish Armed Forces RFID Efforts.....	302
28.2.1	Application	303
28.2.2	Summary of Spanish Armed Forces RFID Efforts	303
28.3	French Armed Forces RFID Efforts	303
<i>PART VII Other Potential Military RFID Applications and Radio Theory</i>		
Chapter 29	Military Physical Fitness RFID Applications	307
29.1	Introduction	307
29.2	Application Considerations	307
29.3	Tags.....	308
29.3.1	Mounting Considerations	308
29.4	Antenna Systems	310
29.5	Reader Systems.....	310
29.6	Performance Issues.....	311

- 29.7 Extensions to Other Sports Competitions 312
 - 29.7.1 Special Cycling RFID Considerations 312
 - 29.7.2 Special Skating RFID Considerations 312
- 29.8 Summary 312
- Questions 313

Chapter 30 Marine RFID Security Applications 315

- 30.1 Introduction 315
- 30.2 Special RFID Hardware Considerations 315
 - 30.2.1 Water Resistance and Water Resistance Ratings 315
 - 30.2.2 Circuit Board Hardening 316
 - 30.2.3 Shock Resistance 316
 - 30.2.4 UV Protection 317
 - 30.2.5 RFID Tag Positioning 317
- 30.3 Infrastructure Considerations 317
 - 30.3.1 Marine Portals 317
 - 30.3.2 Antenna Mounting 319
- 30.4 Other Considerations 321
- 30.5 Marine RFID Security Applications 321
 - 30.5.1 Vessel Registration Tag Applications 321
 - 30.5.2 Scanning Recreational Vessel RFID Tags 322
- 30.6 Stolen Vessel Identification 323
- 30.7 Hostile Vessel Identification 323
 - 30.7.1 RFID Chaff 324
- 30.8 Summary 324
- Questions 324

Chapter 31 Military Mortuary RFID Implantation Applications 325

- 31.1 Introduction 325
- 31.2 VeriChip 325
- 31.3 Implantation Process 325
- 31.4 Post Mortem Operations 326
- 31.5 Medical Other than Mortuary Uses 326
- 31.6 Summary 326

Chapter 32 Railroad Car Tracking by an RFID System to Organize Traffic Flow 327

- 32.1 Introduction 327
- 32.2 Current Problem 328
- 32.3 Reason for Improvement 328
- 32.4 Strategy 329
- 32.5 Methodology 329
 - 32.5.1 Testing the Active Tags 329
 - 32.5.2 Test Results 329
 - 32.5.3 Finding a Practical Way to Send Data to the Control Center 329
 - 32.5.4 Determining the Appropriate Layout to Set the Devices 330
- 32.6 Simulation Results 330
- 32.7 Cost Analysis 330

32.8	Recommendations	331
32.9	Conclusion	331
Chapter 33	Six Sigma	333
33.1	Six Sigma.....	333
33.2	Six Sigma Methodologies.....	333
33.2.1	Design for Six Sigma.....	333
33.2.2	Lean Six Sigma	334
33.3	Six Sigma as an Industrial Engineer	335
33.3.1	Roles in Six Sigma	335
33.3.2	Industrial Roles	335
33.3.3	Six Sigma/Industrial Engineering Interface Framework.....	335
33.4	Six Sigma in Logistics: A Case Study.....	337
33.4.1	Typical Issue within the Supply Chain.....	337
33.4.2	Background	338
33.4.2.1	Capacitated Plant Location Model	339
33.4.3	Network Modeling Steps Incorporated into a Six Sigma Service Project	340
33.4.3.1	Define.....	340
33.4.3.2	Measure	340
33.4.3.3	Analyze.....	340
33.4.3.4	Improve.....	340
33.4.3.5	Control.....	341
33.4.4	Case Description	341
33.4.4.1	Organizational Description.....	341
33.4.4.2	Project Description	341
33.4.5	Lessons Learned.....	342
33.4.6	Implications for the Engineering Manager	343
33.4.7	Conclusions	344
33.5	Six Sigma Best Practices	344
33.5.1	Good to Great.....	344
33.5.2	Six Sigma's Effect on Profit	345
33.5.3	Six Sigma and Quality Awards and ISO Standards.....	346
33.5.4	Six Sigma Best Practices.....	346
33.6	Six Sigma in Military Logistics	347
33.7	Six Sigma in the Military: A Case Study	347
33.7.1	Test Plan	348
33.7.2	Plan.....	349
33.7.2.1	Define.....	349
33.7.2.2	Measure	350
33.7.3	Predict	352
33.7.3.1	Analyze.....	352
33.7.3.2	Identify.....	353
33.7.3.3	Design.....	353
33.7.4	Perform.....	353
33.7.4.1	Optimize	353
33.7.4.2	Verify.....	353
33.7.5	Tools Utilized in Each Theme.....	353

Chapter 34	Case Study: Multichannel RFID	355
34.1	Background.....	355
34.2	VerdaSee Technologies Frequency-Agile RFID System	355
34.3	Military in the Box	357
34.4	Last Mile Visibility.....	357
34.5	Conclusion	360
Chapter 35	Radio Frequency Theory.....	361
35.1	Introduction	361
35.2	Common Terms	361
35.3	Units and Prefixes.....	363
35.4	Wave Theory	363
35.4.1	Electromagnetic Waves	363
35.4.2	Radio Waves.....	363
35.4.3	Frequency Spectrum	364
35.4.4	Measuring Power Loss	365
35.4.5	Smith Chart	366
35.4.6	Return-Loss.....	366
35.4.7	Coupling	367
35.4.8	Polarization	367
35.5	Antennas.....	367
35.5.1	Standard Antenna Impedance.....	368
35.5.2	Impedance Matching.....	368
35.5.3	Tuning.....	369
35.5.4	Range and Path Loss	370
35.6	Modulation	370
35.6.1	Signal Propagation	370
35.6.2	Modulation	371
35.6.3	Frequency Modulation	372
35.6.4	Amplitude Modulation	373
35.6.5	Phase Modulation.....	373
35.6.6	Pulse Modulation	373
35.6.7	Amplitude Shift Keying.....	374
35.6.8	Handshaking.....	374
35.6.9	Frequency Hopping	376
35.7	Value Proposition: Wave of the Future.....	377
	Questions.....	377
Chapter 36	Future RFID Applications.....	379
36.1	RFID and AIT Centers.....	379
36.2	RFID in Research.....	379
36.3	Broader Impact	381
36.4	Future of RFID in Specific Areas	382
Bibliography	385
Index	393
