

ASCEPRESS

Foundation Engineering Handbook

Design and Construction with the
2009 International Building Code

Second Edition

ROBERT W. DAY

CONTENTS

Preface xi

Acknowledgments xiii

Chapter 1. Introduction

1.1

- 1.1. Definitions / 1.1
- 1.2. Project Requirements / 1.3
- 1.3. Preliminary Information and Planning the Work / 1.4
- 1.4. Engineering Geologist / 1.5
- 1.5. Outline of Chapters / 1.7

Part 1 Geotechnical Engineering

Chapter 2. Subsurface Exploration

2.3

- 2.1. Introduction / 2.3
- 2.2. Document Review / 2.3
- 2.3. Purpose of Subsurface Exploration / 2.7
- 2.4. Borings / 2.9
- 2.5. Test Pits and Trenches / 2.49
- 2.6. Preparation of Logs / 2.51
- 2.7. Geophysical Techniques / 2.55
- 2.8. Geotechnical Earthquake Engineering / 2.61
- 2.9. Subsoil Profile / 2.65
 - Notation / 2.66
 - Problems / 2.69

Chapter 3. Laboratory Testing

3.1

- 3.1. Introduction / 3.1
- 3.2. Index Tests / 3.2
- 3.3. Oedometer Test / 3.16
- 3.4. Shear Strength of Cohesionless Soil / 3.19
- 3.5. Shear Strength of Cohesive Soil / 3.29
- 3.6. Laboratory Compaction Tests / 3.65
- 3.7. Permeability Tests / 3.77
 - Notation / 3.81
 - Problems / 3.84

Chapter 4. Soil Mechanics

4.1

- 4.1. Introduction / 4.1
- 4.2. Soil Classification / 4.1
- 4.3. Phase Relationships / 4.17

- 4.4. Effective Stress / 4.21
- 4.5. Stress Distribution / 4.24
- 4.6. Total Stress and Effective Stress Analyses / 4.41
- 4.7. Permeability and Seepage / 4.57
 - Notation / 4.72
 - Problems / 4.74

Part 2 Foundation Design

Chapter 5. Shallow and Deep Foundations

5.3

- 5.1. Introduction / 5.3
- 5.2. Selection of Foundation Type / 5.3
- 5.3. Shallow Foundations / 5.4
- 5.4. Deep Foundations / 5.6
 - Problems / 5.17

Chapter 6. Bearing Capacity of Foundations

6.1

- 6.1. Introduction / 6.1
- 6.2. Bearing Capacity for Shallow Foundations / 6.5
- 6.3. Bearing Capacity for Deep Foundations / 6.16
- 6.4. Lateral Load Capacity of Deep Foundations / 6.31
- 6.5. Geotechnical Earthquake Engineering / 6.41
 - Notation / 6.49
 - Problems / 6.51

Chapter 7. Settlement of Foundations

7.1

- 7.1. Introduction / 7.1
- 7.2. Collapsible Soil / 7.2
- 7.3. Settlement of Cohesionless Soil / 7.9
- 7.4. Other Common Causes of Settlement / 7.27
- 7.5. Foundations on Rock / 7.34
- 7.6. Allowable Settlement / 7.40
 - Notation / 7.46
 - Problems / 7.47

Chapter 8. Consolidation

8.1

- 8.1. Introduction / 8.1
- 8.2. Laboratory Consolidation Test / 8.3
- 8.3. Immediate Settlement / 8.11
- 8.4. Primary Consolidation / 8.16
- 8.5. Rate of Primary Consolidation / 8.24
- 8.6. Secondary Compression / 8.33
- 8.7. Consolidation of Soil beneath Shallow Foundations / 8.34
- 8.8. Consolidation of Soil beneath Deep Foundations / 8.38
- 8.9. Settlement of Unsaturated Cohesive Soil / 8.41
 - Notation / 8.45
 - Problems / 8.47

Chapter 9. Foundations on Expansive Soil**9.1**

-
- 9.1. Introduction / 9.1
 - 9.2. Expansion Potential / 9.2
 - 9.3. Basic Expansive Soil Principles / 9.17
 - 9.4. Methods Used to Predict Foundation Movement / 9.30
 - 9.5. Foundation Design for Expansive Soil / 9.41
 - 9.6. Flatwork / 9.47
 - 9.7. Expansive Rock / 9.49
 - Notations / 9.50
 - Problems / 9.52

Chapter 10. Slope Stability**10.1**

-
- 10.1. Introduction / 10.1
 - 10.2. Rockfall / 10.5
 - 10.3. Surficial Slope Stability / 10.10
 - 10.4. Gross Slope Stability / 10.18
 - 10.5. Landslides / 10.32
 - 10.6. Debris Flow / 10.47
 - 10.7. Slope Softening and Creep / 10.50
 - Notations / 10.56
 - Problems / 10.57

Chapter 11. Retaining Walls**11.1**

-
- 11.1. Introduction / 11.1
 - 11.2. Simple Retaining Wall without Wall Friction / 11.3
 - 11.3. Simple Retaining Wall with Wall Friction / 11.7
 - 11.4. Design and Construction of Retaining Walls / 11.13
 - 11.5. Restrained Retaining Walls / 11.17
 - 11.6. Mechanically Stabilized Earth Retaining Walls / 11.20
 - 11.7. Sheet Pile Walls / 11.25
 - 11.8. Temporary Retaining Walls / 11.31
 - 11.9. Moisture Migration through Basement Walls / 11.37
 - Notation / 11.41
 - Problems / 11.43

Chapter 12. Foundation Deterioration and Cracking**12.1**

-
- 12.1. Introduction / 12.1
 - 12.2. Timber Decay / 12.1
 - 12.3. Sulfate Attack of Concrete / 12.3
 - 12.4. Frost / 12.7
 - 12.5. Historic Structures / 12.8
 - 12.6. Shrinkage Cracking / 12.13
 - 12.7. Moisture Migration through Slab-on-Grade Foundations / 12.18

Chapter 13. Geotechnical Earthquake Engineering for Soils**13.1**

-
- 13.1. Introduction / 13.1
 - 13.2. Basic Earthquake Principles / 13.2
 - 13.3. Peak Ground Acceleration / 13.13

- 13.4. Liquefaction / 13.19
- 13.5. Slope Stability / 13.31
 - Notation / 13.45
 - Problems / 13.46

Chapter 14. Geotechnical Earthquake Engineering for Foundations and Retaining Walls

14.1

-
- 14.1. Introduction / 14.1
 - 14.2. Earthquake Structural Damage / 14.2
 - 14.3. Foundation Settlement / 14.9
 - 14.4. Retaining Walls / 14.20
 - 14.5. Foundation Alternatives to Mitigate Earthquake Effects / 14.31
 - Notation / 14.34
 - Problems / 14.35

Part 3 Foundation Construction

Chapter 15. Grading and Other Soil Improvement Methods

15.3

-
- 15.1. Grading / 15.3
 - 15.2. Compaction / 15.14
 - 15.3. Soil Improvement Methods / 15.22
 - Notation / 15.27
 - Problems / 15.27

Chapter 16. Foundation Excavation, Underpinning, and Field Load Tests

16.1

-
- 16.1. Introduction / 16.1
 - 16.2. Foundation Excavation and Construction / 16.2
 - 16.3. Field Load Tests / 16.28
 - 16.4. Foundation Underpinning / 16.32
 - 16.5. Observational Method / 16.40

Chapter 17. Geosynthetics and Instrumentation

17.1

-
- 17.1. Introduction / 17.1
 - 17.2. Geosynthetics / 17.1
 - 17.3. Instrumentation / 17.7

Part 4 2009 International Building Code

Chapter 18. International Building Code Regulations for Soils

18.3

-
- 18.1. Introduction / 18.3
 - 18.2. Soils Investigation / 18.5
 - 18.3. Excavation, Grading, and Fill / 18.7
 - 18.4. Presumptive Load-Bearing Values of Soils / 18.10
 - 18.5. Expansive Soil / 18.12

Chapter 19. International Building Code Regulations for Foundations **19.1**

- 19.1. Introduction / *19.1*
- 19.2. General Regulations for Footings and Foundations / *19.1*
- 19.3. Foundations Adjacent Slopes / *19.2*
- 19.4. Retaining Walls / *19.4*
- 19.5. Geotechnical Earthquake Engineering / *19.6*

Appendix A. Glossary **A.1**

- A.1. Subsurface Exploration Terminology / *A.4*
- A.2. Laboratory Testing Terminology / *A.10*
- A.3. Terminology for Engineering Analysis and Computations / *A.16*
- A.4. Compaction, Grading, and Construction Terminology / *A.21*
- A.5. Geotechnical Earthquake Engineering Terminology / *A.28*
- Bibliography / *A.34*

Appendix B. Example of a Foundation Engineering Report **B.1**

- B.1. Introduction / *B.1*
- B.2. Site Observations / *B.1*
- B.3. Geology / *B.4*
- B.4. Site Investigation / *B.6*
- B.5. Conclusions / *B.6*
- B.6. Foundation Recommendations / *B.6*
- B.7. Other Considerations / *B.8*
- B.8. Closure / *B.8*

Appendix C. Solutions to Problems **C.1**

Appendix D. Conversion Factors **D.1**

Appendix E. Bibliography **E.1**
