PART 1 Introduction to Gerontologic Nursing

1 Overview of Gerontologic Nursing, 1

FOUNDATIONS OF THE SPECIALTY OF GERONTOLOGIC NURSING, 1

- History and Evolution, 1
- Professional Origins, 2
- Standards of Practice, 2
- Roles, 3
- Terminology, 4

DEMOGRAPHIC PROFILE OF THE OLDER POPULATION, 4

- The Older Population, 4
- Highlights of the Profile of Older Americans, 5
- Gender and Marital Status, 5
- Race and Ethnicity, 6
- Living Arrangements, 6
- Geographic Distribution, 6
- Education, 7
- Income and Poverty, 7
- Employment, 7

HEALTH STATUS OF OLDER ADULTS, 8

- Self-Assessed Health and Chronic Disease, 8
- Functional Status, 8
- Health Care Expenditure and Use, 8
- Implications for Health Care Delivery, 9
- Acute Care Setting, 9
- Nursing Facilities, 9
- Home Care, 9
- Continuum of Care, 10

IMPACT OF AN AGING POPULATION ON GERONTOLOGIC NURSING, 10

- Ageism, 10
- Nursing Practice, 11
- Nursing Education, 11
- Nursing Research, 12
 - Evidence-Based Practice, 12*

SUMMARY, 13

2 Theories of Aging, 15

BIOLOGIC THEORIES OF AGING, 16

- Stochastic Theories, 16
 - Error Theory, 16*

Radical Theory, 16

Cross-Linkage Theory, 17

Wear and Tear Theory, 17

Nonstochastic Theories, 17

Programmed Theory or Hayflick Limit Theory, 17

Immunity Theory, 18

Emerging Theories, 18

Neuroendocrine Control or Pacemaker Theory, 18

Metabolic Theory of Aging/Caloric Restriction, 19

DNA-Related Research, 19

Implications for Nursing, 19

SOCIOLOGIC THEORIES OF AGING, 20

Disengagement Theory, 21

Activity Theory or Developmental Task Theory, 21

Continuity Theory, 21

Age Stratification Theory, 21

Person–Environment Fit Theory, 22

Implications for Nursing, 22

PSYCHOLOGIC THEORIES OF AGING, 22

Maslow’s Hierarchy of Human Needs, 23

Jung’s Theory of Individualism, 23

Eight Stages of Life, 24

Selective Optimization with Compensation, 24

Implications for Nursing, 25

MORAL/SPIRITUAL DEVELOPMENT, 25

SUMMARY, 25

3 Legal and Ethical Issues, 28

PROFESSIONAL STANDARDS: THEIR ORIGIN AND LEGAL SIGNIFICANCE, 28

OVERVIEW OF RELEVANT LAWS, 29

Sources of Law, 29

Federal and State Laws, 29

Health Insurance Portability and Accountability Act of 1996 (HIPAA), 30

OLDER ADULT ABUSE AND PROTECTIVE SERVICES, 30

NURSING FACILITY REFORM, 32

OBRA’S Three Major Parts, 32

Provision of Service Requirements, 32
Quality of Care, 32
Resident Rights, 33
*Unnecessary Drug Use and Chemical and/or
Physical Restraints, 34*
Urinary Incontinence, 35
Facility Survey and Certification, 35
Enforcement Mechanisms and Sanctions, 35
Proposed Legislative Changes, 36

AUTONOMY AND SELF-DETERMINATION, 36

Do Not Resuscitate Orders, 37
*Guidelines for Do Not Resuscitate Policies in
Nursing Facilities, 37*
Advance Medical Directives, 38
Legal Tools, 38
*Living Wills or Designation of Health Care
Agents, 38*
General Provisions in Living Wills, 38
*Durable or General Power of Attorney:
Differences and Indications, 38*
Decision Diagram, 38
Conflicts between Directives and Family
Desires, 39

THE PATIENT SELF-DETERMINATION ACT, 40

Background: The Cruzan Case, 40
Clear and Convincing Proof, 41
The Four Significant Provisions of the PSDA, 41
Nurses' Responsibilities, 42
Problems and Ethical Dilemmas Associated
with Implementation of the PSDA, 42

VALUES HISTORY, 43

NURSES' ETHICAL CODE AND END-OF-LIFE CARE, 43

Ethical Dilemmas and Considerations, 44
Euthanasia, Suicide, and Assisted Suicide, 44
Experimentation and Research, 44
Organ Donation, 45
Ethics Committees, 45

SUMMARY, 46

4 Gerontologic Assessment, 53

SPECIAL CONSIDERATIONS AFFECTING ASSESSMENT, 54

INTERRELATIONSHIP BETWEEN PHYSICAL AND PSYCHOSOCIAL ASPECTS OF AGING, 54

NATURE OF DISEASE AND DISABILITY AND THEIR EFFECTS ON FUNCTIONAL STATUS, 55

Decreased Efficiency of Homeostatic
Mechanisms, 55
Lack of Standards for Health and Illness Norms,
55
Altered Presentation of and Response to
Specific Diseases, 56
Cognitive Impairment, 56

TAILORING THE NURSING ASSESSMENT TO THE OLDER PERSON, 57

THE HEALTH HISTORY, 59

The Interviewer, 59
The Client, 63
The Health History Format, 63
Client Profile/Biographic Data, 64
Family Profile, 64
Occupational Profile, 64
Living Environment Profile, 64
Recreation/Leisure Profile, 64
Resources/Support Systems Used, 64
Description of a Typical Day, 64
Present Health Status, 65
Past Health Status, 66
Family History, 67
Review of Systems, 67
The Physical Examination Approach and
Sequence, 67
General Guidelines, 67
Equipment and Skills, 68

ADDITIONAL ASSESSMENT MEASURES, 68

Functional Status Assessment, 68
Cognitive/Affective Assessment, 72
Social Assessment, 77

LABORATORY DATA, 79

SUMMARY, 79

PART 2 Influences on Health and Illness

5 Cultural Influences, 81

DIVERSITY OF THE OLDER ADULT POPULATION IN THE UNITED STATES, 81

CULTURALLY SENSITIVE GERONTOLOGIC NURSING CARE, 82

Awareness, 83
Knowledge, 84
Cultural Concepts, 84
Beliefs about Health and Illness, 86
Transcending Cultural Concepts, 88
Time Orientation, 88
Individualist and Collectivist Orientations, 88
Context, 89

SKILLS, 89

Handshake, 89
Eye Contact, 89
Interpreters, 90

PUTTING IT TOGETHER, 90

Leininger, 90
The Explanatory Model, 90
The Learn Model, 90

SUMMARY, 92

6 Family Influences, 94

ROLE AND FUNCTION OF FAMILIES, 94

COMMON LATE-LIFE FAMILY ISSUES
AND DECISIONS, 95

- Changes in Living Arrangements, 95
- Making a Decision about a Care Facility, 97
- Financial and Legal Concerns, 98
- End-of-Life Health Care Decisions, 98
- The Issue of Driving, 99
- Family Caregiving, 100
 - Challenges and Opportunities of Caregiving,*
101
 - Long-distance versus Nearby Family,* 102

INTERVENTIONS TO SUPPORT FAMILY
CAREGIVERS, 102

- Education, 102
- Respite Programs, 104
- Support Groups, 105
- Family Meetings, 105

WORKING WITH FAMILIES OF OLDER
ADULTS: CONSIDERATIONS AND STRATEGIES,
106

- Identify Who Is the Client and Who Is the
Family, 106
- Assess the Family, 106
 - Past Relationships,* 108
 - Family Dynamics,* 108
 - Roles,* 108
 - Loyalties and Obligations,* 109
 - Dependence and Independence,* 109
 - Caregiver Stress,* 109
- Encourage Families to Plan in Advance of Need,
109
 - Look for Natural Opportunities to Talk,* 109
 - Talk about "What Ifs,"* 110
 - Share Personal Preferences and Plans in the*
Event of One's Own Illness or Death, 110
 - Express Good Intentions and a Willingness*
to Listen, 110
 - Help Family Members Communicate Their*
Concerns Honestly
and Positively, 110
- Involve the Older Person in Decision Making,
110
- Validate Feelings, 111
- Address Feelings of Guilt, 111
- Emphasize Goodness of Intent of Actions, 111
- Recognize Your Role as Permission Giver, 111
- Recommend a Decision-Making Model to
Families, 112
 - Gather Information,* 112
 - Formulate Options,* 112
 - Evaluate Options,* 112
 - Create a Plan,* 113

Act on the Plan, 113
Reassess, 113

SUMMARY, 113

7 Socioeconomic and Environmental Influences, 116

SOCIOECONOMIC FACTORS, 117

- Age Cohorts, 117
- Income Sources, 117
 - Ages 55 to 64,* 118
 - Ages 65 to 74,* 118
 - Ages 75 to 84,* 119
 - Ages 85 and Older,* 119
- Poverty, 119
- Education, 120
- Health Status, 121
- Insurance Coverage, 121
- Support Systems, 123
- Benefits and Entitlements, 124
- Area Agencies on Aging (AAAs), 124
- Conservators and Guardians, 124

ENVIRONMENTAL INFLUENCES, 125

- Geographic Location of Residence, 125
- Transportation, 126
- Housing, 126
- Criminal Victimization, 128

ADVOCACY, 130

SUMMARY, 131

8 Health Promotion and Illness/ Disability Prevention, 135

ESSENTIALS OF HEALTH PROMOTION
FOR AGING ADULTS, 135

- Terminology, 136

MODELS OF HEALTH PROMOTION, 137

BARRIERS TO HEALTH PROMOTION AND
DISEASE PREVENTION, 137

- Health Care Professionals' Barriers to Health
Promotion, 137
- Older Adults' Barriers to Health Promotion, 137

HEALTH PROTECTION, 138

DISEASE PREVENTION, 138

- Primary Preventive Measures, 138
- Secondary Preventive Measures, 139
- Tertiary Preventive Measures, 139

THE NURSE'S ROLE IN HEALTH PROMOTION
AND DISEASE PREVENTION, 139

- Requisite Knowledge, 140
- Assessment, 141
- Self-Perception/Self-Concept Pattern, 142
- Roles/Relationships Pattern, 142

Health Perception/Health Management Pattern, 142
Nutritional/Metabolic Pattern, 142
Coping/Stress-Tolerance Pattern, 142
Cognitive/Perceptual Pattern, 142
Value/Belief Pattern, 143
Activity/Exercise Pattern, 143
Rest/Sleep Pattern, 143
Sexuality/Reproductive Pattern, 143
Elimination Pattern, 144
Planning, 144
Implementation, 144
Evaluation, 144

SUPPORTING GERIATRIC EMPOWERMENT, 145

SUMMARY, 145

9 Health Care Delivery Settings and Older Adults, 148

CHARACTERISTICS OF OLDER ADULTS IN ACUTE CARE, 149

CHARACTERISTICS OF THE ACUTE CARE ENVIRONMENT, 149

Philosophy of Care, 149
Risks of Hospitalization, 149
Adverse Drug Reactions, 149
Falls, 149
Infection, 150
Hazards of Immobility, 150
Safety Features, 150

NURSING IN THE ACUTE CARE SETTING, 150
Nursing-Specific Competency and Expertise, 150

Critical Care and Trauma Care, 151
Special Care-Related Issues, 152

HOME CARE AND HOSPICE, 153

FACTORS AFFECTING THE HEALTH CARE NEEDS OF NONINSTITUTIONALIZED OLDER ADULTS, 154

Functional Status, 154
Cognitive Function, 154
Housing Options for Older Adults, 154

COMMUNITY-BASED SERVICES, 154

Use of Community and Home-Based Services by Older Adults, 154
Profile of Community- and Home-Based Services, 156
Area Agencies on Aging, 156
Multipurpose Senior Centers, 156
Adult Day Care Services, 156
Respite Care, 157
Homemaker Services, 157
Nutrition Services, 157

Transportation Services, 157
Telephone Monitoring and Friendly Visitors, 157
Personal Emergency Response Systems, 157

HOME HEALTH CARE, 157

Home Health Agency, 158
Proprietary Agencies, 158
Facility-Based Agencies, 158
Visiting Nurse Associations, 158
Benefits of Home Care, 158

CONTINUITY OF CARE, 159

Role of the Home Care Agency, 160

IMPLEMENTING THE PLAN OF TREATMENT, 160

The Nurse's Role, 160
Characteristics of a Home Care Nurse, 160
Role of the Home Health Aide, 161
OASIS, 161

HOSPICE, 161

Hospice Philosophy, 161
Hospice and Palliative Care, 161
Hospice Services, 162
Medicare Benefit, 162
Location of Care, 163

OVERVIEW OF LONG-TERM CARE, 163

Definition, 163
Factors Associated with Institutionalization, 163
Medical and Psychosocial Models of Care, 163

CLINICAL ASPECTS OF THE NURSING FACILITY, 164

Resident Rights, 164
Resident Assessment, 165
Skin Care, 166
Incontinence, 166
Nutrition, 167
Medications, 167
Rehabilitation, 168
Infection Control, 168
Mental Health, 169
End-of-Life Care, 169

MANAGEMENT ASPECTS OF THE NURSING FACILITY, 169

The Nursing Department, 169
Nursing Care Delivery Systems, 170

SPECIALTY CARE SETTINGS, 170

Assisted Living Programs, 170
Special Care Units, 170
Subacute Care, 171

INNOVATIONS IN THE NURSING FACILITY, 171

Creativity in "Everyday" Nursing Facilities, 171
Nurse Practitioners in the Nursing Facility, 171

THE FUTURE OF THE NURSING FACILITY, 173

SUMMARY, 173

PART 3 Wellness Issues

10 Nutrition, 176

SOCIAL AND CULTURAL ASPECTS OF FOOD, 176

DEMOGRAPHICS OF THE AGING POPULATION, 178

PHYSIOLOGIC CHANGES IN AGING THAT AFFECT NUTRITIONAL STATUS, 178

PSYCHOSOCIAL AND SOCIOECONOMIC FACTORS RELATED TO MALNUTRITION, 179

NUTRITIONAL SCREENING AND ASSESSMENT, 180

Nutritional Screening, 180

Nutritional Assessment, 182

Diet History, 184

Anthropometrics, 184

Laboratory Values, 185

NUTRITIONAL GUIDELINES FOR ALL AGES, 185

Recommended Dietary Allowances and Dietary Intakes, 186

Food Labeling, 187

DRUG-NUTRIENT INTERACTIONS, 187

NURSING DIAGNOSES ASSOCIATED WITH NUTRITIONAL PROBLEMS, 187

SPECIALIZED NUTRITIONAL SUPPORT, 190

FAILURE TO THRIVE, 191

SUMMARY, 191

11 Sleep and Activity, 194

SLEEP AND OLDER ADULTS, 194

Biologic Brain Functions Responsible for Sleep, 194

Stages of Sleep, 194

Sleep and Circadian Rhythm, 195

Insomnia, 195

Age-Related Changes in Sleep, 195

Factors Affecting Sleep, 196

Environment, 196

Pain and Discomfort, 196

Lifestyle Changes, 197

Dietary Influences, 197

Drugs Influencing Sleep, 198

Depression, 198

Dementia and Disturbed Sleep, 199

Sleep Disorders and Conditions, 199

Sleep Apnea, 199

Periodic Limb Movement in Sleep, 199

Getting a Good Night's Sleep, 199

Components of the Sleep History, 200

Further Assessment of Sleep, 201

Sleep Hygiene, 201

Fostering Normal Sleep among Homebound

Older Adults, 201

Other Therapies to Promote Sleep, 202

ACTIVITY AND OLDER ADULTS, 202

Activities of Daily Living, 202

Physical Exercise, 202

Activity as Affected by Lifestyle Changes, 204

Retirement, 204

Relocation, 204

Loss of Spouse, 204

Activity as Affected by Alzheimer's Disease and Other Dementias, 205

SUMMARY, 206

12 Safety, 209

FALLS, 209

Overview and Magnitude of the Problem, 209

Falling Defined, 210

Meaning of Falling to Older Adults, 211

Normal Age-Related Changes Contributing to

Falling, 211

Vision, 211

Hearing, 211

Cardiovascular, 211

Musculoskeletal, 211

Neurologic, 212

Fall Risk, 212

Intrinsic Risk, 212

Extrinsic Risk, 213

Risk for Serious Injury, 214

Fall Antecedents and Fall Classification, 214

Fall Consequences, 215

Physical Injury, 215

Psychologic Trauma, 216

Evaluation of Clients Who Fall, 216

History, 216

Physical Examination, 216

Special Testing, 217

NURSING MANAGEMENT OF FALLS, 218

SAFETY AND THE HOME ENVIRONMENT, 219

Burn Injuries in the Home, 219

Burns, 219

Cigarette Smoking, 219

Fireplace Hazards, 219

Kitchen Hazards, 220

Space Heaters, 220

Fire Safety Tips, 220

Nonburn Injuries in the Home, 220

Knife Injuries, 220

Carbon Monoxide Poisoning, 221

Chemical Injuries, 221

Cooling Fans, 221

Foodborne Illnesses, 221

SEASONAL SAFETY ISSUES, 222
Hypothermia and Hyperthermia in Older Adults, 222
Hypothermia, 222
Hyperthermia, 223

DISASTERS, 224

STORAGE OF MEDICATIONS AND HEALTH CARE SUPPLIES IN THE HOME, 224

LIVING ALONE, 224

AUTOMOBILE SAFETY, 224

ABUSE AND NEGLECT, 225

FIREARMS, 226

SUMMARY, 227

13 Intimacy and Sexuality, 231

OLDER ADULTS' SEXUAL NEEDS, 231

THE IMPORTANCE OF INTIMACY AMONG OLDER ADULTS, 231

NURSING'S RELUCTANCE TO MANAGE THE SEXUALITY OF OLDER ADULTS, 232

NORMAL CHANGES OF THE AGING SEXUAL RESPONSE, 233

ORGASM, 233

PATHOLOGIC CONDITIONS AFFECTING OLDER ADULTS' SEXUAL RESPONSES, 234

Illness, Surgery, and Medication, 234

Human Immunodeficiency Virus, 234

Malignancies, 235

Dementia, 235

ENVIRONMENTAL AND PSYCHOSOCIAL BARRIERS TO SEXUAL PRACTICE, 235

ALTERNATIVE SEXUAL PRACTICE AMONG OLDER ADULTS, 236

SUMMARY, 241

14 Mental Health, 243

DIFFICULTY IN DIAGNOSIS, 243

Effect of Ageism on Diagnosis and Treatment, 244

Preventing Premature Institutionalization, 244

MENTAL HEALTH WELLNESS, 244

Prevention of Mental Illness, 245

Physical Wellness, 245

Support Systems, 245

Role of the Nurse in Mental Health Wellness, 246

MAJOR MENTAL HEALTH PROBLEMS, 246

Depression, 246

Suicide, 249

Risk Factors, 250

Delirium, 251

Anxiety, 252

Schizophrenia, 252

Delusional Disorders, 253

Mental Retardation, 253

Conditions Associated with Physical Problems, 254

MEDICATION MANAGEMENT, 255

Psychotropic Medications, 255

Antianxiety Agents, 255

Antidepressants, 256

Mood Stabilizers, 256

Antipsychotic Medications, 257

Side Effects, 257

Extrapyramidal Symptoms, 257

Tardive Dyskinesia, 257

Neuroleptic Malignant Syndrome, 257

Other Psychoactive Medications Used in Older Adults, 257

Anafranil, 257

Antiparkinsonian Agents, 257

Sedative-Hypnotic Agents, 258

MENTAL HEALTH RESOURCES, 258

Human Resources, 258

Physical Resources, 258

Financial Resources, 259

TRENDS AND NEEDS, 259

Needs for Research, 260

SUMMARY, 261

PART 4 Common Psychophysiologic Stressors

15 Pain, 263

UNDERSTANDING PAIN, 263

Definition, 263

Pain Classification, 263

Scope of the Problem of Pain, 264

Consequences of Unrelieved Pain, 264

Epidemiology of Pain, 265

PATHOPHYSIOLOGY OF PAIN IN OLDER ADULTS, 265

Atypical Acute Pain in Older Adults, 266

BARRIERS TO EFFECTIVE PAIN MANAGEMENT IN OLDER ADULTS, 266

Undertreating Pain: Abuse, 268

PAIN ASSESSMENT, 268
Cultural Pain Assessment, 268
Pain Assessment Tools, 268
History, 270
Physical Examination, 270
Evaluation for Functional Impairment, 270
Evaluation of Quality of Life, 271
Evaluation for Depression, 272
End of Life, 272

PRINCIPLES OF PAIN MANAGEMENT, 272

NURSING CARE OF OLDER ADULTS WITH PAIN, 272

Pharmacologic Treatment, 272
Mild Analgesics, 273
Opioid Analgesics, 273
Side Effects, 275
Opioids for Chronic Pain, 275
Adjuvant Medications, 275
Routes of Administration, 277
Breakthrough Pain, 277
Placebos, 277
Alternative Therapies, 277
Physical Therapies, 278
Cognitive and Behavioral Therapies, 278
Financial Cost of Pain Management, 279
Planning Pain Relief, 279

SUMMARY, 279

16 Infection, 283

THE CHAIN OF INFECTION, 283

AGE-RELATED CHANGES IN THE IMMUNE SYSTEM, 284

FACTORS AFFECTING IMMUNOCOMPETENCE, 284

Nutritional Factors, 284
Protein-Energy (Caloric) Malnutrition, 284
Iron and Trace Element Deficiency, 285
Psychosocial Factors, 285
Depression, 285
Medications, 285
Herbs, 285

COMMON PROBLEMS AND CONDITIONS, 285

Influenza and Pneumonia, 285
Cancer, 286
Autoimmunity, 286
Systemic Lupus Erythematosus, 286
Rheumatoid Arthritis, 286
Autoimmune Hepatitis, 287

HIV IN OLDER ADULTS, 287

SIGNIFICANT NOSOCOMIAL PATHOGENS, 287
Clostridium difficile, 287
Vancomycin-Resistant Enterococcus, 287
Methicillin-Resistant *Staphylococcus aureus*, 287

SUMMARY, 292

17 Chronic Illness and Rehabilitation, 293

CHRONICITY, 293

Prevalence of Chronic Illness, 294
The Illness Experience, 294
Health Within Illness, 295
Cultural Competency, 295
Quality of Life and Health-Related Quality of Life, 295
Adherence in Chronic Illness, 296
Psychosocial Needs of Older Adults with Chronic Illness, 296
Adaptation, 296
Chronic Illness and Quality of Life, 297
Trajectory Framework, 297
Shifting Perspectives Model of Chronic Illness, 297
Older Adults and Chronic Illness, 297
Powerlessness, 297
Stigma, 297
Social Isolation, 297
Meaning of Life in Adaptation, 298
Nursing Interventions to Assist Psychosocial Adaptation, 298
Physiologic Needs of Chronically Ill Older Adults, 298
Pain, 298
Fatigue, 299
Immobility and Activity Intolerance, 299
Sexual Activity, 299
Effect of Chronic Illness on Family and Caregivers, 299
Nursing Implications of Caregiver Stress, 300

REHABILITATION, 300

Care Environments, 300
Reimbursement Issues, 301
Public Policy and Legislation, 301
Enhancement of Fitness and Function, 301
Functional Assessment, 301
Keys for Completing a Functional Assessment, 302
Health Promotion, 302
Management of Disabling Disorders, 302
Life Issues, 303
Nursing Strategies, 303

SUMMARY, 304

18 Substance Abuse, 307

DEFINITIONS AND COMMON USAGE, 308

- Difficulty in Identification of Abuse, 308
- Physiologic Changes, 308
- Psychologic Changes, 309
- Sociologic Changes, 309

ASSESSMENT, 309

- Substance Abuse History, 310
- Screening Tools, 310
- Nursing Caveats, 312

NURSING DIAGNOSES, 312

- Interventions, 312
- Evaluation, 313

COMMONLY ABUSED SUBSTANCES IN OLDER ADULTS, 313

- Alcohol, 313
 - Prevalence, 313*
 - Assessment, 313*
 - Interventions, 314*
 - Evaluation, 315*
- Prescription Medications, 315
 - Prevalence, 315*
 - Assessment, 316*
 - Interventions, 316*
 - Evaluation, 316*
- Nonprescription Medications, 316
 - Prevalence, 316*
 - Assessment, Interventions, and Evaluation, 316*
- Nicotine, 317
 - Prevalence, 317*
 - Assessment, 317*
 - Interventions and Evaluation, 317*
- Caffeine, 319
 - Prevalence, 319*
 - Assessment, 319*

FUTURE TRENDS, 320

SUMMARY, 320

19 Cancer, 322

INCIDENCE, 322

- Racial and Ethnic Patterns, 323

AGING AND ITS RELATIONSHIP TO CANCER, 325

- Aging and Cancer Prevention, 327

COMMON MALIGNANCIES IN OLDER ADULTS, 327

- Breast Cancer, 327
 - Risk Factors, 327*
 - Signs and Symptoms, 329*
 - Early Detection, 329*
 - Treatment, 329*
 - Survival, 329*

Lung Cancer, 329

- Risk Factors, 330*
- Signs and Symptoms, 330*
- Early Detection, 330*
- Treatment, 330*
- Survival, 331*

Prostate Cancer, 331

- Risk Factors, 331*
- Signs and Symptoms, 331*
- Early Detection, 331*
- Treatment, 331*
- Survival, 332*

Colorectal Cancer, 332

- Risk Factors, 332*
- Signs and Symptoms, 332*
- Early Detection, 332*
- Treatment, 332*
- Survival, 333*

SCREENING AND EARLY DETECTION: ISSUES FOR OLDER ADULTS, 333

MAJOR TREATMENT MODALITIES, 335

- Surgery, 336
- Radiotherapy, 337
- Chemotherapy, 337
 - Pharmacokinetics, 338*
 - Pharmacodynamics, 338*
- Biotherapy, 339
- Endocrine Therapy, 340

COMMON PHYSIOLOGIC COMPLICATIONS, 340

- Bone Marrow Suppression, 340
- Infection, 341
- Nausea and Vomiting, 341
- Stomatitis, 342
- Anorexia, 343
- Diarrhea, 343
- Alopecia, 343

OLDER ADULTS' EXPERIENCE OF CANCER, 343

- Quality of Life, 344
- Depression, 345
- Grief and Loss, 345
- Social Isolation, 346
- Resources and Support, 347

SUMMARY, 347

20 Loss and End-of-Life Issues, 351

DEFINITIONS, 351

LOSSES, 351

- Bereavement, 352
- Grief, 352
 - Physical Symptoms, 352*
 - Psychologic Responses, 353*
 - Social Responses, 353*

SUMMARY, 382

22 Pharmacologic Management, 385

OVERVIEW OF MEDICATION USE AND
PROBLEMS, 385

Demographics of Medication Use, 385
Changes in Drug Response with Aging, 385
Pharmacokinetic Changes: What the Body Does
to the Drug, 385
Pharmacodynamic Changes: What the Drug
Does to the Body, 387
Inappropriate Drugs for Older Patients, 387
Medications and Quality of Life, 388
Pharmacologic Contributors to Risk, 388
Drug Interactions, 388
Polypharmacy, 389
Substance Abuse, 390
Medication Errors: Human and Economic
Burdens, 390

COMMONLY USED MEDICATIONS, 391
Psychotropics, 391
Anxiolytics and Hypnotics, 392
Antidepressants, 392
Antipsychotics, 392

Cardiovascular Medications, 393
Antimicrobials, 395
Nonprescription Agents, 395
Dietary Supplements, 395

MEDICATION ADHERENCE, 396
Assessing for Risk Factors, 396
Strategies for Improving Adherence, 397
Reviewing the Medication List for Problems, 397

SUMMARY, 397

PART 6 Nursing Care of Physiologic and Psychologic Disorders

23 Cardiovascular Function, 400

AGE-RELATED CHANGES IN STRUCTURE AND FUNCTION, 400

Conduction System, 401
Vessels, 401
Response to Stress and Exercise, 401

COMMON CARDIOVASCULAR PROBLEMS, 401

Contributing Factors to Heart Disease, 401
Blood Pressure, 401
Diet, 402
Smoking, 402
Physical Activity, 402
Obesity, 402
Diabetes, 402
Stress, 402
Hormone Usage, 403

Hypertension, 403

Pharmacologic Treatment, 404
Prognosis, 405

Coronary Artery Disease, 408

Diagnostic Tests and Procedures, 409
Pharmacologic Treatment, 409
Nonpharmacologic Treatment, 410

Arrhythmia, 412

Diagnostic Tests and Procedures, 413
Treatment, 413
Prognosis, 414

Orthostatic Hypotension, 416

Syncope with Cardiac Causes, 416

Valvular Disease, 417

Diagnostic Tests and Procedures, 418
Treatment, 418
Prognosis, 418

Congestive Heart Failure, 419

Diagnostic Tests and Procedures, 420
Treatment, 420
Prognosis, 421

Peripheral Artery Occlusive Disease, 423

Diagnostic Tests and Procedures, 424
Treatment, 424
Prognosis, 424

Venous Disorders, 426

Diagnostic Tests and Procedures, 426

Treatment, 426

Prognosis, 426

Anemia, 427

Diagnostic Tests, Procedures, and Treatment, 428

Prognosis, 428

SUMMARY, 429

24 Respiratory Function, 432

AGE-RELATED CHANGES IN STRUCTURE AND FUNCTION, 432

FACTORS AFFECTING LUNG FUNCTION, 434

Exercise and Immobility, 434

Smoking, 435

Smoking Cessation, 435

Obesity, 435

Sleep, 435

Anesthesia and Surgery, 436

RESPIRATORY SYMPTOMS COMMON IN OLDER CLIENTS, 436

RESPIRATORY ALTERATIONS IN OLDER CLIENTS, 436

OBSTRUCTIVE PULMONARY DISEASE, 437

Asthma, 437

Prognosis, 437

Treatment, 437

Chronic Bronchitis, 440

Emphysema, 440

Chronic Obstructive Pulmonary Disease, 440

Signs and Symptoms, 441

Diagnostic Tests and Procedures, 441

Treatment, 441

RESTRICTIVE PULMONARY DISEASE, 447

Lung Carcinoma, 447

Diagnostic Tests and Procedures, 447

Treatment, 447

Tuberculosis, 449

Diagnostic Tests and Procedures, 449

Treatment, 449

Prognosis, 449

BRONCHOPULMONARY INFECTION, 451

Influenza, 451

Diagnostic Tests and Procedures, 451

Treatment, 451

Prognosis, 451

Pneumonia, 452

Community-Acquired Pneumonia, 452

Nosocomial Pneumonia, 452

Viral Pneumonia, 453

Aspiration Pneumonia, 453

Diagnostic Tests and Procedures, 453

Treatment, 453

Prognosis, 453
