

50 GREEN PROJECTS

FOR THE EVIL GENIUS

Foreword by
PAUL MARTIN, PC
Former
Prime Minister
of Canada

- Filled with fun, environmentally focused projects
- Covers energy-efficiency, alternative fuels, solar, wind, and hydro power, and more
- Includes plans, schematics, materials lists, and sources

JAMIL SHARIFF

Contents

Foreword by The Right Honourable Paul Martin PC	ix	Project 17: Auditing Your Appliances with an Energy Meter	49
Acknowledgments	xi	Project 18: Getting Used to "Better Than Off"	50
1 Introduction	1	Project 19: A Responsible Shopping List	52
2 Transportation	7	6 Using Water	55
Project 1: Estimating Your Existing Transportation Related Emissions	9	Project 20: A Simple Water Purifier	56
Project 2: Finding Another Way Around	11	Project 21: Evaporative Cooling	58
Project 3: Flat Isn't Phat	12	Project 22: Saving Water around the House	60
Project 4: Round and Round	18	Project 23: Collecting Rainwater	62
Project 5: Driving Smart	20	7 Heating with the Sun	65
3 Staying Inside	21	Project 24: A Simple Solar Cooker	67
Project 6: Fabric Walls	23	Project 25: Simply Heating Water with the Sun	69
Project 7: Fixing Your Windows	27	Project 26: A Circulating Water Heater	71
Project 8: Using Thermal Mass	28	Project 27: Solar Thermal Panels on your Roof	74
Project 9: Testing Methods of Insulating	29	Project 28: Solar Thermal Hot Water on the Roof of Your House	76
4 Waste and Value	33	8 Water and Air	81
Project 10: A Worm Compost Bin	34	Project 29: A Model Water Wheel	81
Project 11: Making a Bit of Methane	35	Project 30: A Model-Sized Water Wheel	84
Project 12: Return Your Trash	38	Project 31: The Spiral Water Pump	87
Project 13: Ant Rules	39	Project 32: Making a Fire Piston	90
Project 14: Seed Bombs	41	9 Heat and Power	95
5 Efficiency	43	Project 33: Demonstrating the Power of Hot Air	100
Project 15: Installing an Energy-Efficient Light Bulb	45	Project 34: The Energy of a Hot Cup of Tea	101
Project 16: Calculating Your Energy Savings from Project 15	46		

Project 35: Concentrated Solar Thermal Motion	104	13 Alternatives to Your Car	147
Project 36: A Thinking Man's Cold	107	Project 45: Traveling with a Leitra	151
10 Electricity	111	Project 46: Frame and Fabric Tops	155
Project 37: The Homopolar Motor	113	Project 47: A Zotefoam Fairing	157
Project 38: A Coin Battery	115	14 Alternative Fuels for Transport	163
Project 39: Take One Room Off-Grid	119	Project 48: A Blender Batch of Biodiesel	166
11 Solar Electricity	121	Project 49: Tearing Up Your Fuel System and Feeding in Waste	171
Project 40: Assembling a Solar Module from PV Cells	123	15 Spaces and Structures	175
Project 41: PV Panels on Your Roof	130	Project 50: Building with Earth	178
12 Wind Power	137	Project 51: The \$500 House	181
Project 42: A Plastic Cup Vertical Axis Drag Turbine	139	Project 52: Attend a Public Consultation or Planning Meeting	185
Project 43: Raising a Guyed Tower	140	Index	189
Project 44: Installing the Turbine	145
