List of Tables vii ■ Preface ix ■ Acknowledgments xiii

Part I Pretest Responsibilities

1

- Lab 1** Orientation to Lab Instruments, Procedures, and Responsibilities 3
- Lab 2** Calibrating Lab Instruments 7
- Lab 3** Risk Factor Evaluation, Medical History, and Informed Consent 13

Part II Techniques in Exercise Testing

27

- Lab 4** Heart Rate and Blood Pressure Assessment Techniques 29
- Lab 5** Skinfold and Circumference Assessment Techniques 35
- Lab 6** Assessing Body Fatness 39
- Lab 7** Submaximal Exercise Test Protocols 45
- Lab 8** Evaluating Muscular Strength and Endurance 57
- Lab 9** Evaluating Flexibility 65
- Lab 10** ECG Placement and Monitor Operations 75

Part III Exercise Prescription

81

- Lab 11** Metabolic Calculations 83
- Lab 12** Assessing Participant Goals and Gaining Commitment to Physical Activity 89
- Lab 13** Prescriptions for Initial Conditioning, Improvement, and Maintenance 93
- Lab 14** Case Study Reports 99
- Appendix A:** Exercise Testing and Prescription Forms 101
- Appendix B:** Data Collection Worksheets 117
- Appendix C:** Pharmacological Effects on Cardiorespiratory Responses to Exercise 133
- Appendix D:** Metric Conversions 143
- Appendix E:** Metabolic and Anthropometric Equations 145
- Appendix F:** Lab 11 Answer Key 149

Glossary 151 ■ About the Authors 153
