PART I Process Implementation and Control

1 Evaluating, Choosing, and Implementing the Process: How to Get Vendors to Work with You.....	3
<i>Barbara Kanegsberg</i>	
2 Cleaning Agent Balancing Act.....	15
<i>Barbara Kanegsberg</i>	
3 Blunders, Disasters, Horror Stories, and Mistakes You Can Avoid	29
<i>Arthur Gillman</i>	
4 Cleaning Practices and Pollution Prevention.....	39
<i>Mike Callahan</i>	
5 Basis of Design for Life Science Cleanroom Facilities	61
<i>Scott E. Mackler</i>	
6 Validating and Monitoring the Cleanroom.....	89
<i>Kevina O'Donoghue</i>	
7 Cleanroom Management, Validation of a Cleanroom Garment System, and Gowning Procedure	103
<i>Jan Eudy</i>	
8 Principles of Wiping and Cleaning Validation	119
<i>Karen F. Bonnell and Howard Siegeman</i>	
9 Overview to Analytical and Monitoring Techniques	129
<i>Ed Kanegsberg</i>	

10	Practical Aspects of Analyzing Surfaces	135
	<i>Ben Schiefelbein</i>	
11	How Clean Is Clean? Measuring Surface Cleanliness and Defining Acceptable Levels of Cleanliness	145
	<i>Mantosh K. Chawla</i>	
12	Cleaning Validations Using Extraction Techniques	161
	<i>Kierstan Andrascik</i>	
13	Biomedical Applications: Testing Methods for Verifying Medical Device Cleanliness	173
	<i>David E. Albert</i>	
14	Material Compatibility.....	183
	<i>Eric Eichinger</i>	

PART II Applications

15	Clean Critically: An Overview of Cleaning Applications.....	197
	<i>Barbara Kanegsberg</i>	
16	Cleaning Validation of Reusable Medical Devices: An Overview of Issues in Designing, Testing, and Labeling of Reusable Devices	229
	<i>John J. Broad and David A.B. Smith</i>	
17	Critical Cleaning for Pharmaceutical Applications.....	255
	<i>Paul Lopolito</i>	
18	Cleaning in the Food Processing Industry.....	271
	<i>Hein A. Timmerman</i>	
19	Electronic Assembly Cleaning Process Considerations.....	283
	<i>Mike Bixenman</i>	
20	Precision Cleaning in the Electronics Industry: Surfactant-Free Aqueous Chemistries	319
	<i>Harald Wack</i>	
21	Contamination-Induced Failure of Electronic Assemblies.....	333
	<i>Helmut Schweigart</i>	
22	Surface Cleaning: Particle Removal	345
	<i>Ahmed A. Busnaina</i>	
23	Cleaning Processes for Semiconductor Wafer Manufacturing (Aluminum Interconnect).....	359
	<i>Shawn Sahbari, Mahmood Toofan, and John Chu</i>	
24	Advanced Cleaning Processes for Electronic Device Fabrication (Copper Interconnect and Particle Cleaning).....	379
	<i>Shawn Sahbari and Mahmood Toofan</i>	

25	The Cleaning of Paintings	399
	<i>Richard C. Wolbers and Chris Stavroudis</i>	
26	Road Map for Cleaning Product Selection for Pollution Prevention	411
	<i>Jason Marshall</i>	
27	Wax Removal in the Aerospace Industry	429
	<i>Bill Breault, Jay Soma, and Christine Fouts</i>	
28	Implementation of Environmentally Preferable Cleaning Processes for Military Applications	439
	<i>Wayne Ziegler and Tom Torres</i>	

PART III Safety and Regulations

29	Worker Protection and the Environment: Current Editorial Observations	455
	<i>Barbara Kanegsberg</i>	
30	Health and Safety	465
	<i>James L. Unmack</i>	
31	Critical Cleaning and Working with Regulators: From a Regulator's Viewpoint	483
	<i>Mohan Balagopalan</i>	
32	Momentum from the Phaseout of Ozone-Depleting Solvents Drives Continuous Environmental Improvement	491
	<i>Stephen O. Andersen and Margaret Sheppard</i>	
33	Screening Techniques for Environmental Impact of Cleaning Agents	501
	<i>Donald J. Wuebbles</i>	
	Glossary of Terms and Acronyms	521
	Index	525
