

The Game Audio Tutorial

A Practical Guide to Sound and Music for
Interactive Games

Richard Stevens
Dave Raybould

Contents

<i>Acknowledgements</i>	xv
<i>Introduction</i>	xvii
Chapter 1 Basic Training	1
Opening the Tutorial Level	1
Explore the Level: Navigation	2
Views	3
Navigation	4
Building	4
Actors	4
The Content Browser: Finding Actors	6
Every Room Has a Tone: Ambience	8
[AmbientSoundSimple] for Looping Sounds	8
Changing your First Sound	9
Adding your First Sound	12
Importing your First Sound	12
Ambient Sounds Case Study	14
Attenuation and Radius Min/Radius Max	15
A Word About Distances in UDK	16
A Word About Numbers in UDK	17
Toggle a Looping Sound	18
Kismet 101	18
[AmbientSoundSimpleToggleable] for Toggleable Looping Sounds	21
Ambient Loops and “Phasing Loops”	24
The “Walls” Problem	26
Multiple Sounds Solution to the Walls Problem	27
[TriggerVolume] Switching Solution to the Walls Problem	29
Ambience: A Painterly Approach	31

Contents

Chapter 2 How Big is the Truck?	33
How Big is the Truck?	33
RAM Budgets and Streaming	34
A Lifetime's Work	35
The Triangle of Compromise or "Triangle of Pain!"	36
Squaring the Triangle: Basic Memory Saving Techniques	37
The Importance of Editing	37
File Compression	38
Sample Rates	39
Non-Repetitive Design	42
Caveat—Sometimes Repetition is OK	42
Reuse of Sounds: The Power of Pitch	43
Reuse of Sounds: Using Filters	49
Randomization in Time, Pitch, and Volume	51
Randomization in Time, Pitch, and Volume Using [SoundCue] s	54
The Combinatorial Explosion: Vertical Combinations	66
The Combinatorial Explosion: Horizontal Concatenation	68
Multiple Start Points	74
Some DSP	75
Recap of Sound Actors	85
Conclusions	87
Chapter 3 Making it Sound Real	89
Sound Propagation	89
Reverb	89
Sound Sources and Spatialization	94
Directionality	103
Filtering Over Distance	104
Faking Filter Over Distance	105
Reveal Detail Over Distance	107
Occlusion, Obstruction, Exclusion	109
Ambient Zones	112
Obstructions and Exclusions	120

Contents

“Real” Sound for Gameplay	122
Stealth 101	122
Stealth and Distraction	125
Collisions and Physics	128
Manual Collisions: Using [TriggerVolume] s	128
Automated Collisions: Footsteps and Surface Types	129
Scripting 101	132
Custom Movement Sounds	137
Physics	139
Cascading Physics	144
Movers and [Matinee]	145
Sounds that Move	145
Movers that Sound	148
Cut-Scenes, Cameras, and Sound	155
Cut-Scenes with No Audio Control	155
Cut-Scenes with Audio Control	157
Level Fly-Throughs	159
Where’s My Head At?	159
Conclusion	160
Chapter 4 Music Systems	161
Introduction	161
Styles and Game Genres	162
Roles and Functions of Music in Games	163
It’s a Fine Line between Love and Hate	166
Music Concepting/Spotting/Prototyping/Testing	167
The Key Challenges of Game Music	169
Source Music/Diegetic Music	170
Linear Music and Looping Music	172
Avoid the Problem: Timed Event Music	173
Avoid the Problem: Non-Time-Based Approaches Using Ambiguous Music	175

Contents

Avoid the Problem: Stingers	178
Transitional Forms/Horizontal Switching	184
Clunky Switching	184
Better Switching: Crossfades	188
UDK's (Legacy) Music System	191
Maintaining Musical Structures: Horizontal Transitions	193
Write in Chunks	193
Transitions and Transition Matrices	198
Switch Points: Marking Up Existing Tracks	208
The Problem of Decay	209
Parallel Forms/Vertical Layering	213
Simple Mute/Unmute	213
Mixing Layers	218
Leitmotifs and the Combinatorial Explosion	224
The "Variation" Question: Generative or Procedural Forms	227
Vertical Recombinations	228
Set Phasing to Stun	231
Low-Level Generative Processes	232
The Problem with Generative Music	234
<i>"Interactive" Music: Music as an Input</i>	237
A Short History Lesson: Gains and Losses	242
Music-Based Games	244
Conclusions	250
Chapter 5 Dialogue	251
Concepts and Planning	251
Types of Speech	251
Localization	253
Casting	254
Recording Preparation	254
Script Format and Planning	255
Session Planning	256

Contents

Recording	257
Wild Lines	257
Studio Prep and Setup	257
Performance	258
Near and Far (Proximity Effect and Off-Axis)	258
ADR Lines and Motion Capture Recordings	259
Editing and Processing	259
Rapid Prototyping for Dialogue Systems	260
Implementation	261
Branching Dialogue	261
AI, Variation, and How Not to Drive People Nuts: Part 1	263
Concatenation, Sports, and How Not to Drive People Nuts: Part 2	265
In-Engine Cut Scenes: A Dialogue Dilemma	270
Conclusions	271
Chapter 6 Making it Sound Good	273
Audio Concepting	274
Spotting, Roles, and Functions of Sound in Games	275
Reality and Characterization	276
Define the Environment: Immersion and Emotion	277
Symbolic Sounds	278
Expect the Unexpected	278
Space, the Final (Technique) for Tears	278
Information and Feedback	279
Instruction	280
Feedback	281
Navigation	289
Interactive Mixing and the Power of Subjectivity	294
Voice Instance Limiting and Prioritization	295
Listening Levels	297
Planning for a Dynamic Mix	298
Planning for a Full Mix	299

Contents

Soundclasses and SoundModes	303
Ducking	311
Subjective Sound States	318
Interactive Mixing Conclusion	332
Conclusions	332
Chapter 7 Advanced Sound System Design	333
Weapon Systems	333
One Shot	334
Retriggered Firing	336
Retriggered Firing with Tail	339
Weapon Status Feedback System	341
Make a Point	342
Looping Mechanical Weapon	344
Looping Sci-Fi Weapon	347
Layers for Weapons	350
Weapons Sounds: Attenuation and Character Over Distance	354
Sniper Rifle	355
Impact, Whizz-by, and Handling Sounds	356
Adding Sound to Animations	362
Weapons Summary	364
Vehicle Systems	365
Simple Vehicle: Manta	365
Engine-Based Vehicles: Scorpion	368
Engine-Based Vehicle with Crossfades: GAT_Scorpion	370
Conclusions	374
Chapter 8 Next Steps	377
Jobs and Work	377
Do You Have What it Takes?	377
Jobs and Skills	379
How To Get Work	380
Making a Demo Reel/Website/Blog	380
How to Keep Working	382

Contents

Conclusions	383
<i>Appendix A Organization Tips</i>	385
Finding and Seeing What's Going On	385
What Does That Do Again?	386
Audio File Finder Utilities	386
Naming Conventions	387
Batch Renaming Utilities	388
<i>Appendix B Troubleshooting and Optimization</i>	389
Crashes	389
Version Control	389
Hearing What's Going On	390
Audio Optimization and Tracking the RAM Budget	391
Streaming	394
<i>Appendix C UDK Tips</i>	397
Running Slowly	397
Importing Sounds	397
Bulk Importing of Sounds	398
Fast Creation of [SoundCue] s	398
Basic Folder Guide	399
Creating Levels	399
The Builder Brush for Geometry, Trigger Volumes, and Reverb Volumes	400
Scaling and Other Widgets	400
Saving	400
Lighting	401
Static Meshes	401
Materials	402
Terrain	402
Emitters + Particle Effects	402
Weapons	403
Water	403
Building	403

Contents

Kismet Tips	404
Kismet System Debugging	404
Sequences/Subsequences	404
Copying and Reusing Sequences	404
Runtime versus Placeable Actors	405
Instigators	406
Take Damage	406
Named Variables and Remote Events	407
Spawning and Controlling Bots	407
Key Binding	408
Scripting	409
Setting up UDK for Custom Scripts	409
Editing Scripts	409
What's in a Script?	409
<i>Bibliography and Further Reading</i>	413
<i>Index</i>	417

**Additional appendices available on the website
(www.thegameaudiotutorial.com) include:**

Appendix D Audio Editing for Games

Appendix E Sound Design Basics

Appendix F Batch Processing

Appendix G Digital Audio

Appendix H Sound Library Contents
