

TOM BIRCH FIFTH EDITION

# AUTOMATIC TRANSMISSIONS AND TRANSAXLES

PROFESSIONAL TECHNICIAN SERIES

# CONTENTS

## chapter 1

### SERVICE INFORMATION, TOOLS, AND SAFETY 1

- ▣ Objectives 1
- ▣ Key Terms 1
- 1.1 Service Information 1
  - 1.1.1 Vehicle Identification 1
  - 1.1.2 Service Information 3
- 1.2 Threaded Fasteners 4
  - 1.2.1 Bolts and Threads 4
  - 1.2.2 Tensile Strength of Fasteners 6
  - 1.2.3 Nuts 6
  - 1.2.4 Washers 7
- 1.3 Hand Tools 7
  - 1.3.1 Wrenches 7
  - 1.3.2 Ratchets, Sockets, and Extensions 9
  - 1.3.3 Screwdrivers 11
  - 1.3.4 Hammers and Mallets 12
  - 1.3.5 Pliers 13
  - 1.3.6 Cutting Tools 14
- 1.4 Basic Hand Tools 16
  - 1.4.1 Tool Sets and Accessories 17
  - 1.4.2 Electrical Tools 17
  - 1.4.3 Hand Tool Maintenance 18
  - 1.4.4 Air and Electrically Operated Tools 19
  - 1.4.5 Heating, Ventilation, and Air Conditioning, HVAC, Special Service Tools 20
- 1.5 Safety Precautions 20
  - 1.5.1 Personal Protective Equipment 20
- 1.6 Working Safe 23
  - 1.6.1 Vehicle Protection 23
  - 1.6.2 Lifting (Hoisting) a Vehicle Safely 23
  - 1.6.3 Electrical Cord Safety 26
  - 1.6.4 Jump-Starting and Battery Safety 26
  - 1.6.5 Fire Extinguishers 27
  - 1.6.6 Fire Blankets 28
  - 1.6.7 First Aid and Eye Wash Stations 28
  - 1.6.8 Hybrid Electric Vehicle Safety Issues 29

## chapter 2

### HAZARDOUS ENVIRONMENTAL MATERIALS 35

- ▣ Objectives 35
- ▣ Key Terms 35
- 2.1 Hazardous Waste 35
  - 2.1.1 Definition of Hazardous Waste 35
  - 2.1.2 Personal Protective Equipment (PPE) 35
- 2.2 Federal and State Laws 35
  - 2.2.1 Occupational Safety and Health Act 35
  - 2.2.2 EPA 35
  - 2.2.3 Right-to-Know Laws 36
  - 2.2.4 Resource Conservation and Recovery Act (RCRA) 36
  - 2.2.5 Clean Air Act 36
- 2.3 Asbestos Hazards 37
  - 2.3.1 OSHA Asbestos Standards 37
  - 2.3.2 EPA Asbestos Regulations 37
  - 2.3.3 Asbestos Handling Guidelines 37
- 2.4 Used Brake Fluid 38
  - 2.4.1 Storage and Disposal of Brake Fluid 38
- 2.5 Used Oil 38
  - 2.5.1 Storage and Disposal of Used Oil 38
- 2.6 Solvents 39
  - 2.6.1 Effects of Chemical Poisoning 39
  - 2.6.2 Regulatory Status of Hazardous Solvents 39
  - 2.6.3 Used Solvents 40
- 2.7 Coolant 40
- 2.8 Lead-Acid Battery Waste 40
  - 2.8.1 Battery Disposal 41
  - 2.8.2 Battery Handling and Storage 41
- 2.9 Fuel Safety and Storage 41
- 2.10 Airbags 41
- 2.11 Used Tires 42
- 2.12 Air-Conditioning Refrigerant Oil 42
- 2.13 Waste Chart 44

## chapter 3

# INTRODUCTION TO TRANSMISSIONS 46

- Objectives 46
- Key Terms 46
- 3.1 Transmissions: Their Purpose 46
- 3.2 Torque and Horsepower 48
- 3.3 Gear Ratios 48
- 3.4 Tractive Force 51
- 3.5 Manual Transmission and Clutch 51
- 3.6 Simple Planetary Gear Sets 55
- 3.7 Compound Planetary Gear Sets 57
- 3.8 Control Devices 57
- 3.9 Transmission Hydraulics 60
- 3.10 Torque Converters 61
- 3.11 Transaxle Final Drive and Differential 62
- 3.12 Four-Wheel Drive 63
- 3.13 Nonplanetary Gear Automatic Transmissions 65
  - 3.13.1 Automatic Layshaft Transmissions 65
  - 3.13.2 Dual-Clutch Transmissions 65
  - 3.13.3 Continuously Variable Transmission 66
- 3.14 Hybrid Drive System 67
  - 3.14.1 Honda Hybrid 68
  - 3.14.2 Toyota Hybrid 68
  - 3.14.3 Ford Hybrid 70
  - 3.14.4 General Motors Hybrid 70
  - 3.14.5 Nissan Hybrid 71

# APPLY DEVICES: CLUTCHES AND BANDS 75

- Objectives 75
- Key Terms 75
- 4.1 Introduction 75
- 4.2 Driving Devices 75
  - 4.2.1 Synchronizing Shifts 75

- 4.3 Multiple-Disc Driving Clutches 76
  - 4.3.1 Clutch Plates 77
  - 4.3.2 Clutch Operation 80
  - 4.3.3 Wet Friction 82
- 4.4 One-Way Driving Clutches 83
  - 4.4.1 Roller Clutch 83
  - 4.4.2 Sprag Clutch 83
  - 4.4.3 Mechanical Diode 84
  - 4.4.4 Clutch Operation 84
- 4.5 Holding/Reaction Devices 84
- 4.6 Multiple-Disc Holding Clutches 85
- 4.7 One-Way Holding Clutches 85
- 4.8 Bands 85
  - 4.8.1 Band Operation 87
- 4.9 Shift Quality 88
  - 4.9.1 Shifts Involving One-Way Clutches 89
  - 4.9.2 Deceleration with One-Way Clutches 89

## chapter 5

# POWER FLOW THROUGH TRANSMISSION GEAR SETS 92

- Objectives 92
- Key Terms 92
- 5.1 Rules of Power Transfer 92
  - 5.1.1 Planetary Gear Ratios 94
- 5.2 Transaxles 96
- 5.3 Park 97
- 5.4 Transmission Schematics 98
- 5.5 Simpson Gear Train Transmissions 98
  - 5.5.1 Neutral 100
  - 5.5.2 First Gear 101
  - 5.5.3 Second Gear 101
  - 5.5.4 Third Gear 102
  - 5.5.5 Reverse 103
- 5.6 Shift Timing 103
- 5.7 Simpson Gear Train Plus an Additional Gear Set 105
  - 5.7.1 Overdrive 105
- 5.8 Ravigneaux Gear Sets 109

- 5.8.1 Two-Speed Ravigneaux Arrangement and Operation 110
- 5.8.2 Three-Speed Ravigneaux Arrangement and Operation: First Version 111
- 5.8.3 Three-Speed Ravigneaux Arrangement and Operation: Second Version 112
- 5.8.4 Four-Speed Ravigneaux Arrangement and Operation 113
- 5.8.5 Four-Speed Ravigneaux Arrangement and Operation: Second Version 115
- 5.8.6 Le Pelletier Gear Train 115
- 5.9 Four-Speed Overdrive Gear Set 117
  - 5.9.1 Power Flow: 4L60E 117
  - 5.9.2 Four-Speed Overdrive Gear Set: Second Version 117
  - 5.9.3 Four-Speed Overdrive Gear Set: Variation of Second Version 120
  - 5.9.4 Four-Speed Overdrive Gear Set: Variation Two 123
- 5.10 Joint Venture, Six-Speed Gear Set 124
- 5.11 Nonplanetary Gear Sets 124
  - 5.11.1 Helical Gear Types 124
  - 5.11.2 CVT TYPES 126

# HYDRAULIC SYSTEM THEORY 132

- ▣ Objectives 132
- ▣ Key Terms 132
- 6.1 Introduction 132
- 6.2 Hydraulic Principles 132
- 6.3 Simple Hydraulic Systems 134
- 6.4 Basic Automatic Transmission Hydraulics 135
- 6.5 Producing Fluid Flow and Pressure 137
- 6.6 Providing Clean Fluid 138
- 6.7 Controlling Fluid Flow 141
  - 6.7.1 Valve Hydraulic Forces 144
- 6.8 Controlling Fluid Pressure 145
- 6.9 Sealing Fluid Pressure 146
  - 6.9.1 Special Notes on Elastomers 149
- 6.10 Applying Fluid Pressure 150
  - 6.10.1 Determining Piston Force 151
- 6.11 Modifying Flow and Pressure 151
- 6.12 Automatic Transmission Fluid 152

# HYDRAULIC SHIFT CONTROL 158

- ▣ Objectives 158
- ▣ Key Terms 158
- 7.1 Introduction 158
- 7.2 Pressure Development and Control 159
- 7.3 Torque Converter, Oil Cooler, and Lubrication Circuit 163
  - 7.3.1 Torque Converter Pressure Control 163
  - 7.3.2 Torque Converter Clutch Control 164
  - 7.3.3 Cooler Flow 165
  - 7.3.4 Lubrication Flow 167
- 7.4 Throttle Pressure 168
  - 7.4.1 Mechanical Throttle Valves 169
  - 7.4.2 Vacuum Throttle Valves 169
  - 7.4.3 Wide-Open Throttle Kickdown Valve 170
- 7.5 Manual Valve 171
- 7.6 Governor Valve 171
- 7.7 Shift Valves 174
  - 7.7.1 Shift Overlap 175
  - 7.7.2 Shift Modifiers 177
  - 7.7.3 Downshifts 177
- 7.8 CVT Hydraulic Control 178

# ELECTRONIC TRANSMISSION CONTROLS 182

- ▣ Objectives 182
- ▣ Key Terms 182
- 8.1 Introduction 182
- 8.2 Basic Electricity 184
  - 8.2.1 System Components 187
- 8.3 Basic Electronics 191
  - 8.3.1 Sensors 192
  - 8.3.2 Electronic Transmission Shift Controls 196
  - 8.3.3 Actuators 204
  - 8.3.4 CVT Electronic Controls 209

# TORQUE CONVERTERS 213

- Objectives 213
- Key Terms 213
- 9.1 Introduction 213
  - 9.1.1 Wet Clutch, No Converter 213
- 9.2 Construction 213
- 9.3 Operation 215
  - 9.3.1 Torque Multiplication 217
  - 9.3.2 Coupling Phase 218
- 9.4 Torque Converter Clutches 218
  - 9.4.1 Controlled TCC Capacity 220
- 9.5 CVT Torque Converter 220
- 9.6 Stall Speed 220
  - 9.6.1 Stall Factors 221

# TRANSMISSION DESCRIPTIONS 225

- Objectives 225
- Key Terms 225
- 10.1 Introduction 225
  - 10.1.1 Transaxles 225
  - 10.1.2 New-Generation Transmissions and Transaxles 228
- 10.2 Chrysler 229
  - 10.2.1 Chrysler Rear-Wheel-Drive Transmissions 229
  - 10.2.2 Chrysler Transaxles 233
- 10.3 Ford Motor Company 235
  - 10.3.1 Ford Motor Company Rear-Wheel-Drive Transmissions 236
  - 10.3.2 Ford Motor Company Transaxles 238
- 10.4 General Motors Corporation 241
  - 10.4.1 General Motors Rear-Wheel-Drive Transmissions 242
  - 10.4.2 General Motors Transaxles 246
- 10.5 Saturn Transaxle 248
- 10.6 Import Transmissions/Transaxles 248

- 10.7 Honda/Acura 248
  - 10.7.1 Honda Three-Speed Transaxles 250
  - 10.7.2 Honda Four-Speed Transaxles 250
  - 10.7.3 Honda Longitudinal Designs 252
- 10.8 Nissan 253
  - 10.8.1 Nissan RWD Transmissions 254
  - 10.8.2 Nissan FWD Transaxles 254
- 10.9 Toyota 254
  - 10.9.1 Toyota RWD Transmissions 254
  - 10.9.2 Toyota FWD Transaxles 257

# TRANSMISSION SERVICE AND MAINTENANCE 261

- Objectives 261
- Key Terms 261
- 11.1 Introduction 261
- 11.2 Fluid Checks 261
  - 11.2.1 Transaxle Final Drives and Differentials 264
  - 11.2.2 Fluid Condition 264
- 11.3 Fluid Changes 265
  - 11.3.1 Fluid Changing, Dropping the Pan 268
  - 11.3.2 Fluid Changing, Fluid Evacuator 271
  - 11.3.3 Fluid Exchange and Flush Units 272
- 11.4 Hybrid Vehicle Transmission Fluid and Powertrain Cooling System 273
- 11.5 Manual Linkage Checks 274
  - 11.5.1 Manual Linkage Adjustment 276
- 11.6 Throttle Linkage Checks 277
  - 11.6.1 Throttle Linkage Adjustments 279
- 11.7 Band Adjustments 280

# MECHANICAL PROBLEM SOLVING AND DIAGNOSIS 284

- Objectives 284
- Key Terms 284
- 12.1 Introduction 284

12.2	Problem-Solving Procedures	285
12.3	Diagnostic Procedure	285
12.4	Visual Inspection	287
12.5	Road Test	287
12.6	Torque Converter Clutch Tests	291
12.6.1	Converter Clutch Hydraulic Checks	292
12.6.2	Cooler Circuit Flow Check	292
12.7	Hydraulic System Pressure Tests	293
12.7.1	Interpreting Pressure Readings	295
12.7.2	Fluid Flow Diagrams	297
12.7.3	Checking Governor Pressure	297
12.8	Modulator Checks	299
12.8.1	Modulator Diaphragm Leakage	299
12.8.2	Modulator Vacuum Supply	299
12.8.3	Modulator Stem Alignment	300
12.8.4	Modulator Spring Pressure	300
12.9	Stall Tests	301
12.9.1	Interpreting Stall Test Readings	303
12.10	Oil Pan Debris Check	303
12.11	Air Testing	303
12.11.1	Wet Air Checks	306
12.11.2	Isolating Valve Body Problems	307
12.12	Oil Leak Tests	307
12.13	Noise, Vibration, and Harshness	308
12.13.1	Noise Checks	309
12.13.2	Vibration Checks	312
12.14	Troubleshooting Charts	314

# **ELECTRONIC TRANSMISSION PROBLEM SOLVING AND DIAGNOSIS 319**

▣ Objectives	319	
▣ Key Terms	319	
13.1	Electronic Transmission Diagnosis	319
13.2	Electrical Circuit Problems	320
13.2.1	Open Circuits	320
13.2.2	High-Resistance Circuits	320
13.2.3	Shorted Circuits	321
13.2.4	Grounded Circuits	321
13.3	Measuring Electrical Components	322
13.3.1	Measuring Voltage	324
13.3.2	Measuring Resistance	327

13.3.3	Measuring Amperage	327
13.3.4	Measuring Duty Cycle	331
13.3.5	Scan Tools	332
13.3.6	Oscilloscopes	333
13.3.7	Interpreting Measurements	334
13.4	Electrical/Electronic System Repair	336
13.5	Electronic Control System Checks	338
13.5.1	Flashing/Recalibration	339
13.5.2	Electronic Control System Cautions	340
13.5.3	Diagnostic Trouble Codes	341
13.5.4	Signal Monitor	343
13.5.5	Forcing Shifts Electrically	344
13.5.6	Clutch Volume Index	344
13.5.7	EMI Electronic Problems	344
13.6	Electronic Component and Circuit Checks	344
13.6.1	TCM Power Checks	344
13.6.2	TCC Checks	347
13.6.3	Solenoid Checks	348
13.6.4	Switch Checks	350
13.6.5	Speed Sensor Checks	351
13.6.6	Throttle Position Sensor Checks	352
13.6.7	Temperature Sensor Checks	353
13.7	Electronic Repair Job Completion	353

# **IN-VEHICLE TRANSMISSION REPAIR 356**

▣ Objectives	356	
▣ Key Terms	356	
14.1	Introduction	356
14.2	Manual Shift Linkage, Interlock, and Seal	356
14.3	Lip Seal Replacement	358
14.4	Throttle Valve Linkage and Seal	359
14.5	Vacuum Modulator Removal and Replacement	360
14.6	Aluminum Thread Repair	361
14.7	Electrical Component Removal, Repair, and Replacement	362
14.8	Cooler Line and Fitting Repair	362
14.9	Valve Body Removal and Replacement	364
14.10	Servo and Accumulator Piston, Cover, and Seal Service	368
14.11	Remove, Replace, and Align Powertrain Mounts	369
14.12	Extension Housing Seal and Bushing Service	370

- 14.13 Extension Housing Removal, RWD Transmission 372
  - 14.13.1 Speedometer Gear Replacement 374
  - 14.13.2 Park Gear and Pawl Service 374
- 14.14 Governor Service 374
  - 14.14.1 Governor Disassembly 376

# TRANSMISSION OVERHAUL: DISASSEMBLY AND REASSEMBLY 396

- ▣ Objectives 396
- ▣ Key Terms 396
- 16.1 Introduction 396
  - 16.1.1 Overhauled Transmissions 396
  - 16.1.2 Remanufactured Transmissions 396
  - 16.1.3 Transmission Parts 397
  - 16.1.4 Overhaul Procedure 397
- 16.2 Transmission Disassembly 399
  - 16.2.1 Predisassembly Cleanup 399
  - 16.2.2 Torque Converter Removal 400
  - 16.2.3 Disassembly Fixtures 400

- 16.3 Preliminary Disassembly 400
  - 16.3.1 End-Play Check 403
  - 16.3.2 Other Predisassembly Checks 406
- 16.4 Pump Removal 406
  - 16.4.1 Transaxles Using Input Chain Drive 407
- 16.5 Major Disassembly 408
- 16.6 Transmission Assembly 411
  - 16.6.1 Pump Installation and End-Play Adjustment 416
  - 16.6.2 Torque Converter Installation 421
