

Fitness

through Aerobics

eighth edition

Jan Galen Bishop

Contents

Preface v

1 Aerobics, Wellness, and You! 1

Aerobics 1

Wellness and You 2

Exercise and Wellness 4

The Physiological Benefits of Exercise 7

Overview of a Workout 14

Summary 15

Knowledge Tips 15

Think About It 15

References 16

2 Individual Differences:

Let's Talk About You 17

Exercise and Back Care 19

Exercise and Asthma 19

Exercise and Obesity 20

Exercise and Diabetes 21

Exercise and Pregnancy 23

Exercise and Joint Pain 24

Exercise and Hypertension 25

Exercise and Low-Risk Coronary Artery Disease 25

Exercise and Aging 25

Summary 26

Knowledge Tips 26

Think About It 26

References 26

3 Fitness Components and Exercise Principles 27

Components of Fitness 27

Principles of Exercise 29

Summary 31

Knowledge Tips 32

Think About It 32

References 32

4 The Aerobic Target Zone 33

Frequency 33

Intensity 34

Time 40

Exercise Levels 41

Commonly Asked Questions 41

Summary 42

Knowledge Tips 42

Think About It 42

References 43

5 Setting Goals and Reaching Your Dream 45

Step One: Establishing Your Fitness Goals 45

Step Two: Finding Motivation 48

Step Three: Choosing the Activity 49

Step Four: Tracking Your Progress 49

Step Five: Evaluating the Program and
Your Goals 49

Step Six: Protecting Your Commitment 51

Summary 51

Knowledge Tips 52

Think About It 52

References 52

6 Posture: A Dynamic Concept 53

Flexibility and Posture 53

Muscle Strength and Body Alignment 53

Core Training 54

Exercise Alignment Checks 58

Other Influences on Posture 60

Posture and Sports and Dance 61

Summary 62

Knowledge Tips 62

Think About It 62

References 62

7 Flexibility: Warm-Up/Cool-Down 63

Warm-Up 63

Cool-Down 65

Principles of Flexibility 66

Flexibility Exercises 69

Summary 83

Knowledge Tips 83

Think About It 84

References 84

8 Rhythmic Aerobics: Variations and Styles 85

Dance Exercise Aerobics 85

Combat and Martial Arts Aerobics 86

Cardio-Machine Aerobics 86

The Aerobics Portion of Class 87

Techniques for All Floor-Based

Rhythmic Aerobics 87

High-Impact Aerobics 88

Low-Impact Aerobics	89
Combination High-/Low-Impact and Moderate-Impact Aerobics	91
Step Aerobics	92
Basic Steps for Step Aerobics	92
Water Aerobics	99
Circuit and Interval Training for Aerobics	101
Aerobics Videos	101
Commonly Asked Questions	101
Summary	102
Knowledge Tips	102
Think About It	103
References	103
9 Muscular Fitness: Building Strength and Endurance	105
Benefits of Muscular Strength and Endurance	106
Resistance Exercises: Before, After, or During Aerobics?	107
Achieving Resistance	107
The Muscular Strength-Endurance Continuum	107
Adding Resistance	109
Types of Resistance	110
Summary	115
Knowledge Tips	115
Think About It	116
References	116
10 Resistance Exercises: Weight, Bands, and Balls	117
Technique Tips for Resistance Exercises	118
Exercises for the Upper Body	119
Exercises for the Core	132
Exercises for the Lower Body	143
Summary	155
Knowledge Tips	156
Think About It	156
11 The Mind-Body Connection	157
Pilates	159
Yoga	161
Progressive Relaxation, Mental Imagery, and Autogenic Training	164
Summary	165
Knowledge Tips	165
Think About It	166
References	166
12 Nutrition and Weight Control	167
Basic Nutritional Information	167
The Food Pyramid	174
Food Labels	176
Weight Control Information	176
Weight Management	182
Commonly Asked Questions	187
Summary	189
Knowledge Tips	189
Think About It	190
References	190
13 Prevention and Care	191
Foot Injuries	192
Shin Injuries	193
Knee Injuries	194
Multiple Site Injuries	194
Heat-Related Injuries	196
Commonly Asked Questions	196
Summary	197
Knowledge Tips	197
Think About It	197
References	198
14 A Lifetime of Aerobics . . .	199
Selecting a Facility	199
Selecting an Instructor	201
Fitness Trends—More Options	202
Summary	203
Knowledge Tips	203
Think About It	203
References	203
Appendix 1 Muscles of the Body	205
Appendix 2 The Aerobics Look: Clothing and Equipment	207
Appendix 3 Internet Resources	213
Worksheets	
1 Health and Fitness Log	215
2 Summary Record Sheet	217
3 Calculating Your Target Heart Rate: Maximum Heart-Rate Formula	219
4 Calculating Your Target Heart Rate: Karvonen Formula	221
5 Heart-Rate Chart	223
6 Goal Setting/Behavior Change	225
7 Fitness Logs	227
8 Goal Tracking with a Pedometer	231
9 Cardiorespiratory Fitness: YMCA Step Test	233
10 Cardiorespiratory Fitness: 12-Minute Walk/Run Test	235
11 Cardiorespiratory Fitness: 1.5-Mile Timed Run Test	237
12 Flexibility: Trunk Forward Flexion Tests	239
13 Quick Check Flexibility Tests	241
14 Muscular Endurance: Partial Curl-Up Test	245
15 Muscular Endurance: Push-Up Test	247
16 Healthy Weight: Waist/Hip Ratio, BMI, Percent Fat	249
17 Nutrition Awareness: Weekday	251
18 Nutrition Awareness: Weekend Day	253
Glossary	255
Index	261
