

Building **LEAN** Supply Chains

with the
**THEORY of
CONSTRAINTS**

Mandyam M. Srinivasan

CONTENTS

Foreword	xv
Preface	xvii
Acknowledgments	xxi
The Sixteen Lean Supply Chain Principles	xxiii

CHAPTER 1	The Lean Supply Chain Roadmap.....	1
	Challenges to the Lean Supply Chain	3
	<i>The Internet and Commoditization.</i>	4
	<i>Manufacturing Practices</i>	5
	The Bullwhip Effect	6
	<i>The Beer Game.</i>	9
	<i>The Impact of Forecasting and POS Data.</i>	13
	<i>The Impact of Lead Times</i>	15
	<i>Lessons from the Beer Game.</i>	16
	Structuring the Lean Supply Chain	19
	The Lean Supply Chain Roadmap	21
	<i>Step 1: Develop Systems Thinking Skills</i>	21
	<i>Step 2: Focus on Throughput</i>	22
	<i>Step 3: Design Products and Services that</i> <i>Deliver Customer Needs.</i>	23
	<i>Step 4: Develop a Competitive Operations</i> <i>Strategy.</i>	24
	<i>Step 5: Form Strategic Alliances with</i> <i>Supply Chain Partners.</i>	24
	<i>Step 6: Streamline the Value Stream</i>	25
	<i>Step 7: Create Flow Along the Supply Chain.</i>	25
	Implementing the Lean Supply Chain Roadmap	26
	Conclusions	27
	References	28

CHAPTER 2	Envisioning the Lean Supply Chain: Systems Thinking	31
	The Traditional Approach to Managing Systems.....	31
	<i>Local Optimization.</i>	32
	Using Systems Thinking to Meet the Challenge.....	33
	<i>Applying Lean Supply Chain Principle 1.</i>	34
	Management Philosophies to Enhance Lean	
	Supply Chain Performance	38
	<i>The Theory of Constraints</i>	38
	<i>Theory of Constraints and Un-common Sense</i>	41
	<i>Lean.</i>	42
	Synergies Between TOC and Lean.....	44
	The Business Ecosystem	47
	<i>Personal Computer Ecosystems</i>	51
	Conclusions.....	60
	References	61
 CHAPTER 3	 Adopting a Throughput World Perspective	 63
	TOC and the Thinking Process	64
	<i>An Un-common Sense Minute.</i>	65
	Focusing on the Constraint	66
	<i>Physical Constraints</i>	67
	<i>Market Constraints.</i>	68
	<i>Policy Constraints.</i>	68
	Estimating Product Costs with Cost	
	Accounting Systems	69
	<i>The Standard Cost Accounting System</i>	70
	CSN, Inc.....	73
	<i>Activity-Based Costing (ABC)</i>	77
	<i>Applying ABC to CSN, Inc.</i>	79
	Throughput Accounting.....	82
	<i>Throughput Accounting Measures.</i>	82
	<i>Relating Throughput Accounting to</i>	
	<i>Traditional Accounting.</i>	83
	<i>Kings of Neon</i>	85
	<i>Relating Throughput Accounting Measures</i> <i>to Financial Measures</i>	87

<i>Cost World Versus Throughput World:</i>	
<i>Everclear, Inc.</i>	88
The Five-Step Focusing Process of TOC.	92
<i>Step 1: Identify the System's Constraint(s)</i>	92
<i>Step 2: Decide How to Exploit the System's</i>	
<i>Constraint(s)</i>	92
<i>Step 3: Subordinate Everything Else</i>	
<i>to that Decision.</i>	93
<i>Step 4: Elevate the System's Constraints.</i>	94
<i>Step 5: If a Constraint Was Broken in</i>	
<i>a Previous Step, Go Back to Step 1.</i>	94
<i>An Example of the Five-Step Focusing Process</i>	95
<i>Interpreting T</i>	98
<i>An Un-common Sense Minute.</i>	99
<i>Applying Throughput Accounting to CSN, Inc.</i>	99
Conclusions	101
References	101

CHAPTER 4

Designing Products and Processes	
to Fulfill Customer Needs	103
The Viable Vision	103
Defining the Market Segments	106
<i>Market Segmentation at Hindustan</i>	
<i>Unilever Limited.</i>	108
Order Qualifiers and Order Winners	110
Benchmarking Best Practices	111
Managing Customer Demand Volatility	114
<i>Quick and Reliable Response</i>	115
<i>An Un-common Sense Minute.</i>	119
<i>Risk Pooling.</i>	119
<i>The RAP Principle</i>	120
Customer-Time-Based Demand Profile	124
The TOC Distribution and Replenishment Solution	127
<i>The Plant Warehouse</i>	128
<i>Setting Target Inventory Levels</i>	
<i>at the Points of Consumption.</i>	129
<i>Safety Buffers to Accommodate Variation</i>	131

- Looking for Opportunities to Reduce
Safety Buffers* 132
- The Make-to-Availability Replenishment
Mechanism* 132
- Monitoring Safety Buffers Based on
Buffer Penetration* 133
- Applying the TOC Distribution Solution
at the POC* 134
- Measures for Sustaining the Solution.* 138
- Conclusions..... 139
- References 141

CHAPTER 5 Building a Competitive Operations Strategy... 143

- Gaining a Competitive Advantage. 144
- Building a Structural Position 145
- Competing Through Process Execution 146
 - Operational Effectiveness and
the Productivity Frontier* 146
 - Operational Effectiveness and Competitiveness* .. 149
 - Operational Effectiveness: Necessary
but Not Sufficient* 149
- Building Strategic Flexibility 151
 - A Model for Enterprise Growth* 153
 - Maintaining a Process Orientation* 155
 - Bringing New Products to Market Faster.* 160
 - Coevolving Marketing and Operations Strategies.* 165
 - Communicating Financial Benefits
to Management.* 168
 - Enabling the Operations Strategy* 173
- Conclusions..... 179
- References 180

CHAPTER 6 Partnering in the Lean Supply Chain..... 183

- Partnering with Suppliers 185
 - Arm's-Length Relationships* 185
 - Strategic Partnerships.* 187
 - Vendor-Managed Inventory* 191

Partnering with Logistics Providers	193
<i>3PLs and 4PLs.</i>	194
<i>Postponement in Logistics</i>	196
<i>Cross-Docking.</i>	196
Supply Chain Metrics	199
Creating Win-Win Partnerships:	
The Evaporating Cloud	202
<i>The Office Worker's Dilemma</i>	204
<i>The Injection for the Office Worker's Dilemma:</i>	
<i>The Dabbawalas.</i>	206
<i>Takeaways from the Reo Motors Case</i>	220
Conclusions	221
References	222

CHAPTER 7 Streamlining the Value Stream 223

From Craft Production to Mass Production	
to Lean Production	223
<i>Henry Ford and the Origin of</i>	
<i>Mass Production.</i>	224
<i>The Toyota Production System.</i>	225
<i>The U.S. Response.</i>	226
<i>Lessons Learned</i>	227
Lean: A Growth Strategy	229
Value-Stream Mapping	232
The Tools and Techniques of Lean	236
5-S	238
<i>Flowcharts.</i>	240
<i>Takt Time</i>	243
<i>Average Labor Content and Minimum</i>	
<i>Operator Requirement.</i>	249
<i>Mixed-Model Scheduling and</i>	
<i>Small-Batch Production.</i>	250
<i>One-Piece Flow.</i>	252
<i>Cellular Layout.</i>	254
<i>Standard Work</i>	255
<i>Pull Replenishment and Kanbans</i>	256
<i>Point-of-Use Materials Storage</i>	259

	<i>Total Productive Maintenance</i>	259
	<i>Mistake-Proofing and Method Sheets</i>	260
	Continuous Improvement and the Pursuit of Perfection	260
	Conclusions	262
	References	263
CHAPTER 8	Creating Flow Through the Supply Chain	265
	Creating Flow: Synergies Between TOC and Lean . . .	266
	<i>Comparing TOC and Lean Philosophies</i>	266
	<i>Exploiting the Synergy Between TOC and Lean to Create Flow</i>	268
	Creating Flow: The Impact of Variability and Dependency	269
	<i>The Frontier City Clinic</i>	270
	<i>The Impact of Variation on Dependent Events</i> . .	274
	Creating Flow: The Impact of Batch Size	280
	<i>Process Batch Versus Transfer Batch</i>	281
	Controlling Flow Using Pull	282
	<i>A Serial Production System</i>	282
	<i>Using a Push System to Address Flow</i>	285
	<i>Controlling Flow Using Kanbans</i>	286
	<i>Controlling Flow Using ConWIP</i>	288
	<i>Controlling Flow by Pulling from the Bottleneck</i> .	289
	The Drum-Buffer-Rope Model	290
	<i>Time Buffers Versus Inventory Buffers</i>	292
	<i>Determining Buffer Size</i>	293
	The Simplified Drum-Buffer-Rope Model	295
	Buffer Management	296
	The Dice Game	297
	<i>Variations on the Dice Game</i>	300
	<i>Simulating the ConWIP System</i>	301
	Pull Systems Are More Stable and Predictable Than Push Systems	302
	<i>Comparing Pull and Push Systems for Efficiency</i> .	303
	Conclusions	303
	<i>ConWIP Efficiency Law</i>	303

<i>Corollary to the ConWIP Efficiency Law</i>	303
References	304

CHAPTER 9

Managing Projects the Theory of Constraints Way	307
Characteristics of Projects	308
<i>The Impact of Variation on Project Completion Times</i>	310
Project Management with PERT/CPM	311
<i>Determining the Critical Path</i>	312
Causes of Avoidable Project Delays	316
<i>Multitasking</i>	317
<i>Parkinson's Law</i>	318
<i>The Student Syndrome</i>	318
<i>Sandbagging</i>	319
Critical Chain Project Management	320
<i>Planning the CCPM Schedule in a Single-Project Environment</i>	321
<i>Planning the CCPM Schedule in a Multiproject Environment</i>	324
<i>Executing the CCPM Schedule Using Buffer Management</i>	324
<i>An Un-common Sense Minute</i>	327
<i>Sustaining the Change</i>	328
Visual Project Management	329
<i>A Firm, Aggressive Plan</i>	329
<i>Frequent Reporting of Completed Tasks</i>	330
<i>The Expert Resource Bench</i>	334
<i>Implementing VPM</i>	336
<i>Special Cases in VPM</i>	338
Conclusions	342
References	343
Index	345
