## **Part I**

### **Introduction to Network Security**

|                                                |           |
|------------------------------------------------|-----------|
| <b>I Security Overview .....</b>               | <b>3</b>  |
| Introduction to Security .....                 | 4         |
| Security Challenges .....                      | 4         |
| Security Goals .....                           | 7         |
| Security Components .....                      | 8         |
| Data Classification .....                      | 9         |
| Classification Levels .....                    | 9         |
| Classification Criteria and Procedures .....   | 10        |
| Classification Roles .....                     | 11        |
| Security Controls .....                        | 12        |
| Security Breaches .....                        | 13        |
| Law and Ethics .....                           | 13        |
| Prosecuting Attackers and Hackers .....        | 14        |
| Liability: Legal and Governmental Issues ..... | 15        |
| Certification Summary .....                    | 16        |
| ✓ Two-Minute Drill .....                       | 17        |
| Q&A Self Test .....                            | 18        |
| Self Test Answers .....                        | 20        |
| <b>2 Security Threats and Attacks .....</b>    | <b>23</b> |
| Security Threats .....                         | 24        |
| Categories of Security Threats .....           | 24        |
| Vulnerabilities and Exploits .....             | 25        |
| Causes of Security Vulnerabilities .....       | 26        |

|                                             |    |
|---------------------------------------------|----|
| Attack Categories                           | 29 |
| Network Reconnaissance Attacks              | 30 |
| Unauthorized Access Attacks                 | 34 |
| Unauthorized Access and Session Attacks     | 40 |
| Unauthorized Access and Application Attacks | 44 |
| Denial of Service Attacks                   | 46 |
| Best Practices to Mitigate Attacks          | 55 |
| Certification Summary                       | 56 |
| ✓ Two-Minute Drill                          | 57 |
| Q&A Self Test                               | 59 |
| Self Test Answers                           | 61 |

### **3 Security Implementation 63**

|                                         |    |
|-----------------------------------------|----|
| Security Policies                       | 64 |
| Security Policy Definition              | 64 |
| Security Policy Purpose                 | 65 |
| Security Policy Contents                | 66 |
| Operations Security                     | 67 |
| Designing a Security Solution           | 68 |
| Operations Security Overview            | 70 |
| Risk Management                         | 70 |
| Risk Analysis and Avoidance             | 71 |
| Network Security Testing and Evaluation | 72 |
| Disaster Recovery                       | 73 |
| Secure Network Design                   | 74 |
| Security Design Concepts                | 74 |
| Physical Installation                   | 75 |
| Network Management and Protocol Usage   | 76 |
| Self-Defending Networks                 | 81 |
| Certification Summary                   | 85 |
| ✓ Two-Minute Drill                      | 86 |
| Q&A Self Test                           | 88 |
| Self Test Answers                       | 90 |

## **Part II**

### **Security at the Network Perimeter**

#### **4 Restricting Administrative Access 95**

|                              |    |
|------------------------------|----|
| Access Restriction Overview  | 96 |
| Access Restriction Issues    | 96 |
| Access Restriction Solutions | 97 |

|                                                   |     |
|---------------------------------------------------|-----|
| Traditional Authentication Methods .....          | 97  |
| Traditional Authentication Methods Overview ..... | 97  |
| One-Time Passwords .....                          | 98  |
| Token Card Solutions .....                        | 99  |
| PPP Authentication .....                          | 100 |
| PAP .....                                         | 100 |
| CHAP .....                                        | 101 |
| Local Access Restrictions .....                   | 102 |
| Access Modes .....                                | 102 |
| Entry Points .....                                | 102 |
| IOS Access Restriction Mechanisms .....           | 103 |
| User EXEC Restrictions .....                      | 103 |
| Privilege EXEC Restrictions .....                 | 104 |
| Other Password Restriction Features .....         | 105 |
| Login Enhancements .....                          | 106 |
| Password Recovery .....                           | 107 |
| Secure IOS Resiliency .....                       | 108 |
| Other Access Mechanisms .....                     | 109 |
| Command Authorization with Privilege Levels ..... | 110 |
| Privilege Configuration .....                     | 110 |
| Privilege Example .....                           | 112 |
| Role-Based CLI .....                              | 113 |
| Role-Based CLI Configuration .....                | 113 |
| Role-Based CLI Example .....                      | 115 |
| Role-Based CLI Testing .....                      | 116 |
| Certification Summary .....                       | 116 |
| ✓ Two-Minute Drill .....                          | 118 |
| Q&A Self Test .....                               | 120 |
| Self Test Answers .....                           | 122 |

## **5 Introducing the Security Device Manager ..... 125**

|                                            |     |
|--------------------------------------------|-----|
| Introduction to SDM .....                  | 126 |
| PC Requirements .....                      | 127 |
| Router Requirements and SDM Files .....    | 128 |
| Necessary Router Configuration .....       | 130 |
| Accessing SDM .....                        | 131 |
| Basic Router Configuration Using SDM ..... | 135 |
| Configure Screens .....                    | 136 |
| Interfaces .....                           | 140 |
| Additional Tasks .....                     | 142 |

|                                          |            |
|------------------------------------------|------------|
| Basic Router Monitoring Using SDM .....  | 146        |
| Monitor Overview .....                   | 146        |
| Monitor: Interface Status .....          | 148        |
| Certification Summary .....              | 149        |
| ✓ Two-Minute Drill .....                 | 151        |
| Q&A Self Test .....                      | 152        |
| Self Test Answers .....                  | 154        |
| <br><b>6 Secure Management .....</b>     | <b>157</b> |
| Secure Management Overview .....         | 158        |
| Out-of-Band Management .....             | 158        |
| In-Band Management .....                 | 159        |
| SSH .....                                | 159        |
| SSH and CLI Configuration .....          | 160        |
| SSH and SDM Configuration .....          | 162        |
| Logging .....                            | 164        |
| Logging Messages .....                   | 165        |
| Logging Severity Levels .....            | 165        |
| Logging and the CLI .....                | 166        |
| Logging and SDM .....                    | 169        |
| SNMP .....                               | 170        |
| SNMP Overview .....                      | 170        |
| SNMP Configuration .....                 | 172        |
| Date and Time .....                      | 173        |
| Manual Date and Time Configuration ..... | 173        |
| NTP .....                                | 175        |
| Certification Summary .....              | 176        |
| ✓ Two-Minute Drill .....                 | 178        |
| Q&A Self Test .....                      | 180        |
| Self Test Answers .....                  | 182        |
| <br><b>7 Overall IOS Security .....</b>  | <b>185</b> |
| Disabling Unnecessary Services .....     | 186        |
| Global Commands .....                    | 186        |
| Interface Commands .....                 | 192        |
| Auto Secure .....                        | 199        |
| Auto Secure Overview .....               | 199        |
| Auto Secure Script .....                 | 199        |

|                                         |     |
|-----------------------------------------|-----|
| SDM and the Security Audit Wizard ..... | 203 |
| One-Step Lockdown Process .....         | 204 |
| Perform Security Audit Process .....    | 206 |
| Certification Summary .....             | 209 |
| ✓ Two-Minute Drill .....                | 211 |
| Q&A Self Test .....                     | 212 |
| Self Test Answers .....                 | 214 |

## Part III

### AAA

|                                                        |            |
|--------------------------------------------------------|------------|
| <b>8 AAA and the IOS .....</b>                         | <b>219</b> |
| AAA and Security Protocols .....                       | 220        |
| AAA Components .....                                   | 220        |
| Local Accounts .....                                   | 221        |
| Centralizing AAA Policies and Security Protocols ..... | 222        |
| TACACS+ and RADIUS Comparison .....                    | 226        |
| AAA Preparation .....                                  | 227        |
| AAA Preparation and the CLI .....                      | 227        |
| AAA Preparation and SDM .....                          | 228        |
| AAA Authentication .....                               | 231        |
| Login Authentication and the CLI .....                 | 231        |
| Enable Authentication and the CLI .....                | 234        |
| Authentication Options and the CLI .....               | 234        |
| Authentication and SDM .....                           | 236        |
| AAA Authorization .....                                | 239        |
| Authorization Configuration and the CLI .....          | 239        |
| Authorization Configuration and SDM .....              | 241        |
| AAA Accounting .....                                   | 243        |
| Accounting Configuration .....                         | 244        |
| Accounting Example .....                               | 246        |
| AAA Troubleshooting .....                              | 246        |
| Viewing AAA Information .....                          | 246        |
| Troubleshooting AAA Connectivity .....                 | 248        |
| Troubleshooting Security Protocols .....               | 250        |
| Certification Summary .....                            | 251        |
| ✓ Two-Minute Drill .....                               | 252        |
