

EARTHSCAN EXPERT SERIES

SOLAR DOMESTIC WATER HEATING

THE EARTHSCAN
EXPERT HANDBOOK
FOR PLANNING,
DESIGN AND
INSTALLATION

Chris Laughton

List of Acronyms and Abbreviations

ix

1	What is Solar Heating?	1
1.1	What solar water heating is about	1
1.2	A short history of solar water heating	1
1.3	What do solar water heating systems look like?	2
1.4	What the technology can achieve	3
1.5	Other solar technologies	7
1.6	Energy supply issues, peak oil, resources depletion	9
1.7	Climate change and CO ₂ emissions	10
1.8	Purchasing a solar heating system	11
2	Solar Radiation and Resources	13
2.1	Solar radiation and the solar resource	13
2.2	Quantifying solar energy	15
2.3	Solar geometry, angles and orientation	19
3	How Solar DHW Works	23
3.1	How solar domestic hot water systems work	23
3.2	Main system components and their functions	28
3.3	Energy and mass flows	29
4	Solar Collectors	31
4.1	Solar collector absorbers	31
4.2	Flat plate collectors	37
4.3	Evacuated tube collectors	40
4.4	Collector components	48
4.5	Self-build collectors	51
4.6	Unglazed collectors	52
4.7	Collector performance	52
4.8	Using collector performance test reports	60
4.9	Typical collector performances values	63
5	Solar Heating Systems	65
5.1	System performance	65
5.2	Typical system performance values	67
5.3	Reduction of fuel bills and pollution	68
5.4	Measuring solar contribution	71
5.5	Required DHW temperature	73
5.6	Using system performance test reports	76
5.7	Collector and system selection	78

6	Additional Components	83
6.1	Main system components	83
6.2	Heat transfer fluids (HTFs)	83
6.3	Pipes and pipe fittings	86
6.4	Solar storage tank	89
6.5	Heat circulation and pumps	96
6.6	Controls for safety, performance and information	100
6.7	Heat exchangers	103
6.8	Back-up sources of heat	112
6.9	The water supply	116
7	System Layouts	117
7.1	System layouts	117
7.2	Integral collector storage (ICS)	118
7.3	Passive (thermosyphon) systems	119
7.3	Active direct fully filled systems	122
7.4	Active drainback indirect systems	123
7.5	Active fully filled indirect systems	124
7.6	Choosing the most suitable layout	126
8	Designing a System	129
8.1	Overview of design principles	129
8.2	Technical survey	129
8.3	Site visit	130
8.4	Cold and DHW water pressure	131
8.5	Occupant's DHW use routine	131
8.6	Collector location	133
8.7	Solar storage tank and other equipment	134
8.8	Roof coverings	134
8.9	Collector orientation, angles and shading	137
8.10	Distances between components	139
8.11	Retention of the building's insulated structure	140
8.12	Circulation pumps and circulation rates	140
8.13	Expansion or explosion of components	140
8.14	Steam or scalding water	144
8.15	Bacteria	145
8.16	Freeze damage	146
8.17	Mineral deposits, silt and other debris from water supplies	147
8.18	Loss of cold drinking water quality	148
8.19	Loss of hot water quality	149
8.20	Future plumbing and electrical system maintenance issues	149
8.21	Indication of correct operation	150
8.22	Animal and insects	151
8.23	Ultraviolet, heat and vibration degradation	151
8.24	Other issues	152

9	Sizing System Components	153
9.1	System sizing	153
9.2	Manual sizing method for collector and storage tank using data table	153
9.3	Estimating collector area based on DHW use and annual irradiation	157
9.4	Example calculation	158
9.5	Shading	160
9.6	Sizing other system components	160
9.7	Software calculation methods	163
10	Installation	165
10.1	Health and safety	165
10.2	Overview	166
10.3	Solar storage tank	169
10.4	Collectors	170
10.5	Pipes, joints and insulation	173
10.6	Pumps, valves and vessels	174
10.7	Electrical work and controls	179
10.8	Final filling, commissioning and handover	179
10.9	Sample commissioning sheet	184
10.10	User information: How best to use system	187
10.11	Building codes and planning permits	187
11	The Economics of Solar Water Heating	189
11.1	How long does it take to install a system?	192
11.2	The market and marketing	192
12	Other Types of Solar Heating	197
12.1	Larger systems	197
12.2	Solar air collectors assisting space heating	197
12.3	Swimming pools	199
12.4	Solar cooling	201
13	Case Studies	203
14	Glossary	221
	<i>Further Information</i>	227
	<i>Conversion Tables</i>	233
	<i>Index</i>	237
