

2nd EDITION

SAFETY, HEALTH, and ENVIRONMENTAL CONCEPTS for the Process Industry

Michael Speegle

Contents

Preface vii

1 The Process Employee's Role in Safety, Health, and Environment.	1
Risk in Processing Industries.	2
The Process Employee's Role	4
The Management of Safety	6
The Process Employee and Change.	6
2 History of the Safety and Health Movement.	15
Overview of the Safety Movement in the United States	16
History of Occupational Health.	17
Development of Accident Prevention Programs	20
The Safety and Health Movement Today	23
3 Accidents and Human Error	27
Benefits of Accident Investigations	28
The Cost of Accidents at Work	30
Work Injuries.	31
Estimating the Cost of Accidents	33
Partial List of Major Industrial Accidents (1917 To 1985)	34
The Human Factor.	35
Human Error	35
Safety Promotion to Prevent Errors.	38
4 Hazard Recognition	45
Physical Hazards	46
Health Hazards	51
5 Toxic Hazards and Blood-Borne Pathogens.	55
Toxic Substances	56
Mechanisms of Toxic Agents.	57
Routes of Exposure	61
Measurement of Toxicity.	63
Blood-Borne Pathogens.	65

6 Fire and Fire Hazards	69
Fire Hazards	71
Firefighters	73
Fire Detection, Suppression, and Fighting Systems	73
Types of Fire Fighting Equipment	76
7 Hazards of Pressure, Steam, and Electricity	81
Hazards of Pressure	82
Other Pressure Hazards	84
Hazards of Steam	86
Hazards of Electricity	88
8 Noise and Vibration Hazards	97
Sound	98
Hearing Loss	99
Noise Hazard Standards and Regulations	100
Noise Assessment	101
Hearing Protection Devices	103
Other Vibration Effects Besides Noise	104
9 Hazards of Temperature	107
The Body's Response to Heat	108
Thermal Burns	111
Chemical Burns	113
Hazards of Cold	114
10 Hazards of Process Sampling	119
Hazards of Collecting Samples	120
Gas Detectors	122
11 Engineering Control of Hazards	129
Hazard Control	130
Types of Engineering Controls	132
Monitoring Devices	139
Isolation, Lockouts, Lockins, and Interlocks	141
12 Administrative Control of Hazards	145
Administrative Programs	146
Administrative Activities	151
13 Personal Protective Equipment (PPE)	161
The Personal Protective Equipment Program	162
Levels of PPE Protection	163
Chemically Resistant Suits	167
Gloves and Hand Protection	169
Head Protection	170

Foot Protection (1910.136)	171
Fire Retardent Clothing	172
Eye Protection	172
Height and Fall Protection	173
Height Protection	174
Fall Protection	175
14 Hazard Communication (HAZCOM)	181
OSHA Hazard Communication Standard	182
Employee Training	183
Responsibility for Hazard Determination	184
Hazard Communication Program (29CFR 1910.1200 e)	184
NFPA and HMIS Warning Labels	185
Material Safety Data Sheets	188
Trade Secrets	191
15 Respiratory Protection	195
Respiratory Protection	196
Types of Respirators	198
16 Process Safety Management (PSM)	205
The Elements of PSM	207
17 The Permit System	215
Hot Work Permits (29 CFR 1910.119)	216
Control of Hazardous Energy (Lockout/ Tagout) 29 CFR 1910.147	217
Confined Space Standard (29 CFR 1910.146)	220
Confined Space Team	225
18 Hazardous Waste Operations (HAZWOPER).....	229
Hazardous Waste Operations	230
Emergency Response	233
Components of an Emergency Response Plan	235
Emergency Incident Zones	238
19 The Occupational Safety and Health Administration (OSHA) and U.S.	
Department of Transportation (DOT)	245
OSHA is Born	247
Workplace Inspections	250
Citations and Penalties	252
The Appeals Process	253
Responsibilities Under OSHA	253
More about OSHA	255
U.S. Department of Transportation (DOT)	257
Other Agencies that Affect the Process Industry	259

Contents

20 Environmental Protection Agency (EPA)	263
Environmental Protection Agency	264
Water Pollution Control	265
Air Pollution Control	267
Solid Waste Control	270
Toxic Substances Control Act	273
ISO-14000 (A Brief Discussion)	273
 21 Stress, Drugs, and Violence	 277
Violence in the Workplace	278
Drugs in the Workplace	280
Stress in the Workplace	282
 22 Hurricanes, Plant Security	 289
The Site Security Program	291
Hurricane Protection	294
 Glossary	 301
References	313
Index	315
