

## **PART I**

<b>1</b>	<b>Introduction</b>	<b>3</b>
<b>2</b>	<b>Ill-posed problems</b>	<b>11</b>
<b>3</b>	<b>DSM for well-posed problems</b>	<b>57</b>
<b>4</b>	<b>DSM and linear ill-posed problems</b>	<b>71</b>
<b>5</b>	<b>Some inequalities</b>	<b>93</b>
<b>6</b>	<b>DSM for monotone operators</b>	<b>133</b>
<b>7</b>	<b>DSM for general nonlinear operator equations</b>	<b>145</b>
<b>8</b>	<b>DSM for operators satisfying a spectral assumption</b>	<b>155</b>
<b>9</b>	<b>DSM in Banach spaces</b>	<b>161</b>
<b>10</b>	<b>DSM and Newton-type methods without inversion of the derivative</b>	<b>169</b>
<b>11</b>	<b>DSM and unbounded operators</b>	<b>177</b>
<b>12</b>	<b>DSM and nonsmooth operators</b>	<b>181</b>
<b>13</b>	<b>DSM as a theoretical tool</b>	<b>195</b>
<b>14</b>	<b>DSM and iterative methods</b>	<b>201</b>
<b>15</b>	<b>Numerical problems arising in applications</b>	<b>213</b>

## **PART II**

<b>16</b>	<b>Solving linear operator equations by a Newton-type DSM</b>	<b>255</b>
-----------	---	------------

17	DSM of gradient type for solving linear operator equations	269
18	DSM for solving linear equations with finite-rank operators	281
19	A discrepancy principle for equations with monotone continuous operators	295
20	DSM of Newton-type for solving operator equations with minimal smoothness assumptions	307
21	DSM of gradient type	347
22	DSM of simple iteration type	373
23	DSM for solving nonlinear operator equations in Banach spaces	409

### PART III

24	Solving linear operator equations by the DSM	423
25	Stable solutions of Hammerstein-type integral equations	441
26	Inversion of the Laplace transform from the real axis using an adaptive iterative method	455
