Preface	xi
---------	----

## PART A ■ 2D DESIGN

<b>1. Introducing AutoCAD 2012</b>	<b>3</b>
Aim of this chapter	3
Opening AutoCAD 2012	3
The Mouse as a Digitizer	7
Palettes	8
Tool Palettes	9
Dialogs	10
Buttons at the Left-Hand End of the Status Bar	12
The AutoCAD Coordinate System	15
Drawing Templates	16
Methods of Showing Entries in the Command Palette	19
Tools and Tool Icons	19
Another AutoCAD Workspace	20
The Ribbon	21
The Quick View Drawings Button	22
Customization of the User Interface	23
Revision Notes	24
<b>2. Introducing Drawing</b>	<b>25</b>
Aims of this chapter	25
The Drafting & Annotation Workspace	25
Drawing with the Line Tool	26
Drawing with the Circle Tool	33
The Erase Tool	35
Undo and Redo Tools	37
Drawing with the Polyline Tool	37
Revision Notes	42
Exercises	43
<b>3. Draw Tools, Object Snap, and Dynamic Input</b>	<b>45</b>
Aims of this chapter	45
Introduction	45
The Arc Tool	47
The Ellipse Tool	48
Saving Drawings	50
Snap	53
Object Snaps (Osnaps)	53

Dynamic Input (DYN)	57
Why Use Dynamic Input?	65
Examples of Using Other Draw Tools	65
The Polyline Edit Tool	68
Transparent Commands	71
The Set Variable PELLIPSE	71
Revision Notes	71
Exercises	73

#### **4. Zoom, Pan, and Templates 77**

Aims of this chapter	77
Introduction	77
The Pan Tool	80
Drawing Templates	82
Adding Features to the Template	82
Setting Text	82
Setting Dimension Style	83
Setting the Shortcutmenu Variable	86
Setting Layers	86
Saving the Template File	88
Template File to Include Imperial Dimensions	90
Revision Notes	92
Exercises	93

#### **5. The Modify Tools 95**

Aim of this chapter	95
Introduction	95
The Copy Tool	96
The Mirror Tool	98
The Offset Tool	99
The Array Tool	101
The Move Tool	104
The Rotate Tool	105
The Scale Tool	106
The Trim Tool	107
The Stretch tool	109
The Break Tool	111
The Join Tool	113
The Extend Tool	114
The Fillet and Chamfer Tools	116
Revision Notes	118
Exercises	121

#### **6. Dimensions and Text 125**

Aims of this chapter	125
Introduction	125
The Dimension Tools	125
Adding Dimensions Using These Tools	126

Adding Dimensions from the Command Line	129
The Arc Length Tool	134
The Jogged Tool	134
Dimension Tolerances	135
Text	136
Symbols Used in Text	140
Checking Spelling	140
Revision Notes	141
Exercises	143
<b>7. Orthographic and Isometric</b>	<b>145</b>
Aims of this chapter	145
Layers	145
Orthographic Projection	148
First Angle and Third Angle	149
Isometric Drawing	155
Examples of Isometric Drawings	156
Revision Notes	159
Exercises	160
<b>8. Hatching</b>	<b>163</b>
Aim of this chapter	163
Introduction	163
The Hatch and Gradient Dialog	167
Revision Notes	172
Exercises	173
<b>9. Blocks and Inserts</b>	<b>175</b>
Aims of this chapter	175
Introduction	175
Blocks	175
Inserting Blocks into a Drawing	177
The Explode Tool	181
Purge	182
Using the DesignCenter	183
Wblocks	184
Revision Notes	186
Exercises	187
<b>10. Other Types of File Format</b>	<b>189</b>
Aims of this chapter	189
Object Linking and Embedding	189
DXF (Data Exchange Format) Files	193
Raster Images	194
External References (Xrefs)	196
Dgnimport and Dgnexport	198
Multiple Design Environment	200
Revision Notes	201
Exercises	202

<b>11. Sheet Sets</b>	<b>205</b>
Aims of this chapter	205
Sheet Sets	205
Sheet Set for 64 Pheasant Drive	206
64 Pheasant Drive DWF	210
Revision Notes	212
Exercises	213

## PART B ■ 3D DESIGN

<b>12. Introducing 3D Modeling</b>	<b>217</b>
Aims of this chapter	217
Introduction	217
The 3D Basics Workspace	217
Methods of Calling Tools for 3D Modeling	218
The Polysolid Tool	220
2D Outlines Suitable for 3D Models	222
The Extrude Tool	224
The Revolve Tool	227
Examples – Revolve Tool	227
Other Tools from Home/Create	230
The Fillet and Chamfer tools	234
Constructing 3D Surfaces Using the Extrude Tool	238
The Sweep Tool	239
The Loft Tool	241
Revision Notes	242
Exercises	243
<b>13. 3D Models in Viewports</b>	<b>249</b>
Aims of this chapter	249
The 3D Modeling Workspace	249
Setting up Viewport Systems	250
Revision Notes	257
Exercises	258
<b>14. The Modification of 3D Models</b>	<b>261</b>
Aims of this chapter	261
Creating 3D Model Libraries	261
Constructing a 3D Model	265
The 3D Array Tool	266
The 3D Mirror Tool	269
The 3D Rotate Tool	271
The Slice Tool	271
Views of 3D Models	274
The ViewCube	274
Using Dynamic Input to Construct a Helix	275
3D Surfaces	276

Revision Notes	278
Exercises	279

## 15. Rendering 283

Aims of this chapter	283
Setting Up a New 3D Template	283
The Materials Browser Palette	285
Applying Materials to a Model	285
The Render Tools and Dialogs	290
The Lights Tools	291
Setting Rendering Background Color	293
Free Orbit	301
Producing Hardcopy	303
Saving and Opening 3D Model Drawings	305
Camera	306
Revision Notes	314
Exercises	315

## 16. Building Drawing 317

Aims of this chapter	317
Building Drawings	317
Floor Layouts	321
3D Models of Buildings	322
Material Attachments and Rendering	328
Revision Notes	330
Exercises	331

## 17. Three-Dimensional Space 339

Aim of this chapter	339
3D Space	339
The User Coordinate System (UCS)	340
The Variable UCSFOLLOW	341
The UCS Icon	341
Examples of Changing Planes Using the UCS	342
Saving UCS Views	346
Constructing 2D Objects in 3D Space	347
The Surfaces Tools	350
Revision Notes	353
Exercises	354

## 18. Editing 3D Solid Models 361

Aims of this chapter	361
The Solid Editing Tools	361
Examples of More 3D Models	368
Exercises	372

<b>19. Other Features of 3D Modeling</b>	<b>375</b>
Aims of this chapter	375
Raster Images in AutoCAD Drawings	375
Printing/Plotting	379
The Navigation Wheel	385
The Mesh Tools	385
Exercises	387

## PART C ■ INTERNET TOOLS AND HELP

<b>20. Internet Tools and Help</b>	<b>395</b>
Aim of this chapter	395
Emailing Drawings	395
Creating a Web Page	397
The eTransmit Tool	398
Help	399
<b>21. Design and AutoCAD 2012</b>	<b>401</b>
Aims of this chapter	401
10 Reasons for Using AutoCAD	401
The Place of AutoCAD 2012 in Designing	402
A Design Chart	403
Enhancements in AutoCAD 2012	404
System Requirements for Running AutoCAD 2012	405
<b>Appendix A List of Tools</b>	<b>407</b>
Introduction	407
2D Commands	407
3D Commands	412
Internet Tools	414
<b>Appendix B Some Set Variables</b>	<b>415</b>
Introduction	415
Some of the Set Variables	415
<b>Appendix C Ribbon Tool Panel Icons</b>	<b>419</b>
Introduction	419
Drafting & Annotation Ribbon	419
<b>Appendix D 3D Views</b>	<b>427</b>
Introduction	427
Using the 3D Orbit Tool	431
<b>Appendix E Keyboard Shortcuts</b>	<b>433</b>
Keyboard Shortcuts	433
Index	435
