

Literacy, Numeracy and Problem Solving in Technology-Rich Environments

FRAMEWORK FOR THE OECD SURVEY
OF ADULT SKILLS

skills.oecd: translating better skills into better outcomes

Table of Contents

INTRODUCTION	7
CHAPTER 1 WHY ASSESS THE SKILLS OF ADULTS?	9
Changing demand for skills.....	10
Low proficiency – its scale and impact.....	10
Skills for the information age	11
The output and performance of education systems.....	11
CHAPTER 2 SOME DESIGN FEATURES OF PIAAC.....	15
Links to previous surveys.....	16
Computer-based assessment.....	16
CHAPTER 3 LITERACY AND READING COMPONENTS	19
Definition of the domain	20
Categorising texts (task characteristics).....	20
Aspects of tasks	23
Factors that affect task difficulty.....	24
Distribution of test items by task characteristics.....	24
Literacy – Examples of items.....	25
Reading components	27
Reading components – Example of items.....	28
Sentence processing.....	30
Passage comprehension.....	30
CHAPTER 4 NUMERACY	33
Definition of the domain	34
Facets of numerate behaviour	35
Principles for assessing numeracy in PIAAC.....	39
Numeracy – Examples of Items.....	40
CHAPTER 5 PROBLEM SOLVING IN TECHNOLOGY-RICH ENVIRONMENTS.....	45
Definition of the domain	46
Core dimensions of problem solving in technology-rich environments.....	48
Problem solving in technology-rich environments in relation to other domains of PIAAC.....	51
Problem solving in technology-rich environments and ICT competence.....	51
Problem solving in technology-rich environments – Examples of Items.....	53
ANNEX A MEMBERS OF THE SUBJECT MATTER EXPERT GROUPS.....	57

Figure 5.1	Core dimensions of problem solving in technology-rich environments.....	48

TABLES

Table 2.1	Skills Assessed in PIAAC, ALL and IALS.....	16
<hr/>		
Table 3.1	Distribution of items by medium.....	25
Table 3.2	Distribution of items by contexts.....	25
Table 3.3	Distribution by task aspects.....	25
<hr/>		
Table 4.1	Numerate behaviour – key facets and their components.....	34
Table 4.2	Distribution of items by response (process).....	40
Table 4.3	Distribution of items by contexts.....	40
Table 4.4	Distribution of items by mathematical content.....	40
<hr/>		
Table 5.1	Cognitive dimensions in PS-TRE.....	49
Table 5.2	Technology dimensions of PS-TRE.....	50
Table 5.3	Task dimensions in PS-TRE.....	50
Table 5.4	Distribution of tasks as a function of cognitive dimensions.....	52
Table 5.5	Distribution of tasks as a function of technology dimensions.....	52
Table 5.6	Distribution by context.....	52
Table 5.7	Distribution by intrinsic complexity (number of steps).....	53
Table 5.8	Distribution by intrinsic complexity (number of constraints).....	53
Table 5.9	Distribution by explicitness of problem statement.....	53
