78.			
Intro	duction	1	
1-1	The Importance of Principles	2	
1-2	The Importance of Sustainability	4	
Refe	rences	4	
2			
	er Quality and Public Health	5	
2-1	Relationship between Water Quality and Public Health	5	
2-2	Source Waters for Municipal Drinking Water Systems	9	
2-3	Regulations of Water Treatment in the United States	17	
2-4	Evolving Trends and Challenges in Drinking Water Treatment	21	
2-5	Summary and Study Guide	23	
Refe	rences	24	
Prod	Process Selection		
3-1	Process Selection Based on Contaminant Properties	26	
3-2	Other Considerations in Process Selection	30	
3-3	Sustainability and Energy Considerations	34	
3-4	Design and Selection of Process Trains	39	
3-5	Summary and Study Guide	42	
Homework Problems		43
