Introduction to the Mac OS X Desktop	3
Get to Know Your Desktop and Finder	4
<i>Make sure you can get to the Desktop or Finder whenever necessary</i>	5
Get to Know Your Finder Window	6
<i>Become comfortable with “swiping”</i>	7
<i>Use the buttons in the Finder Window</i>	7
<i>Hide/Show the Toolbar, Sidebar, Path Bar, and Status Bar</i>	7
Get to Know Your Sidebar and its Home Folders	8
<i>What each folder in your Sidebar is for</i>	9
Create Your Own Folders	10
Take Advantage of the Sidebar	12
<i>All My Files</i>	13
Change the View of the Finder Window	14
<i>The Icon View</i>	14
<i>The List View</i>	15
<i>The Column View</i>	16
<i>The Cover Flow View</i>	18
Use Gestures to Navigate Your Mac	19
<i>On a Magic Mouse</i>	19
<i>On a trackpad</i>	19
Quick Look	20
Use the Dock	22
<i>Is the Dock missing?</i>	23
<i>Documents and Downloads folders in the Dock</i>	24
Use the Trash	26
Take Advantage of Keyboard Shortcuts	28
<i>Recognize the common modifier keys</i>	28
<i>Use a keyboard shortcut</i>	29
<i>Notice gray versus black commands</i>	29

Learn More About Mac OS X	30
<i>Tool tips</i>	30
<i>Hover tips</i>	31
<i>Help files</i>	32
<i>Support pages</i>	33
<i>Mac video tutorials</i>	33
<i>MobileMe tutorials</i>	33
<i>Apple Support Communities</i>	33
2 A Bit Beyond the Basics	35
Understand the Sections of the Sidebar	36
<i>Favorites</i>	36
<i>Shared</i>	36
<i>Devices</i>	37
<i>View your Home folder from the “Hard Disk”</i>	38
Understand the Various Library Folders	39
Select Multiple Items in the Finder	40
<i>In the Icon View</i>	40
<i>In the List View, Column View, or Cover Flow view</i>	40
Look for Contextual Menus	42
Open and Save As dialog boxes	44

MAC OS X APPLICATIONS IN LION

3 Introduction to Mac OS X Applications	47
Know Your Applications Folder	48
Use the Launchpad	49
Know the Common Features of Mac Apps	50
Full-Screen Apps	54
Application Integration	55
What We Can’t Cover!	55
4 TextEdit for Word Processing	57
Create and Save a TextEdit Document	58
<i>AutoSave and versions</i>	59
<i>Restore a previous version</i>	59
Find and Replace Words or Phrases	60
Paste Text to Match the Existing Text	61

Use Your Favorite Text Styles Easily	61
Tabs and Indents	62
Create Lists that Number Themselves	64
Create Tables.	65
Print Automatic Page Numbers	66
Automatic Spelling Correction	66
Select Non-Contiguous Text	67
Show Substitutions	68
<i>Use typographer's quotes</i>	68
<i>Create live web links and email links</i>	68
<i>Use Data Detectors</i>	70
<i>Change case (as in upper- and lowercase)</i>	70
Extra Tips and Notes	71
Read Microsoft Word Files	72
<i>Change the default application to open Word files</i>	72
<i>Save TextEdit files as Word docs</i>	73
<i>Save TextEdit files as PDFs</i>	73

5 Mail for Email and Notes	75
Set Up a New Email Account	76
<i>Edit, delete, add, or put on hold an account</i>	80
Read Your Email	81
<i>Features of your email window</i>	82
<i>Conversations in your email window</i>	84
Compose and Send a Message	86
<i>Customize the message window</i>	87
Use Stationery to Send Fancy Email	88
<i>Save as stationery</i>	89
Create Mailboxes to Organize Your Mail	90
Filter Your Incoming Mail with Rules	91
Smart Mailboxes	92
<i>Create Smart Mailboxes</i>	93
Add Signatures to Your Messages	94
Search Your Mail	96
<i>Create a Smart Mailbox from a saved search</i>	97
Check Your Dock Icon	98
Create Notes for Yourself	99
<i>Create a new Note</i>	99
<i>Sync iPhone Notes with Mail</i>	100
<i>View Notes in Mail</i>	100
<i>Format and add attachments to a Note</i>	101

Automatic Data Detection in Messages	102
<i>Create an iCal Event from date and time info</i>	102
<i>Create a contact, add to an existing contact, or show a map.</i>	103
Mail Attachments	104
<i>View lots of photo attachments as a contact sheet</i>	106
<i>Save attachments to a location you choose</i>	107

 Address Book for Contact Info	109
How You'll Use Your Address Book	110
Create and Edit New Cards	111
<i>Add a photo to a card.</i>	112
Designate Your Own Card	113
Add Fields to One Card or All Cards	114
Check Out the Options	115
Map It.	115
Create a Group	116
Create Smart Groups in Address Book	117
Search Your Address Book	118
Send an Address Book Card to Others	119
Merge Duplicate Cards	120
Invite Contacts to an iCal Event.	121
Share Your Address Book Contact List	122
<i>Subscribe to someone's Address Book</i>	123
Print in a Variety of Ways.	124
Back up Your Entire Digital Database	126
View Multiple Contacts with Exposé.	127

 Safari for Web Browsing and News.	129
Safari Web Browser	130
Browse in Full-Screen Mode.	130
Quickly Access Your Top Sites	131
Bookmarks	132
<i>Organize your bookmarks with folders (Collections)</i>	132
Bookmarks in Cover Flow View.	133
Auto-Click to Open Entire Collection in Tabs	134
Fill in Forms and Passwords Automatically.	135
Block Pop-Up Windows!	135
SnapBack to a Search Results Page.	136
Quickly Enlarge or Reduce a Web Page.	136

Tabbed Browsing	137
Find a Word or Phrase on the Current Page	138
Email a Web Page or a Link to a Web Page	139
View PDF Documents	139
Save a Page and Everything on It	140
Make a Web Clip Widget	141
Print Web Pages	142
Private Browsing	143
Parental Controls	144
So What is RSS?	145
<i>View the existing RSS feeds in Safari</i>	146
<i>Look for other RSS feeds</i>	147
<i>View all RSS articles in a collection</i>	148
<i>Bookmark your favorite feeds</i>	148
<i>View RSS feeds in Mail</i>	149
<i>Change the RSS preferences</i>	149
<i>Use RSS feeds as a screen saver</i>	150
View the Reader Version of a Page	150
Make a Reading List.	151
Use Multi-Touch Gestures in Safari.	152
Safari Security.	152
Cool Safari Tips	153

 iCal for Organizing your Life	155
The iCal Window	156
Set Up Google, Yahoo!, or Exchange Calendars	156
Create Calendars.	157
Create a Group of Calendars	157
Create Events	158
<i>Event invitations.</i>	159
Create Reminders	160
<i>Email a Reminder.</i>	160
Automatic Birthdays Calendar	161
Link Events and Reminders.	162
Backup the Entire Calendar of Information	162
Preview Files Attached to Events	162
Publish Your Calendar	163
<i>Subscribe to Calendars</i>	163
Use iCal in Full-Screen Mode.	164
Print in a Variety of Ways.	165

9 iChat and FaceTime for Text, Audio, and Video Messaging	167
Set Up iChat	168
<i>A sample iChat Buddies panel and chat</i>	168
<i>Make the account active</i>	169
Create an iChat Buddies List	170
Chat with One Other Person	171
Put Multiple Individual Chats in one Window	172
Chat with a Group of People all Together	173
Audio Chat with One or More	174
<i>Open an audio chat and invite others to join you</i>	175
Video Chat with up to Three Other People	176
<i>With whom can you video conference?</i>	176
<i>Audio and video preferences</i>	176
<i>Open a video chat and invite others to join you</i>	177
iChat Effects	178
<i>Add backgrounds</i>	179
iChat Theater	180
<i>Share iPhoto with iChat Theater</i>	181
Bonjour on Your Local Network	182
Record Chats	184
FaceTime	185

10 iTunes for Your Listening Pleasure	187
The iTunes Window	188
Buy Music, Movies, or Television Shows	189
Download Album Art	189
Create a Playlist	190
Import Songs from a CD	191
Create a Smart Playlist	191
Share Your Music	192
<i>Share (streaming) on your local network</i>	192
<i>Home Sharing on your local network</i>	192
Burn a CD of Your own Collection	194
Watch Movies in iTunes	195
Listen to Radio from around the World	196
Audiobooks in iTunes	196
iTunes DJ, Genius Playlist, and Genius Sidebar	197
Print a CD Cover Insert	198
Socialize Musically With Ping	198
Tune in to Visual Effects	199

Preview for Viewing Images, PDFs, and more	201
Open an Image or Folder of Images	202
Unlock or Duplicate to Make Versions	203
Crop an Image	204
Adjust Image Colors or Size	205
Make Screenshots using Preview	206
Import Images from a Camera or Scanner	207
Save an Image as Another Format	207
Working with PDFs	208
<i>Display facing pages or continuous pages</i>	208
<i>Search a PDF</i>	209
<i>Create bookmarks in a PDF</i>	210
<i>Copy text from a PDF to paste elsewhere</i>	211
<i>Annotate a PDF</i>	212
<i>Create a link on an existing PDF</i>	214
<i>Digitize your actual signature for PDFs</i>	216
<i>Fill in PDF forms</i>	217
Print or Fax from Preview	218

 Miscellaneous Tools on Your Mac	221
The App Store: A Shop in Your Dock	222
Use a Burn Folder to Burn a CD or DVD	224
DVD Player	226
<i>Display the thumbnail bar and controls</i>	226
<i>Create bookmarks to find specific points in the video</i>	226
<i>DVD region codes</i>	227
<i>Make DVD video and audio adjustments</i>	227
<i>Create your own personal disc jacket on the screen</i>	228
<i>Go back to the Finder</i>	228
Create PDF Files	229
Font Book	232
<i>Preview and install fonts</i>	232
<i>Install fonts</i>	232
<i>Preview installed fonts</i>	233
<i>Create your own Collections</i>	233
Stickies	234
Photo Booth	236
<i>Take a still picture</i>	236
<i>Add effects to snapshots or video</i>	237
<i>Create a special effects backdrop</i>	238
<i>The 4-up option</i>	238
<i>Make a movie clip of yourself at your computer</i>	239

QuickTime Player	240
<i>Play a movie or audio file</i>	240
<i>Share a movie</i>	242
<i>Trim a movie or audio file.</i>	242
<i>Make a movie clip of yourself at the computer</i>	244
<i>Make a new audio recording.</i>	244
<i>To share or export your movie</i>	245
<i>Make a new screen recording</i>	245
13 Common Tools in Mac OS X Applications	247
Spell Checker	248
<i>Other useful commands for spelling and grammar</i>	250
Fonts Panel	252
<i>Preview.</i>	252
<i>Effects</i>	253
<i>Collections</i>	253
<i>Favorites.</i>	253
<i>Action button options.</i>	253
Characters Viewer.	254
Data Detectors	255
Colors Panel	256
Speech	257
<i>Have your email read out loud</i>	257
<i>Use Services for recording speech.</i>	257
Preview Your Page before Printing	258
Make a PDF of a Page or Document	258
Dictionary Panel	259
14 Working between Mac OS X Applications	261
Work with Multiple Applications at Once	262
<i>Switch between open applications.</i>	262
<i>Switch back and forth between two applications</i>	263
<i>Quit or hide applications.</i>	263
<i>Switch between multiple full-screen applications.</i>	263
Simplify Your Work with Drag-and-Drop.	264
<i>Move text around in a document window</i>	264
<i>Move text from one application to another.</i>	265
<i>Make a text clipping on the Desktop</i>	265
<i>Add email addresses to a Mail message</i>	265
<i>Send contact information through email</i>	266

<i>Make a web location file</i>	266
<i>Save into a particular folder</i>	266
<i>Take advantage of the page proxy</i>	267
<i>Open documents in other applications.</i>	268
<i>Take advantage of spring-loaded folders</i>	268
<i>Drag content, images, or files between applications.</i>	269
Take Advantage of Services	270

MAKE IT YOUR OWN MAC

Personalize Your Mac to Meet Your Needs.	273
Customize the Dock	274
<i>Customize the Dock using System Preferences.</i>	274
<i>Resize the icons and the whole Dock.</i>	275
<i>Customize the Dock with the Apple menu or Dock menu.</i>	275
Customize the Finder.	276
<i>Customize the General preferences.</i>	276
<i>Create labels for files and folders</i>	278
<i>Choose what appears in your Finder window Sidebar.</i>	279
<i>Choose file extensions and turn off the Trash warning</i>	279
Customize the Inside of Finder Windows.	280
<i>Customize the Icon View.</i>	280
<i>Customize the List View</i>	282
<i>Add comments and show the Comments column</i>	283
<i>Organize the columns in List View</i>	284
<i>Customize the Column View</i>	285
<i>Customize the Cover Flow View</i>	286
<i>Customize the Desktop View</i>	287
Take Advantage of the System Preferences.	288
<i>Global versus user-specific preferences</i>	289
<i>How to use the System Preferences</i>	289
<i>Customize the System Preferences pane</i>	292
<i>Find the right System Preferences for your task</i>	293
