

CONTENTS

PART I: INTRODUCTION TO HTML5/JS/CSS	5
Chapter 1: Introduction to Mobile Web Development	7
Mobile Web Examples	8
Understanding Native Versus Web Platforms	9
Pros and Cons of Native Versus Web Platforms	9
Web-to-Native Solutions	11
Devices and Operating Systems	12
Design Aesthetics	13
Dialog Boxes	14
iOS Design Patterns	14
Android Design Patterns	14
Viewports	14
Orientations	16
Fonts	16
Summary	18
Chapter 2: Overview of Mobile Technologies	19
HTML	20
Key HTML5 Features	20
CSS3	28
Key CSS3 Features	29
Javascript	34
jQuery	34
XUI	34
Zepto	35
jQTouch	35
UI Frameworks/Utilities	35
Sencha Touch	35
jQuery Mobile	35
Modernizr	36
iScroll	36
Mustache/JavaScript Templates	37
Summary	38

PART II: APPLICATION SETUP AND INFRASTRUCTURE 39

Chapter 3: Development and Production Setup	41
Development Setup	42
Implementing Local Hosting	43
Setting Up MAMP (For Mac OS X)	43
XAMPP for Windows	45
Using IDEs to Write Your Web App	48
Testing Your Code	51
Setting Up the Production Environment	57
Hosting	57
Infrastructure Setup	58
Managing Bandwidth	59
Summary	59
Chapter 4: Creating the Prototype	61
Using HTML5 to Aid in Structure and Design	62
Using the HTML5 Mobile Boilerplate	62
Application Design	63
Mocking Up Your Pages	64
Settings/About	65
Defining Hash Navigation	73
Pushstate Navigation	75
Summary	76
Chapter 5: Mobile Web Structure	77
Elements to Build	78
Centering Your Content with Viewports	78
Using Full App Mode (iOS Only)	79
Adding Header and Navigation Elements	87
Adding Hash Change Events	89
Transitions	90
Letting Users Scroll Through App Pages	92
Allowing Your Application to Adapt to Orientation Changes	95
Summary	99
Chapter 6: Creating a Mobile Web Database	101
Elements to Build	102
Databases in HTML5	102
Summary	112

PART III: DEVELOPMENT	113
Chapter 7: Interacting with Web SQL	115
Elements to Build	116
Creating the Database and Its Tables	116
Adding Values to the Color Table	118
Building the Manage Wine Page	119
Summary	134
Chapter 8: Geolocation and AJAX	135
Elements to Build	136
Creating the Find Tab	136
Creating the Callback	139
Handling Location with Google Maps	140
Using the Foursquare API to Find Venues	143
Creating the Info Window	147
Building the Refresh Button	150
Summary	152
Chapter 9: Running Queries and Connecting with Social Media	153
Elements to Build	154
Creating the Activity Tab	154
Writing the Query	154
Working with Templates	156
Using Templates to Build the Activity Feed	158
Running Your Script and Displaying the Results Correctly	161
Creating the Wine Detail Page	162
Creating the Wine Detail Page Structure	162
Building the Wine Detail Page Logic	163
Showing Detail on the Page	166
Connecting to External Sites	167
Building the Template	167
Creating the List View	170
Building the Template for Your Tweets	172
Defining a Custom Function for Relative Timestamps	174
Tweaking the Timestamp	175
Changing the Tweet in the List View	177
Sharing on Twitter and Facebook	178
Summary	179

Chapter 10: Location Storage and Search	181
Elements to Build	182
Creating the Mystorage Function	182
Caching Geolocation and Venues	184
Caching Tweets	188
Saving Details in the Settings Tab	189
Searching Your History	191
Summary	195
 PART IV: PERFORMANCE AND PRODUCTION	 197
 Chapter 11: Testing and Organizing Your code	 199
Organizing Your JavaScript Files	200
Setting Up Global.js	201
Creating Database.js	202
Creating Util.js	202
Creating Social.js	203
Creating Geo.js	203
Creating Helper.js	203
Putting It All Together	204
Loading Your JavaScript Files	204
Head.js	205
Manifest Cache	205
Decrease Your Javascript Footprint	206
Mobile Testing Techniques	207
Testing For Corks	207
Summary	209
 Chapter 12: Preparing for Launch	 211
Debugging Tips	212
Testing Environments	212
Development Tools	215
Touch Vs. Mouse Events	221
Performance Tips	221
Mobile Bandwidth	222
JavaScript Optimizations	224
CSS Optimizations	229
Summary	233

Appendix A: HTML5, CSS3, and JavaScript Concepts	235
HTML5	236
Markup	236
Geolocation	238
DOM Storage	240
Cache Manifest	242
CSS3	245
Box Shadow	245
Gradients	249
CSS Animation	257
JavaScript	265
Basic Events	265
Touch Events	267
jQuery	271
Summary	277
Index	279
