PLENARY SESSION PRESENTATIONS

Teaching of GIS in Mexico's Engineering Programs	3
M. A. Domínguez C. and E. Ventura R.	
The Methodology for the Quantitative Assessment of Environmentally Damaged Areas Based on Joint Spatial-Surface Monitoring Data and Its Approbation	12
G. V. Kalabin	
Development of Integrated GIS Applications for Nature Use Management	21
E. N. Cheremisina and A. V. Lyubimova	
"Largest Mineral Deposits of the World" Navigasig CD-ROM: A Synthesis on Metallogeny of Large and Superlarge Mineral Deposits	28
A. Tkachev, S. Cherkasov, and D. Cassard	
The Geostatistical Software Tool Program: Overview and Some Highlighted Features	36
V. A. Maltsev	
GOLD Productivity Mapping in French Guiana Using an Expert-Guided Data-Driven Approach Based on a Regional-Scale GIS	52
D. Cassard, M. Billa, A. Lambert, J.-C. Picot, and Y. Husson	

WORKSHOP MATHEMATICS FOR GEOSCIENCES

Introduction to the Diffraction Theory	61
V. E. Grikurov	
Fractal Image Informatics: From SEM to DEM	74
K. Oleschko, J.-F. Parrot, G. Korvin, M. Esteves, M. Vauelin, V. Torres-Argüelles, C. G. Salado, and S. Cherkasov	

FIELD TRIP

In Vista of New Approaches for the Geoinformatics: One Day Field Trip	97
M. Cerca and D. Carreón	

**SESSION B:
MANAGEMENT OF GEOSCIENTIFIC DATA BY GEOLOGICAL SURVEYS;
3D MODELING AND VIRTUAL REALITY**

Why 3D? The Need for Solution Based Modeling in a National Geoscience Organization	103
R. Terrington, B. Napier, A. Howard, J. Ford, and W. Hatton	
“Carbonatites and Kimberlites of the World” Database and Geoinformation System: Experience of Creation and Use for Solving Geological Tasks	113
S. V. Belov, A. A. Burmistrov, A. A. Soloviev, and E. O. Kedrov	
Using Geomodelling and Geophysical Inversion to Evaluate the Geological Controls on Low-Sulphidation Epithermal Au-Ag Mineralisation in the Drummond and Bowen Basins, Australia	123
L. Feltrin, T. Baker, N. Oliver, M. Scott, K. Wilkinson, M. Fitzell, O. Dixon, and M. Bertelli	
Design and Development of the Index Flood Method in a GIS Interface	149
F. Arellano-Lara, A. I. Ramirez, J. Velazquez-Alvarez, and A. Gutierrez-Lopez	
The Use of a GIS for the Identification of Geologic Structures in the Region of Santa María Amajac, Hidalgo, Mexico	157
J. C. Escamilla Casas, G. Murillo Muñetón, A. Piñán-Llamas, and S. Cruz López	

**SESSION C:
REMOTE SENSING AND GIS INTEGRATION TO EARTH SCIENCE**

Evaluation of the Evapotranspiration in the Chapala Lake Using Weather and Remote Sensing Data	169
F. M. Carrillo-González, M. E. González-Ruelas, V. M. Cornejo-López, V. Martínez-Hernández, F. Zaragoza-Vargas, and M. C. Navarro-Rodríguez	
Geothermal Exploration Using Remote Sensing in the South of Baja California Sur, Mexico	180
C. Báncora and R. M. Prol-Ledesma	
A Semi-Automated Geological Model from Remotely Sensed Data for GIS Mapping and Analysis	189
A. Dadon, A. Peeters, A. Karnieli, and E. Ben-Dor	
Integration of InSAR and GIS in the Study of Surface Faults Caused by Subsidence-Creep-Fault Processes in Celaya, Guanajuato, Mexico	200
J. A. Avila-Olivera, P. Farina, and V. H. Garduño-Monroy	
Scale Estimation and Intensity of Exogenous Geological Processes in Western Siberia with Use of the Remote Data (by the Example of Tomsk Region, Russia)	212
V. A. L'gotin and O. G. Savichev	

Remote Sensing and GIS for Coastal Zone.	224
S. V. Victorov	

SESSION D:

**COMPLEX SYSTEMS GEOSCIENTIFIC MAPPING, SCALE INVARIANCE
AND INTERACTIVE GEOSCIENTIFIC MAP EXPOSITION BASED ON THE GIS**

GIS for Urban Environments. The Case of Buenos Aires	245
P. E. Nabel, J. C. Benedetti, R. M. Becerra Serial, A. Aizemberg, J. Alba Posse, D. Kullock, H. Bisman, and M. Caretti	
Modeling of Paleo Heat-and-Mass Trasport for Prognosys of Mineral Deposits Using GIS	262
S. Cherkasov, D. Cassard, B. Sterligov, E. Arbuzova, and N. Vishnevskaya	

POSTER SESSION

Unmasking Sinkings Zones Caused by Subsidence-Creep-Fault Processes in Morelia, Michoacán, Using INSAR and GIS	273
J. A. Avila-Olivera, P. Farina, and V. H. Garduño-Monroy	
Spanish Geomorphological Mapping Development: From Classical Map to Derived Cartography	274
A. Martin Alfageme, A. Martin Serrano, and A. Angulo Martínez	
Vulnerabilities and Risk in the Mexico City Metropolitan Area: Spatial Information and Knowledge	275
J. L. Tamayo and M. Parás	
The Use of Geographic Information Technologies in Environmental Decision-Making in the State of Michoacán, Mexico.	276
J. T. Silva García, G. Cruz Cárdenas, S. Ochoa Estrada, F. Estrada Godoy, and F. Villalpando Barragán	
List of Participants	277
Conference Photographs	279
Author Index	287
