

# Contents

**Preface**     xi

**About the Authors**     xiii

---

**1 Introduction** **1**

- Koch's Postulate     2
- Terminology     3
- Major Categories of Pathogenic Microorganisms     4
- Transmission of Infectious Disease (Mode of Dissemination)     5
- Universal Precautions     6

---

**2 Host-Microbe Interactions** **9**

- Resident Microbiota     9
- Host Defenses     11

---

**3 Antibiotics and Other Chemotherapeutic Agents** **17**

- Classification of Antibiotics     17
- Summary of the Mechanisms of Action     24

---

**4 Antiseptics and Disinfectants** **25**

- Physical Control of Microorganisms     25
- Chemical Control of Microorganisms     27

---

**5 Gram-Positive Cocci** **31**

- Bacterial Taxonomy (An Overview)     31
- Clinically Important Gram-Positive Cocci     32
- Gram-Positive Cocci Related to *Streptococcus* Species     38

---

**6 Gram-Positive Bacilli** **41**

- Clostridium* Species     41
- Lactobacillus* Species     46
- Bacillus* Species     46
- Listeria* Species     49

**7 Gram-Positive Bacteria with Rudimentary Filaments** **53**

---

*Corynebacterium diphtheriae* 53  
*Mycobacterium* Species 54

**8 Gram-Negative Cocci** **61**

---

*Neisseria* Species 61  
*Moraxella catarrhalis* 64  
*Haemophilus influenzae* 65  
 An Overview of Gram-Negative Bacteria 67

**9 Gram-Negative Bacilli** **69**

---

Specimen Collection 69  
 Media and Laboratory Diagnosis 69  
 Enterobacteriaceae 71  
 Glucose Nonfermenters 78  
 Uncommon Nonfermentative Taxa 81

**10 Miscellaneous Gram-Negative Bacteria** **83**

---

*Brucella melitensis* 83  
*Bordetella pertussis* 85  
*Francisella tularensis* 86  
*Pasteurella* Species 87  
*Vibrio cholerae* 88  
*Aeromonas* Species 90  
*Campylobacter* Species 90  
*Legionella* Species 92  
*Gardnerella vaginalis* 93  
*Chlamydia* Species 94  
*Rickettsia rickettsii* 95  
*Bacteroides* Species 96  
*Calymmatobacterium granulomatis* 96  
*Cardiobacterium hominis* 96  
*Streptobacillus moniliformis* 96  
*Spirillum minus* 97

**11 Spirochetes and Bacteria without a Cell Wall** **99**

---

Spirochetes 99  
 Bacteria without a Cell Wall 103

**12 Actinomycetes** **107**

---

Anaerobic Actinomycetes 108  
 Aerobic Actinomycetes 108  
 Thermophilic Actinomycetes 112

---

**13 Introduction to Pathogenic Fungi and Superficial Mycoses** **113**

---

Yeast-Like Fungi	113	
Molds or Filamentous Fungi	114	
Dimorphic Fungi	114	
Superficial Mycoses	115	
Mucocutaneous Mycoses	121	

---

**14 Subcutaneous and Systemic Mycoses** **125**

---

Subcutaneous Mycoses	125	
Systemic Mycoses	127	
Diseases Caused by Dimorphic Fungi	127	
Diseases Caused by Yeast-Like Fungi	135	
Diseases Caused by Filamentous Fungi	138	
Diseases Caused by Miscellaneous Filamentous Fungi	143	

---

**15 Unicellular Parasites** **145**

---

Laboratory Methods in Parasitology	145	
Diseases Caused by Lumen-Dwelling Protozoa	146	
Blood- and Tissue-Dwelling Protozoa	149	

---

**16 Multicellular Parasites** **155**

---

Lumen-Dwelling Helminths	155	
Blood- and Tissue-Dwelling Helminths	161	

---

**17 Viruses and Prions** **165**

---

Laboratory Diagnosis	166	
Double-Stranded DNA Viruses	166	
Single-Stranded DNA Viruses	171	
Double-Stranded RNA Viruses	171	
Single-Stranded RNA Viruses	171	
Prions	179	

---

**Bibliography and Suggested Reading** **181**

---

**Index** **185**
